SmartCat 6506

SmartCat All Natural Clumping Cat Litter User Manual

Model: 6506

INTRODUCTION

The SmartCat All Natural Clumping Cat Litter is an innovative solution for cat owners seeking an effective, natural, and environmentally friendly litter option. Made from 100% grass seed grown in the USA, this litter is designed to provide superior clumping performance, excellent odor control, and a dust-free experience. It is lightweight, biodegradable, and renewable, offering a natural alternative to traditional clay and pellet litters.

SETUP

Setting up your litter box with SmartCat All Natural Clumping Cat Litter is a straightforward process. Follow these steps for optimal performance:

1. **Prepare the Litter Box:** Ensure your litter box is clean and dry before adding new litter.
 2. **Pour Litter:** Pour approximately 3 inches (7.5 cm) of SmartCat All Natural Clumping Cat Litter into the litter box. This depth allows for proper clumping and odor encapsulation.
 3. **Initial Adaptation (Optional):** If transitioning from a different litter, you may gradually mix SmartCat litter with your previous litter over a few days to help your cat adapt.
-

- ✓ Lightweight
- ✓ Lasts longer
- ✓ Strong performance
- ✓ Save money

DIRECTIONS FOR USE:

Scoop daily
Refill to the 3-4 inch mark
Dump as needed

Out Clumps Clay
EVERY DAY™

OPERATING INSTRUCTIONS

SmartCat litter is designed for ease of use and effective waste management. Follow these guidelines for daily operation:

- **Daily Scooping:** Scoop solid waste and urine clumps daily. SmartCat litter forms hard, compact clumps that are easy to remove, ensuring excellent odor control and a clean litter box.
- **Maintain Litter Depth:** After scooping, replenish the litter to maintain the recommended 3-inch depth. This ensures sufficient material for clumping and prevents waste from sticking to the bottom of the pan.
- **Odor Control:** The natural composition of SmartCat litter effectively combats odors without the need for harsh chemicals or artificial scents.
- **Paw Comfort:** The soft texture and sand-like appearance of the litter are gentle on cat paws, making it suitable for kittens and cats with sensitive paws.

Lightweight Clumping

Excellent clumping capability (that does not stick to the pan) ensures that your pet's waste stays out of both sight & smell, in an easily changeable alternative to dense clay litters or litter pellets.

No Smell-Can't Tell!

SmartCat® combats odor naturally without relying on harsh chemicals and artificial scents.

MAINTENANCE

Proper maintenance ensures the longevity and effectiveness of your SmartCat litter and a hygienic environment for your cat:

- **Full Litter Replacement:** While daily scooping is essential, the entire litter content should be replaced periodically, typically every 2-4 weeks, depending on the number of cats and litter box usage.
- **Litter Box Cleaning:** When replacing the litter, thoroughly clean the litter box with mild soap and water. Rinse well and dry completely before refilling with fresh SmartCat litter.
- **Storage:** Store unused SmartCat litter in a cool, dry place to maintain its quality and clumping ability.

Can An All Grass Litter Out Clump Clay?

Yes! With the perfect combination of NON-GMO, USA-farmed grasses, our all-natural litter really does the job. Light in weight but strong in performance, it **OUT CLUMPS CLAY, EVERY DAY.**™

We're so proud of the results, we patented our process.

It all started when Betsy Lipscomb gathered old fence posts in Cedarburg, Wisconsin, and gave them to neighboring cat owners for scratching posts. Soon Betsy, a cat behaviorist and founder of Cats International, along with her husband John, began creating products that enhance cats' mental and physical health. Today, all our products are designed, tested and approved by behavior experts.

Breathe Clean

You shouldn't have to inhale fragrances and dust whenever you pour or scoop litter. Since Smart Cat® All Natural Litter is more than 99% dust free, your litter box and surrounding area will be cleaner and healthier.

No Smell - Can't Tell

Your home shouldn't "tell" on your cats. Our litter eliminates odors because it absorbs liquids and clumps so quickly that odors don't even have a chance to release into the air.

DIRECTIONS FOR USE:

- Scoop daily
- Maintain litter depth of 3 to 4 inches
- Empty completely as needed

MORE SMART TIPS

At transition use 50/50 mix of new litter with existing litter for one week. After that, use new litter exclusively.

Place litter box(es) in a quiet area with easy access. Use 1 litter box per cat plus 1 additional box.

Locate boxes where cats will not have to travel far, with at least one box on each floor.

Visit catsinternational.org to learn more.

TOXOPLASMOSIS & PREGNANCY:

Pregnant women should not clean the litter box. Toxoplasma gondii is a parasite found in humans, birds, cats, dogs, and many other animals. If you are a cat owner, avoid contact with cat feces, and if you are pregnant, talk to your health care provider about toxoplasmosis.

Proud To Be:

100% Grass • Clay FREE • Fragrance FREE • Renewable • Biodegradable
99% Dust FREE • Paw SOFT and SAFE • Lightweight = More Litter • NON-GMO

TROUBLESHOOTING

If you encounter any issues with your SmartCat All Natural Clumping Cat Litter, consider the following common solutions:

- **Poor Clumping:**
 - Ensure the litter depth is at least 3 inches. Insufficient depth can lead to weak clumps.
 - Allow urine to sit for a few minutes before scooping to allow for full clumping.
 - Check for excessive humidity in the environment, which can affect clumping.
- **Odor Persistence:**
 - Increase the frequency of scooping. Daily or twice-daily scooping is recommended.
 - Ensure the litter box is cleaned thoroughly during full litter changes.
 - Consider adding more litter to maintain the recommended depth.
- **Litter Tracking:**
 - Place a litter mat outside the litter box to help capture tracked particles.
 - Consider a litter box with higher sides or a top-entry design to reduce tracking.
- **Cat Refusal to Use:**
 - Ensure a gradual transition if switching from a different litter type.
 - Verify the litter box is in a quiet, accessible location.
 - Some cats may prefer a specific litter texture; SmartCat's soft, sand-like texture is generally well-received.

SPECIFICATIONS

Attribute	Detail
Brand Name	SmartCat
Model Name	SmartCat Natural Cat Litter
Item Model Number	6506
Size	20-Pound (also available in 5-Pound and 10-Pound)
Item Weight	20 Pounds (9.07 kg)
