MiLocks DF-02AQ

MiLocks DF-02AQ Electronic Keyless Entry Touchpad Deadbolt Door Lock Instruction Manual

MODEL: DF-02AQ | BRAND: MiLOCKS

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your MiLocks DF-02AQ Electronic Keyless Entry Touchpad Deadbolt Door Lock. This keyless touchpad deadbolt allows access using a unique passcode and can store up to 6 user codes. The backlit touchpad enhances visibility for nighttime operation. This deadbolt is designed as a direct replacement for traditional deadbolts and is compatible with both left-handed and right-handed doors.

2. SETUP AND INSTALLATION

Proper installation is crucial for the optimal performance of your MiLocks deadbolt. Please follow these steps carefully.

2.1 Door Preparation and Latch Adjustment

Ensure your door meets the required specifications: door thickness between 1 1/4" and 1 7/8" (up to 2.25" with an extension kit, available from the manufacturer). The adjustable latch supports backset settings of 2 3/8" (60mm) or 2 3/4" (70mm).

Figure 1: Front dimensions of the MiLocks DF-02AQ deadbolt, showing a height of 6 inches and width of 3 3/16 inches.

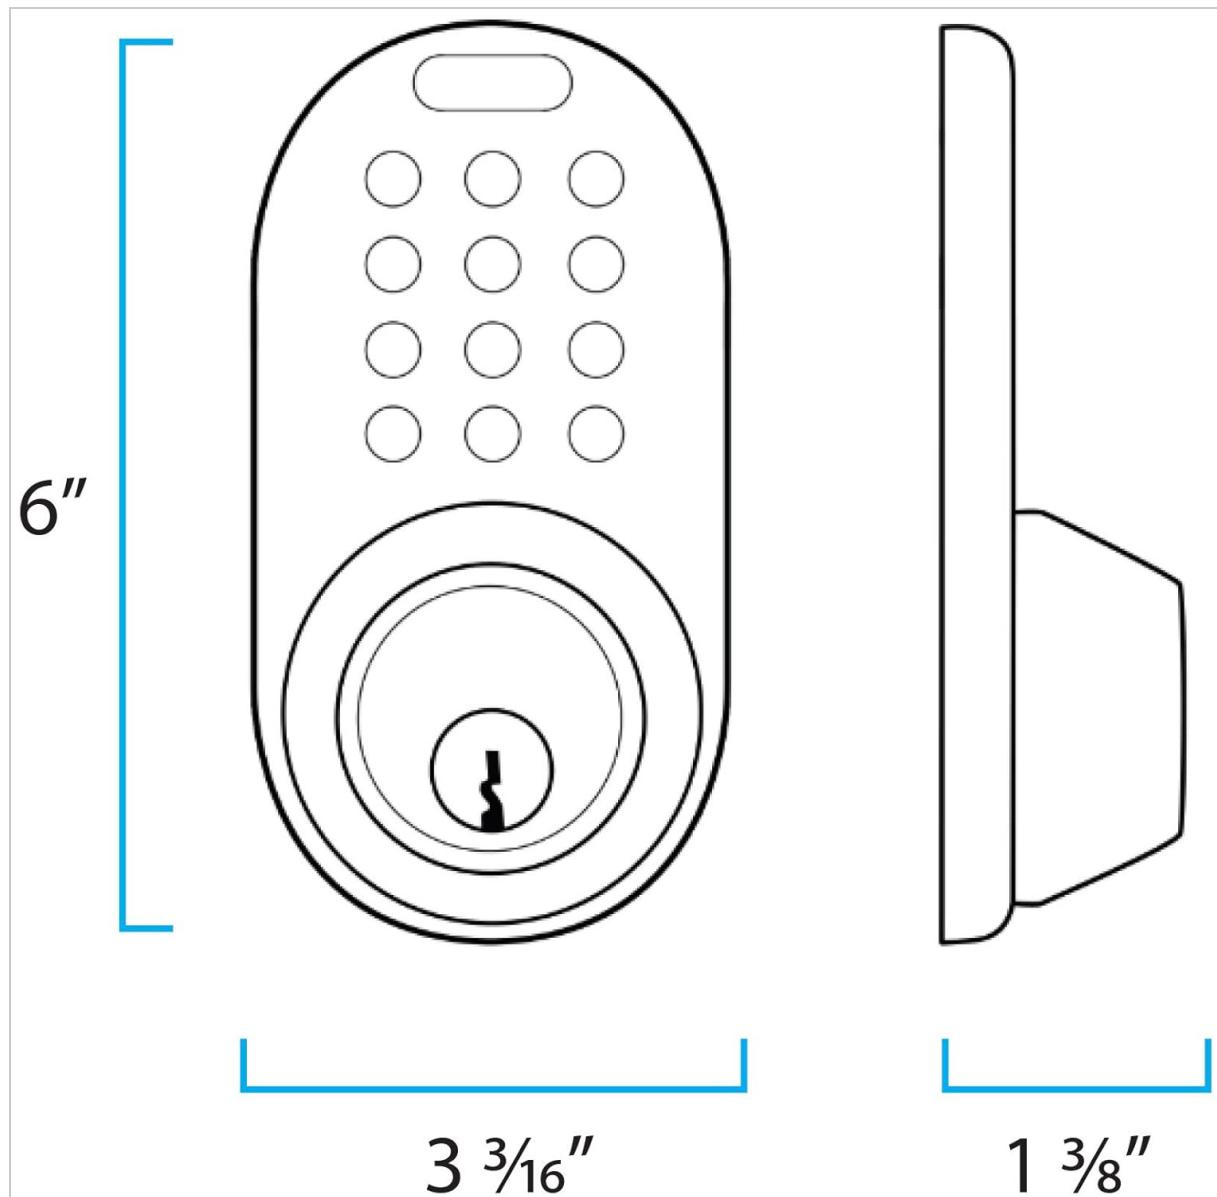

Figure 2: Side dimensions of the MiLocks DF-02AQ deadbolt, showing a depth of 1 3/8 inches for the front module and 1 3/4 inches for the back module.

2.2 Installation Video Tutorial

Video 1: MiLocks Keyless Entry Deadbolt Door Installation Tutorial. This video provides a step-by-step guide on how to install the MiLocks keyless entry deadbolt on your door.

For a visual guide on the installation process, including how to adjust the latch and secure the modules, please refer to the official MiLocks installation tutorial video above.

3. OPERATING INSTRUCTIONS

Your MiLocks deadbolt offers convenient keyless access. Follow these instructions to program and use your lock.

3.1 Programming User Codes

The lock allows you to add up to 6 unique user passcodes. The backlit touchpad illuminates for easy code entry, especially in low-light conditions.

Video 2: MiLocks Keyless Entry Programming Tutorial. This video demonstrates how to program and manage user codes for your MiLocks deadbolt.

3.2 Locking and Unlocking

- **To Lock:** Press the lock button on the touchpad. The deadbolt will extend, and you will hear an audible tone.
- **To Unlock:** Enter your programmed user code followed by the unlock button. The deadbolt will retract, accompanied by an audible tone.

4. MAINTENANCE

4.1 Battery Replacement

The lock operates on 4 AA batteries (not included). An audible low battery warning will sound when replacement is needed. Always use new, high-quality alkaline batteries for optimal performance.

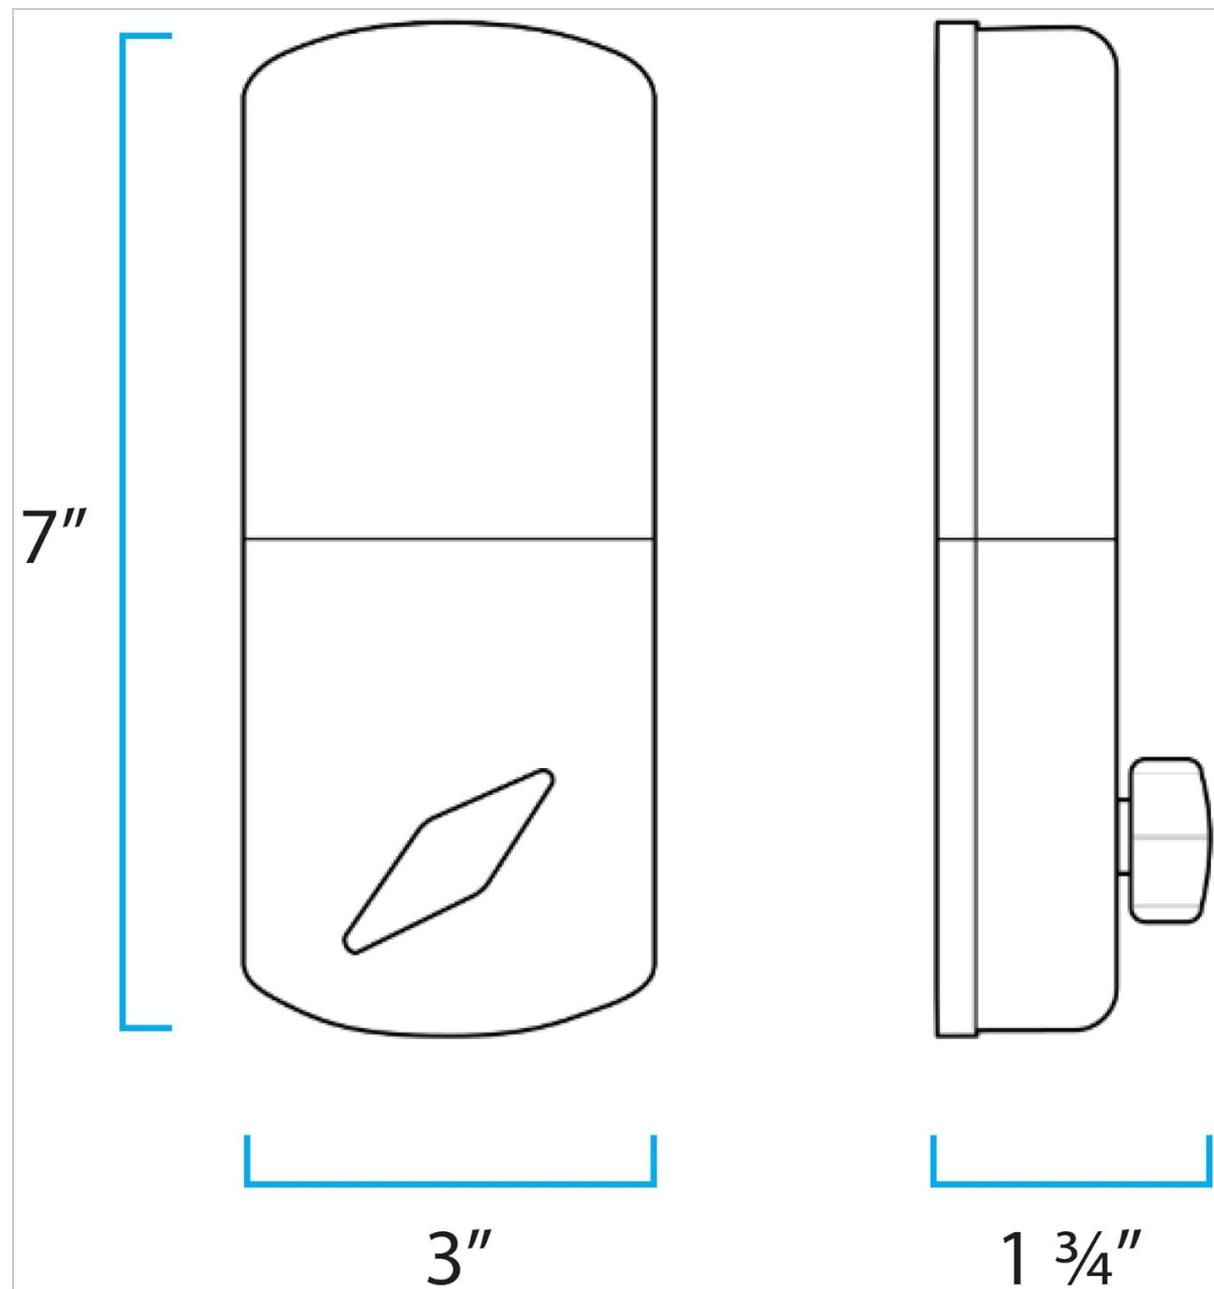

Figure 3: Rear view of the MiLocks DF-02AQ deadbolt with the battery cover off, revealing the battery tray.

4.2 Cleaning

Clean the touchpad and exterior surfaces with a soft, damp cloth. Avoid abrasive cleaners or solvents that could damage the finish or electronic components.

5. TROUBLESHOOTING

- **Lock not responding:** Check battery levels and replace if necessary. Ensure the internal wiring is securely connected.
- **Code not working:** Verify that the correct code is being entered. If issues persist, try clearing all codes and reprogramming them as shown in the programming tutorial video.
- **Deadbolt not engaging/retracting:** Ensure the latch is properly aligned and installed. Check the orientation of the drive bar during installation.

For further assistance, please contact customer support.

6. SPECIFICATIONS

Feature	Detail
Brand	MiLocks
Model Name	DF-02AQ
Special Feature	Keyless
Lock Type	Keypad
Item Dimensions (L x W x H)	6.25 x 3 x 7 inches
