Behringer PPA2000BT

Behringer Europort PPA2000BT

8-CHANNEL PORTABLE PA SYSTEM WITH BLUETOOTH INSTRUCTION MANUAL

Introduction

The Behringer Europort PPA2000BT is a powerful and versatile 8-channel portable PA system designed for a wide range of applications, including live performances, public speaking, educational presentations, and corporate events. This all-in-one system combines a high-quality mixer, a 2000-watt amplifier, and two full-range loudspeakers into a compact and easy-to-transport unit. Featuring integrated Bluetooth connectivity, it allows for seamless audio streaming from compatible devices. The system also includes a built-in effects processor and a graphic equalizer for precise sound shaping.

Figure 1: The Behringer Europort PPA2000BT portable PA system, showing the central mixer unit flanked by two loudspeakers.

Important Safety Instructions

To ensure safe operation and prevent damage to the unit, please observe the following safety guidelines:

- Read and retain these instructions for future reference.
- Heed all warnings on the product and in the operating instructions.
- Do not use this apparatus near water or in damp environments.
- Clean only with a dry cloth.
- Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding-type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- Protect the power cord from being walked on or pinched, particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- Only use attachments/accessories specified by the manufacturer.
- Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
- Unplug this apparatus during lightning storms or when unused for long periods of time.
- Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

Setup Guide

Unpacking

Carefully remove the PPA2000BT system components from their packaging. Inspect all items for any signs of damage that may have occurred during transit. Retain the original packaging for future transport or storage.

Component Identification

The PPA2000BT system consists of a central powered mixer unit and two passive loudspeakers. The mixer unit houses all input and output connections, controls, and the amplifier. The speakers connect to the mixer to deliver audio output.

Figure 2: Front view of the PPA2000BT components, highlighting the mixer and two speakers.

Figure 3: Rear view of the PPA2000BT components, showing the connection panel on the mixer and speaker backs.

Connecting the System

1. **Speaker Connection:** Use the provided speaker cables to connect the two loudspeakers to the "SPEAKER OUT" jacks on the rear of the mixer unit. Ensure a secure connection for both left and right channels.
2. **Power Connection:** Connect the supplied AC power cord to the power inlet on the rear of the mixer unit, then plug the other end into a suitable grounded electrical outlet.

Initial Power On

Before powering on, ensure all volume controls on the mixer are set to their minimum (fully counter-clockwise) position. Press the POWER switch located on the rear of the mixer unit. The power indicator light on the front panel will illuminate, indicating the system is ready for operation.

Operating Instructions

Mixer Controls Overview

The PPA2000BT mixer features 8 channels, including 4 microphone/line inputs and 2 stereo line inputs, along with dedicated controls for each. It also includes a master section with effects, equalization, and overall volume control.

Figure 4: Detailed view of the PPA2000BT mixer control panel.

Input Channels (Microphone/Line)

Channels 1-4 are equipped with combination XLR/1/4" TRS inputs, suitable for microphones or line-level instruments. Adjust the GAIN control for each channel to achieve an optimal input level, ensuring the CLIP LED does not illuminate frequently. Use the TREBLE and BASS controls to adjust the tone of each input. The FX control sends a portion of the signal to the internal effects processor.

Stereo Line Inputs

Channels 5/6 and 7/8 are stereo line inputs, ideal for connecting devices like keyboards, CD players, or other audio sources using 1/4" TRS cables or RCA connectors. Adjust their respective volume controls as needed.

Bluetooth Connectivity

The PPA2000BT features integrated Bluetooth for wireless audio streaming. To pair a device:

1. Activate Bluetooth on your smartphone or other compatible device.
2. Press the BLUETOOTH button on the mixer. The Bluetooth indicator will flash, indicating pairing mode.
3. Select "BEHRINGER PPA2000BT" from the list of available devices on your audio source.
4. Once paired, the indicator will glow solid, and you can stream audio wirelessly. Adjust the Bluetooth volume control on the mixer.

Effects Processor

The built-in effects processor offers various digital effects such as reverb, chorus, and flanger. Use the FX SELECT knob to choose an effect and the FX LEVEL control to adjust the overall wet/dry mix of the effects. Individual channel FX controls determine how much of that channel's signal is sent to the effects processor.

Equalization

The PPA2000BT includes a 7-band graphic equalizer to fine-tune the overall sound of your mix. Adjust the sliders to boost or cut specific frequency ranges to suit your acoustic environment or musical preference.

Figure 5: Illustration of graphic equalizer sliders for sound adjustment.

Master Volume Control

The MASTER VOLUME knob controls the overall output level of the entire PA system. Gradually increase this control after setting individual channel levels to avoid sudden loud sounds.

Maintenance

Regular maintenance ensures the longevity and optimal performance of your PPA2000BT system.

- **Cleaning:** Disconnect the power before cleaning. Use a soft, dry cloth to wipe down the exterior surfaces of the mixer and speakers. Do not use liquid cleaners, aerosols, or abrasive materials, as they may damage the finish or internal components.
- **Storage:** When not in use, store the system in a cool, dry place, away from direct sunlight and extreme temperatures. It is recommended to use the original packaging or a protective case for storage and transport to prevent physical damage.
- **Ventilation:** Ensure that the ventilation openings on the mixer unit are kept clear of dust and debris to prevent overheating.

Troubleshooting

If you encounter issues with your PPA2000BT, refer to the table below for common problems and their solutions.

Problem	Possible Cause	Solution
No power	Power cord not connected; Power switch off; Faulty outlet/fuse.	Ensure power cord is securely connected and plugged into a live outlet. Check the power switch. Test the outlet with another device or check the circuit breaker.

Problem	Possible Cause	Solution
No sound from speakers	Speaker cables disconnected; Master volume too low; Individual channel volume too low; Input source not connected or muted.	Verify speaker cable connections. Increase MASTER VOLUME. Increase individual channel volume. Check input source connection and ensure it's playing audio.
Distorted sound	Input gain too high; Master volume too high; Speaker impedance mismatch (unlikely with included speakers).	Reduce individual channel GAIN. Reduce MASTER VOLUME. Ensure CLIP LEDs are not constantly lit.
Bluetooth connection issues	Device not in pairing mode; Out of range; Interference.	Ensure PPA2000BT is in Bluetooth pairing mode (flashing LED). Move device closer to the mixer. Minimize other wireless devices nearby. Try re-pairing the device.

Technical Specifications

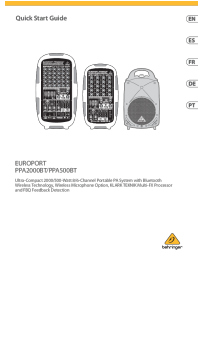

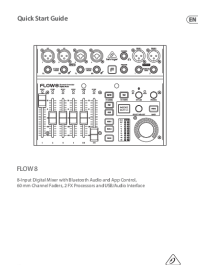

Feature	Specification
Model	PPA2000BT
Output Wattage	2000 Watts
Number of Channels	8 (4 Mic/Line, 2 Stereo Line)
Audio Inputs	XLR, 1/4" TRS, Bluetooth
Connectivity Technology	Bluetooth
Built-in Effects	Yes (Reverb, Chorus, Flanger, etc.)
Equalizer	7-band Graphic EQ
Item Weight	76.7 Pounds (34.8 kg)
Product Dimensions (L x W x H)	35.6 x 15.7 x 28.6 inches (90.4 x 39.9 x 72.6 cm)
Color	Black
Manufacturer	Music Tribe
UPC	696859054228

Warranty and Support

For detailed warranty information and technical support, please refer to the official Behringer website or contact your authorized Behringer dealer. Keep your proof of purchase for any warranty claims. Product registration may be available and is recommended to receive updates and support.

BEHRINGER PPA2000BT

L'Esupport PPA2000BT racchiude una sorprendente qualità del suono in una valigetta compatta, portatile, incredibilmente veloce e facile da configurare. Il Mixer integrato al carai del PPA2000BT dispone di ingressi sufficienti per 4 microfoni, 2 strumenti, per il tuo lettore MP3 preferito ed altro che lo rendono ideale per feste, scuole, presentazioni aziendali e didattiche, musicisti e anche bambini. La connettività Bluetooth integrata consente di ascoltare musica in streaming dal tuo smartphone, tablet o da qualunque altro dispositivo dotato di Bluetooth. Questo potente mixer dispone anche di effetti FLARX TEKNIK e del pratico sistema di rilevamento del feedback FBO per suoni cristallini senza feedback.

Caratteristiche
e dati generali

- Sistema PA portatile a 8 Canali ultra-compatto in un formato valigetta

- Woofer da 10"
- Tweeter a compressione 1.35" in Alluminio
- Perfetto per feste, scuole, presentazioni aziendali e didattiche, seminari, aerobica, etc
- Si monta in pochi secondi
- Grande potenza, elevate performance sonore e peso super leggero
- "Wireless ready" per il sistema microfonico wireless digitale Behringer (non incluso)
- Processore di alta qualità KLARK TEKNIK FX con 100 preset tra cui riverbero, chorus, flanger, delay, pitch shifter e vari multifetti
- Rivoluzionario sistema di rilevamento del feedback FBO che rivela istantaneamente le frequenze critiche

EUROPORT PPA2000BT

Ultra-Compact 2000-Watt 8-Channel Portable PA System with Bluetooth Wireless Technology, Wireless Microphone System, KLARK TEKNIK Multi-PF Processor and FRQ Feedback Detection

- Ultra-compact 2000-Watt, 8-channel portable PA system
- Perfect for parties, schools, conferences and educational presentations, seminars, auctions, weddings, working musicians, live guitar, wedding, etc.
- Extensive power: incredible vocal performance and super high-range music as well as super powerful bass
- Extremely powerful 10" woofers and 1.5" drivers deliver exceptional sound reproduction
- Connect your iPod, iPhone, iPad or any other MP3 player via Bluetooth
- "Wireless ready" for high-quality Bluetooth digital wireless microphone system (not included)
- Ultra-high quality KLARK TEKNIK 7-band graphic EQ (including sweep, chorus, reverb, delay, auto wah and auto solo)
- Redundancy (FRQ) feedback detection system to instantly avoid feedback (not included)
- 8 channel mixer with 8 inputs (4 mono and 4 stereo channels)
- A high quality mix preamp with 4x1600Watt 16 channels for consistent microphone
- Bluetooth wireless master 2-band 12.5W omnidirectional and 10W 12.5W omnidirectional
- Stereo 7-band graphic EQ allows precise frequency correction of main outputs

The EUROPORT PPA2000BT packs amazing power and sound quality into a compact, portable suitcase-style PA system - that's fast and easy to set up. The PPA2000BT's integrated 8-channel mixer has enough inputs for 4 microphones, 2 musical instruments, your favorite MP3 player and more - making it ideal for parties, schools, corporate and educational presentations, working musicians and even weddings. Built-in Bluetooth connectivity allows you to stream music from your smart phone, tablet or other Bluetooth-equipped device.

Best of all, the PPA2000BT is "wireless ready" for our high-quality ULM Series digital microphones, so you can become completely mobile. This powerful, 2,000-Watt marvel also features the crème de la crème of professional vocal effects from world famous KLARK TEKNIK - and our amazing FRQ Feedback Detection System for the ultimate freedom from feedback. We've even included a high-quality microphone, and all the cables and accessories you'll need, so you're ready to go - right out of the box!

- "Wireless ready" for high-quality Bluetooth digital wireless microphone system (not included)
- Ultra-high quality KLARK TEKNIK 7-band graphic EQ (including sweep, chorus, reverb, delay, auto wah and auto solo)
- Redundancy (FRQ) feedback detection system to instantly avoid feedback (not included)
- 8 channel mixer with 8 inputs (4 mono and 4 stereo channels)
- A high quality mix preamp with 4x1600Watt 16 channels for consistent microphone
- Bluetooth wireless master 2-band 12.5W omnidirectional and 10W 12.5W omnidirectional
- Stereo 7-band graphic EQ allows precise frequency correction of main outputs

The EUROPORT PPA2000BT packs amazing power and sound quality into a compact, portable suitcase-style PA system - that's fast and easy to set up. The PPA2000BT's integrated 8-channel mixer has enough inputs for 4 microphones, 2 musical instruments, your favorite MP3 player and more - making it ideal for parties, schools, corporate and educational presentations, working musicians and even weddings. Built-in Bluetooth connectivity allows you to stream music from your smart phone, tablet or other Bluetooth-equipped device.

Best of all, the PPA2000BT is "wireless ready" for our high-quality ULM Series digital microphones, so you can become completely mobile. This powerful, 2,000-Watt marvel also features the crème de la crème of professional vocal effects from world famous KLARK TEKNIK - and our amazing FRQ Feedback Detection System for the ultimate freedom from feedback. We've even included a high-quality microphone, and all the cables and accessories you'll need, so you're ready to go - right out of the box!
