STANLEY TL10PS

STANLEY TL10PS Rechargeable 1000 Lumen LED Flashlight User Manual

Model: TL10PS

INTRODUCTION

Image: The STANLEY TL10PS Rechargeable 1000 Lumen LED Flashlight, showcasing its design and robust aluminum housing.

This manual provides comprehensive instructions for the STANLEY TL10PS Rechargeable 1000 Lumen Lithium Ion LED Flashlight. Designed for durability and versatility, this flashlight features an ultra-bright LED, multiple lighting modes, and a built-in USB power bank function. Please read this manual thoroughly to ensure proper use, maintenance, and to maximize the lifespan of your device.

SAFETY INFORMATION

WARNING:

This product contains chemicals known to the State of California to cause cancer and reproductive harm. For more information, please visit www.P65Warnings.ca.gov.

- Do not look directly into the LED light.
- Keep out of reach of children.
- Do not attempt to disassemble or modify the flashlight.
- Use only the provided USB charging cable or a certified equivalent.

PACKAGE CONTENTS

Verify that all items are present in the package:

- STANLEY TL10PS Rechargeable 1000 Lumen LED Flashlight
- (1) USB Charging Cable

SETUP AND CHARGING

Before first use, fully charge the flashlight. The integrated Lithium Ion battery is designed to hold a charge for up to 12 months without use.

1. Locate the USB charging port on the flashlight.
2. Connect the provided USB charging cable to the flashlight's charging port.
3. Connect the other end of the USB cable to a compatible USB power source (e.g., wall adapter, computer USB port).
4. Allow the flashlight to charge until the charging indicator light (if present) shows a full charge.

Note: The flashlight can be recharged using its built-in 2-way USB charging port.

OPERATING INSTRUCTIONS

Turning On/Off and Mode Selection

The STANLEY TL10PS features three lighting modes: High, Low, and Emergency Flash.

- Press the power button once for High mode (1000 lumens).
- Press the power button a second time for Low mode.
- Press the power button a third time for Emergency Flash mode.
- Press the power button a fourth time to turn the flashlight off.

Using as a USB Power Bank

The built-in 2-way USB charging port allows you to use the flashlight's battery to power or charge personal electronic devices.

1. Ensure the flashlight has sufficient charge.
2. Connect your electronic device (e.g., cell phone, tablet) to the flashlight's USB output port using your device's charging cable.
3. The flashlight will begin charging your device.

MAINTENANCE

- **Cleaning:** Wipe the flashlight with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Storage:** Store the flashlight in a cool, dry place away from direct sunlight. For long-term storage, ensure the battery is partially charged.
- **Battery Care:** Recharge the battery every 3-6 months if not in regular use to maintain battery health.
- **Water Resistance:** The flashlight features waterproof aluminum housing, suitable for indoor and outdoor all-weather use. Ensure all caps and covers are securely closed to maintain water resistance.

TROUBLESHOOTING

- **Flashlight does not turn on:**
 - Ensure the battery is charged. Connect the flashlight to a power source using the USB cable.
 - Verify the power button is functioning correctly.
- **Device not charging from USB port:**
 - Check if the flashlight has sufficient battery charge.
 - Ensure the USB cable connecting your device to the flashlight is securely plugged in at both ends.
 - Try a different USB cable or device to rule out cable/device issues.
- **Reduced brightness or runtime:**
 - The battery may require a full recharge.
 - Battery performance can degrade over time with extensive use.

SPECIFICATIONS
