SpySpot Tracking Kit - 4G Queclink GL 320MG GPS Tracker User Manual

Model: GL 320MG | Brand: Spy Spot

INTRODUCTION

This manual provides comprehensive instructions for the setup, operation, and maintenance of your SpySpot Tracking Kit. The kit includes a real-time 4G LTE GPS tracker (GL320MG) with an internal 2600 mAh battery and a weatherproof magnetic case, designed for tracking vehicles, individuals, or assets. Please read this manual thoroughly before using the device to ensure optimal performance and safety.

WHAT'S INCLUDED

Your SpySpot Tracking Kit should contain the following items:

- GL320MG 4G LTE GPS Tracker
- Weatherproof Magnetic Case
- Extended Battery Pack
- USB Adapter / Wall Charger

TRACK FOR LONGER WITH THE EXTENDED USE KIT

Equipped with a wall charger that fully recharges the battery in just 8-10 hours, it minimizes downtime and ensures your tracker is always ready

KIT INCLUDES

- ✓ 1X GL320MG MINI GPS TRACKER
- ✓ 1X Magnetic Case
- ✓ 1X Extended Battery
- ✓ 1X Wall Charger

SETUP

1. Initial Charging

Before first use, fully charge the GL320MG GPS tracker and the extended battery pack. Connect the USB adapter to the tracker and then to a wall outlet. A full charge typically takes 8-10 hours for the extended battery pack.

RAPID ***RECHARGE TECHNOLOGY***

Recharge your GPS tracker quickly and efficiently.
Charges in just 8-10 hours using the included wall charger.

Figure 2: The extended battery pack connected for charging.

2. Assembling the Tracker and Case

Place the GL320MG GPS tracker inside the weatherproof magnetic case. Connect the tracker to the extended battery pack using the provided USB cable. Ensure the connections are secure before closing the case.

OPERATING INSTRUCTIONS

1. Real-Time Tracking

The GL320MG tracker provides real-time location data. Access the tracking portal via a smartphone app or computer. The portal displays current location, speed (miles per hour), satellite view, and a breadcrumb trail of past movements.

Your browser does not support the video tag.

Video 2: Demonstration of the Spy Spot 4G LTE Micro GPS Tracker's real-time tracking capabilities through the online interface, showing location, speed, and historical data.

The device is small and compact, making it easy to conceal. It operates on a 4G network, ensuring reliable signal and wide coverage.

Video 3: Overview of the Spy Spot Micro Portable Tracker, highlighting its compact size and ease of concealment within a vehicle,

along with the app interface for location viewing.

2. Historical Data and Alerts

The tracking portal stores up to six months of historical data, allowing you to review past routes and activities. You can also set up text notifications for various alerts, such as movement detection or arrival at specific locations (geofencing).

MAINTENANCE

1. Battery Management

The internal battery of the GL320MG tracker lasts approximately 2-3 weeks on a single charge. When paired with the extended battery pack, the battery life can be extended to 6-8 weeks, or even 3-4 months with standard usage, depending on reporting frequency. Recharge the battery using the provided USB adapter and wall charger when the battery level is low.

EXTENDED BATTERY LIFE

3.7V, 24000mAh battery provides long-lasting power to ensure uninterrupted GPS tracking Up to 4-8 months of battery life with standard usage

Figure 5: Extended battery life configuration.

2. Case Care

The weatherproof case is designed to withstand rain, snow, and varying temperatures. Periodically inspect the case for any damage or cracks that could compromise its waterproof integrity. Keep the magnetic surface clean for optimal attachment.

TROUBLESHOOTING

- **No Signal/Offline:** Ensure the device is in an area with 4G cellular coverage. Check the battery level. If the issue persists, contact Spy Spot customer support.
- **Inaccurate Location:** Verify the device has a clear line of sight to the sky for GPS reception. Large structures or dense foliage can interfere with accuracy.
- **Battery Draining Quickly:** Check your reporting frequency settings. More frequent updates consume more battery. Ensure the extended battery pack is fully charged and properly connected.

SPECIFICATIONS

Feature	Detail
Product Dimensions	5.6 x 4 x 5 inches
Item Weight	2.1 pounds
Item Model Number	6230731
Connectivity Technologies	Cellular (4G LTE)
Special Features	Waterproof, Magnetic
Battery Life (Tracker only)	2-3 weeks (rechargeable)
Battery Life (with Extended Pack)	6-8 weeks (up to 3-4 months with standard usage)
Manufacturer	Spy Spot
Country of Origin	USA
