## TENGA TOC-004US

# TENGA TOC-004US Ultra-Size Double-Hole Male Masturbator Cup Instruction Manual

Model: TOC-004US | Brand: TENGA

## 1. INTRODUCTION

This manual provides detailed instructions for the safe and effective use of your TENGA TOC-004US Ultra-Size Double-Hole Male Masturbator Cup. Please read this manual thoroughly before first use and retain it for future reference.

The TENGA TOC-004US is a disposable male masturbator designed with engineering advancements to provide varied sensations. It features a dual-ended structure with two distinct internal canals. The Ultra-Size designation indicates a larger design compared to standard TENGA CUPS, accommodating users up to 18cm and offering stronger suction.

## 2. PRODUCT OVERVIEW

The TENGA TOC-004US features a unique double-hole design, offering two distinct internal experiences:

- **Bitter Side:** Provides a strong constriction.
- **Sweet Side:** Offers gentle stimulation and envelopment.

The internal elastomer sleeve provides detailed stimulation, and the urethane foam wall contributes to tactile feedback. Key features include a Smooth Pad insertion mechanism for automatic lubricant application and enhanced adherence, along with an air-hole and air-release valve for adjustable suction.

Figure 2.1: TENGA TOC-004US Ultra-Size Double-Hole Cup. This image displays the product in its packaging, highlighting the "U.S. TENGA" and "DOUBLE HOLE CUP" branding.

Figure 2.2: Internal Structure Diagram. This diagram illustrates the internal design, showing the "Bitter Side" with strong constriction, the "Sweet Side" for gentle envelopment, "Reverse Nodules" for gliding entry, and the "Smooth Pad" insertion mechanism. It also indicates separate sleeves for hygienic performance and a "Bumpy Zone" for vigorous entry.

### 3. SETUP

---

1. **Unpack:** Carefully remove the TENGA TOC-004US from its packaging.
2. **Prepare:** The product is pre-lubricated. No additional lubricant is required for initial use.
3. **Open:** Remove the cap from the desired end (Bitter Side or Sweet Side) you wish to use first.

### 4. OPERATING INSTRUCTIONS

---

The TENGA TOC-004US is designed for single-use convenience.

1. **Choose Your Side:** Select either the "Bitter Side" for strong constriction or the "Sweet Side" for gentle stimulation. You may also experiment with both sides.
2. **Insertion:** Gently insert into the opening. The Smooth Pad mechanism will automatically apply lubricant and ensure adherence.
3. **Adjust Suction:** For increased suction, cover the air-hole located at the top of the cup with your finger. Releasing the air-hole will reduce suction.
4. **Experience:** Enjoy the sensations provided by the internal textures.

## **Le Smooth Pad assure une pénétration et une utilisation agréable !**

Toute la gamme TENGA CUP est équipée du système Smooth Pad ! Ce dispositif permet l'application automatique de lubrifiant lors de la pénétration, il assure une meilleure adhérence, une étanchéité à l'air et il retient le lubrifiant à l'intérieur !

Figure 4.1: Adjusting Suction. This image shows a hand covering the air-hole on the top of the TENGA cup, demonstrating how to increase suction during use.

## Disponible en deux tailles !

Choisissez entre la version classique et XL « UltraSize » TENGGA !

### 5. MAINTENANCE AND DISPOSAL

The TENGGA TOC-004US is designed for single-use and is not intended for cleaning or reuse. Attempting to clean or reuse the product may compromise its integrity and hygiene.

1. **After Use:** Once finished, replace the cap securely on the cup.
2. **Disposal:** Dispose of the used product responsibly according to local waste disposal guidelines.

### 6. TROUBLESHOOTING

- **Issue: Insufficient Suction.**

**Solution:** Ensure the air-hole on the top of the cup is fully covered during use to maximize suction. If the air-hole is not covered, air can escape, reducing the vacuum effect.

- **Issue: Internal components feel loose or dislodged.**

**Solution:** While the product is designed for single-use, minor shifts in internal components can occur. This typically does not affect functionality. If the product appears significantly damaged or compromised, dispose of it and use a new one.

- **Issue: Product feels too tight or too loose.**

**Solution:** The TOC-004US is an Ultra-Size model. If it feels too tight, consider other TENGGA

products designed for different dimensions. If it feels too loose, ensure proper suction is maintained by covering the air-hole. The dual-hole design offers varied sensations; try the other side for a different experience.

## 7. SPECIFICATIONS

Attribute	Detail
Model Number	TOC-004US
Brand	TENGA
Product Dimensions (L x W x H)	3.01 x 3.09 x 7.09 inches
Item Weight	10.08 ounces
Material	Thermoplastic Elastomer (TPE)
Color	White (Outer packaging may vary)
Style	Double Hole Cup

## TOC-004US TENGA ROLLING HEAD CUP

Disposable Item      Lotion Included

Materials: Elastomer / PE / PU / PP

Lotion Ingredients: Water, Glycerin, Hydroxyethylcellulose, Sodium Polyacrylate, Phenoxyethanol, Methylparaben, Hydroxypropyl Cyclodextrin, Iodopropynyl Butylcarbamate
