Marshall Mode EQ Wired in-Ear Headphones User Manual

Model: 04090940

Brand: Marshall

PRODUCT OVERVIEW

The Marshall Mode EQ headphones deliver powerful audio in a compact design. Featuring custom drivers for high-output sound with minimal distortion, and a unique in-ear design for a comfortable and secure fit. The integrated EQ switch on the remote allows for sound customization.

Image: An overview of the Marshall Mode EQ headphones, highlighting the black earbuds with gold 'M' logo, the inline remote, and the L-shaped 3.5mm audio jack.

SETUP

Ear Tip Selection and Fit

The Marshall Mode EQ headphones come with multiple ear tip sizes to ensure optimal sound quality and comfort. Proper fit is crucial for achieving the intended audio performance and call clarity.

Image: Close-up of a single Marshall Mode EQ earbud, showing the 'L' (left) indicator and the silicone ear tip.

1. Select the ear tips that provide the most snug and comfortable fit in your ear canals. Experiment with different sizes (small, medium, large, extra-large) to find the best seal.
2. Gently insert each earbud into the corresponding ear (Left for 'L', Right for 'M' logo) until it feels secure and comfortable.
3. Adjust the earbuds slightly to ensure a proper seal, which will enhance bass response and noise isolation.

Connecting to Your Device

The Mode EQ headphones connect via a standard 3.5mm audio jack.

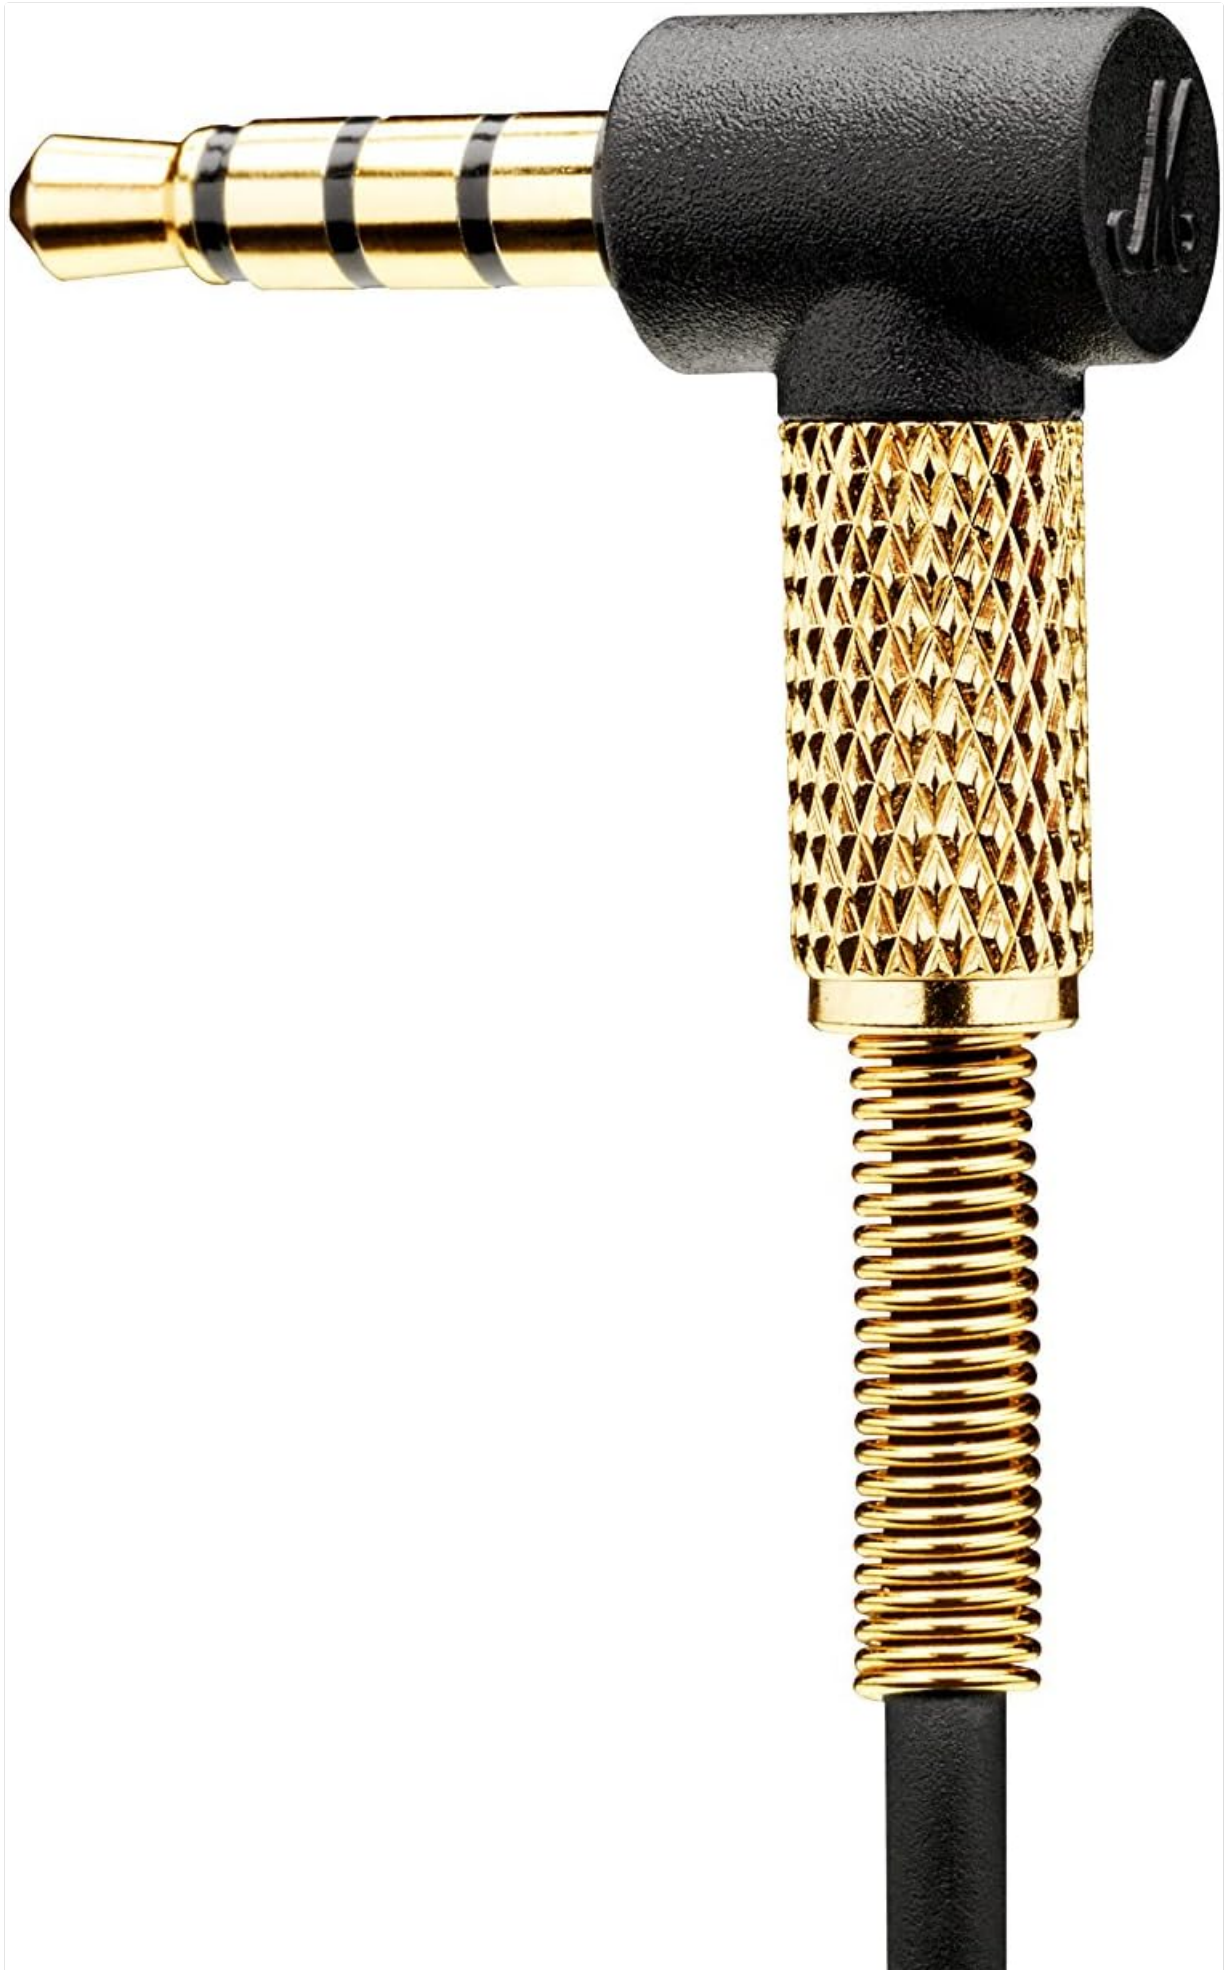

Image: Detail of the durable L-shaped 3.5mm audio jack, designed to prevent cable damage.

1. Locate the 3.5mm headphone jack on your audio device (smartphone, tablet, laptop, etc.).
2. Insert the L-shaped 3.5mm plug of the headphones firmly into the device's headphone jack.
3. Ensure the connection is secure to prevent audio interruptions.

OPERATING INSTRUCTIONS

Inline Remote Control

The Marshall Mode EQ features an inline remote with a microphone and an EQ switch for convenient control of your audio and calls.

Image: The inline remote control of the Marshall Mode EQ headphones, featuring the Marshall logo, a button, and the EQ switch.

Action	Function
Single Press	Play/Pause music, Answer/End call
Double Press	Skip to next track
Triple Press	Go to previous track
Press and Hold	Activate voice assistant (if supported by device)

EQ Switch

The Mode EQ headphones feature a unique EQ switch on the inline remote, allowing you to instantly switch between two distinct sound profiles:

- **EQ 1 (Bass-Heavy):** Provides a warm sound with deep, rich bass, ideal for genres like rock, hip-hop, and electronic music.
- **EQ 2 (Balanced):** Offers a more balanced sound profile with crisp mids and clear highs, suitable for acoustic, classical, and vocal-centric music.

To switch between EQ modes, simply slide the small switch located on the side of the inline remote.

MAINTENANCE

To ensure the longevity and optimal performance of your Marshall Mode EQ headphones, follow these maintenance guidelines:

- **Cleaning:** Regularly wipe the earbuds and cable with a soft, dry cloth. For ear tips, remove them and clean with mild soap and water, then dry thoroughly before reattaching.
- **Storage:** When not in use, store your headphones in a clean, dry place. Avoid extreme temperatures and direct sunlight. The tangle-resistant cable helps prevent knots, but gentle coiling is recommended.
- **Cable Care:** Avoid sharp bends or excessive pulling on the cable, especially near the connectors and earbuds, to prevent internal wire damage. The L-shaped jack is designed for durability, but proper handling is still important.
- **Ear Tip Replacement:** If ear tips become worn or lost, use only genuine Marshall replacement tips to maintain sound quality and fit.

TROUBLESHOOTING

If you encounter issues with your Marshall Mode EQ headphones, refer to the following common solutions:

Problem	Solution
No sound or low volume	Ensure the 3.5mm jack is fully inserted into your device. Check the volume level on your device and ensure it's not muted. Test with another audio source or device to rule out device issues. Clean the ear tips and ensure they are properly seated on the earbuds.
Distorted sound	Lower the volume on your device. Ensure the ear tips are clean and properly fitted. Test with another audio source.
Microphone not working	Ensure the 3.5mm jack is fully inserted. Check your device's settings to ensure the correct microphone input is selected. Test the microphone with another application or device.
Earbuds falling out	Experiment with different ear tip sizes to find a more secure fit. Ensure the earbuds are inserted correctly into your ear canal.

SPECIFICATIONS

Feature	Detail
Model Name	04090940
Connectivity Technology	Wired
Headphones Jack	3.5 mm Jack
Frequency Range	20 Hz - 20,000 Hz

Feature	Detail
Control Type	Remote (with EQ switch)
Microphone	Yes
Cable Feature	Retractable, Tangle-resistant
Material	Brass accents
Item Weight	0.564 ounces
Dimensions	7.28 x 3.82 x 2.05 inches (packaging)
