SAFETY INFORMATION

Warning:

- This product is not suitable for children under 14 years of age.
- Contains small parts which may pose a choking hazard.
- Use adhesives and paints in a well-ventilated area as per their respective safety instructions.
- Always supervise younger individuals if they are assisting with assembly, ensuring they adhere to age recommendations.

ASSEMBLY INSTRUCTIONS

Follow these steps carefully to assemble your locomotive shed kit:

1. **Step 1: Unpack Components.** Carefully remove all parts from the packaging. Verify that all components listed in the parts diagram (if included) are present and undamaged.
2. **Step 2: Assemble Structure.** Mount the components carefully according to the attached assembly diagram. Pay close attention to the orientation and interlocking mechanisms of each piece. Use appropriate model adhesive (not included) where indicated for a secure bond.
3. **Step 3: Apply Color.** With the supplied color set (if included) or your preferred model paints, apply the desired colors to the model. Allow sufficient drying time between coats and before proceeding to the next step.

4. **Step 4: Final Curing.** Allow the assembled and painted model to dry completely before handling or placing it on your layout.

Figure 2: Conceptual representation of an assembly diagram. Refer to the diagram included in your kit for precise instructions.

PLACEMENT AND INTEGRATION

- Once assembled and fully dry, your locomotive shed can be integrated into your model railway layout. Consider the following:
- **Location:** Choose a suitable location on your layout that complements your railway theme and provides easy access for viewing and maintenance.
 - **Securing:** For permanent placement, you may wish to secure the shed to your baseboard using model adhesive or small screws (ensure these do not damage the model or baseboard).
 - **Landscaping:** Integrate the shed into its surroundings with appropriate landscaping materials such as ballast, grass, trees, and figures to enhance realism.
 - **Track Alignment:** Ensure the shed's track entrance aligns perfectly with your H0 scale track for realistic locomotive movement.

MAINTENANCE

- To keep your Vollmer locomotive shed in excellent condition:
- **Cleaning:** Dust the model regularly with a soft brush or compressed air to prevent dust buildup. Avoid using harsh chemicals or abrasive cleaners.
 - **Storage:** If storing the model, place it in a dry, cool environment away from direct sunlight to prevent fading or warping.
 - **Handling:** Handle the model carefully to avoid damaging delicate parts.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Parts do not fit together.	Incorrect orientation; excess plastic from molding; insufficient adhesive.	Check the assembly diagram for correct orientation. Carefully trim any excess plastic with a hobby knife. Ensure sufficient, but not excessive, adhesive is used.
Paint does not adhere well.	Surface not clean; incorrect paint type; humidity.	Ensure parts are clean and free of oils before painting. Use paints designed for plastic models. Paint in a dry, dust-free environment.
Model appears unstable.	Incomplete bonding; uneven base.	Allow sufficient curing time for all adhesive joints. Ensure the surface where the model is placed is flat and stable.

SPECIFICATIONS

Feature	Detail
---------	--------

Feature	Detail
Brand	Vollmer
Model Number	45763
Scale	H0 (1:87)
Product Dimensions (L x W x H)	32 x 9.5 x 11.8 cm (320x95x118 mm)
Material	Plastic
Recommended Age	14 years and older
Assembly Required	Yes
Color	Brown (as per product description, actual kit may require painting)
