SETUP AND INITIAL USE

The KONG Tugga Wubba requires no assembly. It is ready for immediate use upon removal from its packaging. Ensure the toy is free from any packaging materials before presenting it to your pet.

- Unpack the KONG Tugga Wubba from its retail packaging.
- Inspect the toy for any damage or loose parts before first use.
- Introduce the toy to your dog in a supervised environment.

OPERATING INSTRUCTIONS

The KONG Tugga Wubba is designed for various forms of interactive play, including tugging, fetching, and chewing. Its durable construction is intended to withstand vigorous play.

Tug Play

Hold one end of the Tugga Wubba and allow your dog to grasp the other end or the central braided section. Engage in gentle tugging, allowing your dog to win occasionally to maintain interest and build confidence. The multiple tails provide ample grip for both human and dog.

Fetch Play

The design of the Tugga Wubba makes it easy to throw. Its weight and shape allow for good trajectory. Throw the toy and encourage your dog to retrieve it. The tails make it easy for your dog to pick up and carry.

Chew Activity

While designed for durability, no dog toy is indestructible. Supervise your dog during chew sessions to ensure safe play. The ballistic nylon covering and braided core are built to withstand moderate chewing.

MAINTENANCE AND CARE

Regular cleaning and inspection will extend the life of your KONG Tugga Wubba and ensure your pet's safety.

- **Cleaning:** The toy can be spot cleaned with mild soap and water. Rinse thoroughly to remove all soap residue. Allow to air dry completely before next use.
- **Inspection:** Regularly inspect the toy for signs of wear and tear, such as frayed fabric, loose threads, or damage to the braided core.
- **Replacement:** Discontinue use and replace the toy if significant damage is observed to prevent ingestion of small parts.

TROUBLESHOOTING

If you encounter issues with your KONG Tugga Wubba, consider the following:

- **Toy showing rapid wear:** While durable, the toy's lifespan depends on the dog's chewing habits. Aggressive chewers may wear down toys faster. Consider rotating toys or supervising play more closely.
- **Dog losing interest:** Introduce new ways to play with the toy, such as hiding it for your dog to find, or incorporating it into training sessions.
