Amba RSWH-P

Amba RSWH-P Radiant Square Towel Warmer Instruction Manual

Model: RSWH-P

INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your Amba RSWH-P Radiant Square Towel Warmer. Designed to provide warm, dry towels, this unit features 10 crossbars and is constructed from Grade 304 Stainless Steel. It operates silently and efficiently, heating quickly without the need for liquid. Both horizontal and vertical bars are heated for optimal performance. Please read this manual thoroughly before installation and use to ensure safe and correct operation.

SAFETY INFORMATION

- Always disconnect power before attempting any installation, maintenance, or cleaning.
- This appliance is intended for warming towels only. Do not use it for drying clothes or other items.
- Ensure the towel warmer is installed by a qualified electrician if hardwired, or according to local electrical codes if plug-in.
- Do not immerse the towel warmer in water or other liquids.
- Keep children and pets away from the appliance when it is in operation, as surfaces can become hot.
- Do not operate the towel warmer if it has a damaged cord or plug, or if it has been dropped or damaged in any manner.

SETUP AND INSTALLATION

The Amba RSWH-P towel warmer offers both hardwired and plug-in installation options. For hardwired installations, professional electrical assistance is recommended to ensure compliance with all local codes and safety standards. The unit is designed for wall mounting.

Figure 2: Detailed view of the Amba RSWH-P towel warmer, showcasing its polished stainless steel construction and the arrangement of its 10 square crossbars.

OPERATING INSTRUCTIONS

To operate your Amba RSWH-P towel warmer, ensure it is properly installed and connected to a power source. The unit features an integrated toggle switch, typically located at the bottom of a vertical bar. Simply press the switch to turn the unit on or off. The towel warmer heats up quickly and evenly, usually reaching optimal temperature within 20-30 minutes. Place your towels over the bars to warm and dry them. The heated bars help prevent moisture buildup, reducing the likelihood of mold and unpleasant odors.

Figure 3: The Amba RSWH-P towel warmer in use, with multiple towels draped over its heated bars, demonstrating its capacity and function.

To maintain the appearance and performance of your Amba RSWH-P towel warmer, regularly wipe the surfaces with a soft, damp cloth. Avoid using abrasive cleaners, scouring pads, or chemical solvents, as these can damage the polished stainless steel finish. Ensure the unit is cool and disconnected from power before cleaning.

TROUBLESHOOTING

- **Unit not heating:** Check if the power cord is securely plugged into a working outlet (for plug-in models) or if the circuit breaker is on (for hardwired models). Ensure the on/off switch is in the 'on' position.
- **Insufficient heat:** Allow adequate time for the unit to reach its operating temperature (approximately 20-30 minutes). Ensure towels are draped properly to maximize contact with the heated bars.
- **Unusual noises:** If you hear any unusual sounds, immediately turn off the unit and disconnect it from power. Contact customer support for assistance.

SPECIFICATIONS

Feature	Detail
Model Name	RSWH-P
Brand	Amba
Color	Polished
Material	Grade 304 Stainless Steel
Product Dimensions	23.63 x 4.75 x 31.5 inches
