# BRINKS 80mm 4-Dial Resettable Combination Lock Box

Model: 675-80002

## 1. INTRODUCTION

The BRINKS 80mm 4-Dial Resettable Combination Lock Box is a robust and secure solution for storing keys or key cards, providing convenient access for authorized individuals. Its durable construction and resettable combination mechanism make it ideal for various applications, including granting access to cleaners, realtors, contractors, or family members.

## 2. FEATURES

This lock box is engineered with features designed for security and ease of use:

- **80mm Aluminum Body:** Provides high security and durability.
- **4-Dial Resettable Combination:** Allows for easy setting, resetting, and personalization of your access code.
- **Key Capacity:** Accommodates up to 10 keys or key cards.
- **Wall Mountable:** Designed for easy installation on any solid surface.
- **Versatile Usage:** Suitable for both indoor and outdoor applications, including front doors, backdoors, backyards, or side gates.

## 3. SETUP

### 3.1 Mounting the Lock Box

The BRINKS lock box is designed for easy mounting on any solid surface. Ensure the chosen location is secure and provides convenient access while remaining discreet if desired.

1. Select a suitable mounting surface (e.g., wall, post).
2. Mark the drilling points using the lock box as a template.
3. Drill pilot holes appropriate for your mounting hardware (not included).
4. Secure the lock box to the surface using screws or other suitable fasteners.

Image 3.1: Rear view of the lock box, illustrating the design for wall mounting.

### **3.2 Setting Your Combination**

The lock box comes with a factory-set combination, typically 0-0-0-0. You can easily reset this to a personalized code.

1. Open the lock box using the current combination (factory default or previous setting).
2. Locate the reset lever or button inside the lock box, usually on the back of the door or inside the compartment.
3. Move the reset lever to the 'SET' position (or press the reset button). Refer to the specific markings inside your lock box.
4. While the lever is in the 'SET' position, rotate the dials to your desired new 4-digit combination. Choose a memorable but secure code.
5. Return the reset lever to the 'LOCK' position (or release the reset button).
6. Scramble the dials to lock the box and test your new combination to ensure it works correctly before closing the door.

## 4. OPERATING INSTRUCTIONS

### 4.1 Opening the Lock Box

1. Rotate the four dials to align with your preset combination.
2. Once the correct combination is entered, pull down the cover to reveal the key compartment.

### 4.2 Storing and Retrieving Keys

1. Place keys or key cards inside the compartment. Ensure they fit without obstructing the closing mechanism.
2. To close, push the cover back up until it clicks securely into place.
3. Scramble the dials to lock the box and secure its contents.

## 5. MAINTENANCE

To ensure the longevity and smooth operation of your BRINKS lock box, consider the following maintenance tips:

- **Cleaning:** Periodically wipe the exterior with a soft, damp cloth to remove dirt and grime. Avoid abrasive cleaners.
- **Lubrication:** If the dials become stiff, apply a small amount of silicone-based lubricant to the moving parts of the combination mechanism. Do not use oil-based lubricants as they can attract dust.
- **Inspection:** Regularly check for any signs of wear, damage, or corrosion, especially if installed outdoors.

## 6. TROUBLESHOOTING

If you encounter issues with your lock box, try the following solutions:

- **Difficulty Opening:**
  - Ensure the combination is precisely aligned with the indicator marks.
  - Verify you are using the correct combination.
  - Check for any debris obstructing the opening mechanism.
- **Dials are Stiff:**
  - Apply a small amount of silicone lubricant to the dials.
  - Clean any accumulated dirt around the dials.
- **Forgotten Combination:**
  - Unfortunately, if the combination is forgotten and the box is locked, there is no master key or override. You may need to contact BRINKS customer support for further assistance or consider professional locksmith services.

## 7. SPECIFICATIONS

Feature	Detail
---------	--------

Brand	BRINKS
Model Name	Lock Box
Item Model Number	675-80002
Lock Type	Combination Lock
Special Feature	Resettable
