Liberty 160465

Liberty 160465 Magnetic Hook (Pack of 4) User Manual

Model: 160465

INTRODUCTION

The Liberty 160465 Magnetic Hooks offer a convenient and drill-free solution for organizing various items. These durable hooks are designed to attach to any metallic surface, providing versatile hanging options for keys, accessories, photos, and more. This manual provides essential information for the proper use and care of your magnetic hooks.

PRODUCT OVERVIEW

Figure 1: Front view of the Liberty 160465 Magnetic Hook, showing the polished nickel finish and the hook design.

Figure 2: A closer look at the hook component, highlighting its sturdy construction and curved shape for hanging.

Figure 3: Detail of the magnetic base, which allows for secure attachment to metal surfaces without the need for drilling.

SETUP

1. **Identify a Suitable Metallic Surface:** Ensure the surface is clean, dry, and made of a ferromagnetic material (e.g., steel, iron) for optimal magnetic adhesion.
2. **Attach the Hook:** Simply place the magnetic base of the hook firmly against the desired metallic surface. The strong magnet will secure it in place.
3. **Test Stability:** Before hanging items, gently tug on the hook to ensure it is securely attached and can support the intended weight.

OPERATING INSTRUCTIONS

Once installed, the Liberty Magnetic Hooks are ready for immediate use. Hang items such as keys, small tools, kitchen utensils, or decorative items. Ensure the total weight of items hung does not exceed the maximum weight recommendation to prevent the hook from sliding or detaching.

- **Recommended Uses:** Foyers for keys, laundry rooms for small accessories, workshops for light tools, or refrigerators for displaying photos.
- **Weight Limit:** Each hook has a recommended weight limit of 2 pounds (0.9 kg). Do not exceed this limit.

MAINTENANCE

To ensure the longevity and optimal performance of your magnetic hooks, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the hooks periodically with a soft, damp cloth to remove dust or grime. Avoid abrasive cleaners that could damage the finish.
- **Inspection:** Regularly check the magnetic base for any debris that might reduce its adhesion. Ensure the hook component remains firmly attached to the base.
- **Storage:** If not in use, store the hooks in a dry place to prevent potential corrosion, although they are made of steel with a nickel-plated finish for durability.

TROUBLESHOOTING

Hook slides or falls off surface:

- Ensure the surface is clean and free of dust, grease, or moisture.
- Verify the surface is truly metallic and ferromagnetic.
- Reduce the weight of the items being hung. The maximum recommended weight is 2 pounds per hook.
- Check if the magnetic base has any damage or debris affecting its contact with the surface.

Hook appears loose from base:

- While designed for durability, excessive force or twisting can loosen the hook from its magnetic base. If the hook is no longer secure, it may indicate damage.

SPECIFICATIONS

Feature	Detail
Brand	Liberty
Model Number	160465
Material	Steel
Finish Type	NP_Nickel Plated
Color	Metallic
Mounting Type	Wall Mount (Magnetic)
Number of Hooks	4 (in pack)
Item Weight	0.48 ounces (per hook, approx.)
Product Dimensions (L x W x H)	1.27 x 3.75 x 6.48 inches (packaging)
Maximum Weight Recommendation	2 Pounds (per hook)
Surface Recommendation	Metal

Feature	Detail
UPC	885785604656
