Samsonite 61338-1041

Samsonite Electronic Luggage Scale Instruction Manual

Model: 61338-1041

INTRODUCTION

The Samsonite Electronic Luggage Scale (Model 61338-1041) is designed to provide accurate weight measurements for your luggage, helping you avoid unexpected overweight baggage fees. This compact and portable device features a digital LCD display, a comfortable grip handle, an adjustable strap, and a built-in tape measure for convenience. Please read this manual thoroughly to ensure proper use and maintenance of your luggage scale.

SETUP

1. Battery Installation

1. Locate the battery compartment on the back of the scale.
2. Slide open the battery compartment cover.
3. Insert two (2) AAA batteries, ensuring correct polarity (+/-) as indicated inside the compartment.
4. Close the battery compartment cover securely.

2. Power On/Off

- To power on the scale, press the **ON/TARE** button. The LCD display will illuminate.
- To power off the scale, press and hold the **ON/TARE** button for a few seconds, or the scale will automatically shut off after approximately 60 seconds of inactivity to conserve battery life.

3. Unit Selection

- With the scale powered on, press the **UNIT** button to cycle through the available measurement units: pounds (lb), kilograms (kg), and ounces (oz).
- Select your desired unit before weighing.

OPERATING INSTRUCTIONS

1. Weighing Luggage

1. Ensure the scale is powered on and set to your preferred unit of measurement.
2. Attach the metal hook at the bottom of the scale to the handle of your luggage. Ensure the luggage is securely attached.
3. Lift the scale by its comfort-grip handle, holding it steady and allowing the luggage to hang freely.
4. Wait for the weight reading to stabilize on the LCD display. The display will typically lock the reading once stable.
5. Lower the luggage and detach it from the hook.

2. Tare Function

- The tare function allows you to weigh items in a container without including the container's weight.
- Attach an empty container (e.g., a bag or basket) to the scale's hook.
- Press the **ON/TARE** button. The display will reset to zero.
- Place the items you wish to weigh into the container. The display will show only the weight of the items.

3. Using the Built-in Tape Measure

- The scale includes a retractable tape measure (Max length 31.5 inches) for checking luggage dimensions.
- Gently pull the tape measure from the side of the scale.
- Measure the dimensions of your luggage as needed.
- Press the button on the side of the scale to retract the tape measure.

MAINTENANCE

- **Cleaning:** Wipe the scale with a soft, damp cloth. Do not use abrasive cleaners or immerse the scale in water.
- **Battery Replacement:** Replace batteries when the low battery indicator appears on the display. Always replace both batteries simultaneously with new AAA batteries.
- **Storage:** Store the scale in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

- **Display not turning on:** Check if batteries are installed correctly and are not depleted. Replace if necessary.
- **Inaccurate readings:** Ensure the scale is held steady and the luggage is not touching the ground or any other surface during weighing. Recalibrate by turning off and on, or by using the tare function with no weight.
- **Weight limit exceeded:** If the display shows an overload indicator, the luggage weight exceeds the 80 lb (36 kg) capacity. Remove items to reduce the weight.

SPECIFICATIONS

Feature	Detail
---------	--------

Brand	Samsonite
Model Number	61338-1041
Color	Black
Weight Limit	80 lbs (36 kg)
Readout Accuracy	+/- 1%
