OPERATING INSTRUCTIONS

1. Power On/Off:

- Press the **Z/T** button to turn on the scale.
- To turn off, press and hold the **Z/T** button for 3 seconds, or the scale will automatically shut off after 2 minutes of inactivity.

2. Unit Selection:

- With the scale on, press the **UNIT** button to cycle through weight units: pounds (lb) and kilograms (kg).
- The scale also displays ambient temperature. Press the **UNIT** button again to switch between Fahrenheit (°F) and Celsius (°C) for temperature display.

What's Included

Image Description: The Etekcity EL11 Digital Luggage Scale is shown displaying temperature readings in both a warm, sunny environment (94°F) and a cold, snowy environment (4°F), illustrating its temperature measurement feature.

3. Weighing Luggage:

1. Attach the webbed belt to the handle of your luggage.
2. Lift the scale by its handle, ensuring the luggage is suspended freely.
3. Hold the scale steady until the display shows a stable weight reading. The reading will lock after a few seconds.
4. Lower the scale and luggage. The weight will remain displayed for a short period before resetting.

4. Tare Function:

- To weigh items in a container, first attach the empty container to the scale.
- Press the **Z/T** button to zero out the weight of the container. The display will show "0.00".
- Add the items to be weighed into the container. The display will show the net weight of the items.

MAINTENANCE

Cleaning:

- Wipe the scale with a soft, damp cloth.
- Do not use abrasive cleaners or immerse the scale in water.

Battery Replacement:

- When the low battery indicator appears on the display, replace the CR2032 battery as described in the "Battery Installation" section.

Storage:

- Store the scale in a cool, dry place.
- Avoid placing heavy objects on the scale during storage.
