MAINTENANCE

To maintain the appearance and longevity of your ottoman, follow these care instructions:

- Wipe the surface with a dry cloth to remove dust and light dirt.
- For spills or tougher stains on the synthetic leather, use a damp cloth with mild soap and water, then wipe dry immediately. Avoid abrasive cleaners.
- Keep the ottoman away from direct sunlight and heat sources to prevent material degradation.

TROUBLESHOOTING

Stability Issues:

If the ottoman feels unstable, ensure the bottom panel is fully inserted and flat against the base. Check that the sides are completely unfolded and locked into place.

Lid Not Closing Properly:

Verify that no items inside the storage compartment are obstructing the lid. Rearrange contents to allow for a flush closure.

Creases or Wrinkles in Fabric:

Minor creases from packaging are normal and typically smooth out over time with use. Gentle heat from a hairdryer (on low setting, held at a distance) can help, but exercise caution to avoid damage.
