Bentgo BGOKIDS-P

Bentgo Kids 5-Compartment Leak-Proof Lunch Box

Model: BGOKIDS-P

For Ages 3-7

INTRODUCTION

The Bentgo Kids 5-Compartment Leak-Proof Lunch Box is designed to make mealtime easy and enjoyable for children aged 3 to 7. This durable, bento-style lunch box features five perfectly portioned compartments, ensuring a variety of healthy foods can be packed without mixing. Its leak-proof and drop-proof design makes it ideal for active kids on the go.

Kids Love It, Mom Approves!

SETUP

Initial Cleaning

Before first use, wash all components of the Bentgo Kids Lunch Box. The removable inner tray is dishwasher safe (top rack only). The outer shell should be hand washed to preserve its leak-proof seal and rubberized edges.

Material Safety

The Bentgo Kids Lunch Box is made with food-safe materials, free of PFAS, BPA, vinyl, lead, and PVC, ensuring a safe eating experience for your child.

OPERATING INSTRUCTIONS

Opening and Closing

The lunch box features two kid-friendly latches that are easy for small hands to open and close. To open, simply unclip both latches. To close, align the lid with the base and press down firmly until both latches click securely into place. This ensures the leak-proof seal is engaged.

Packing Food

The Bentgo Kids lunch box has five compartments designed for ideal portion sizes for children aged 3-7. The largest compartment is suitable for a half sandwich or main dish, while smaller compartments are perfect for fruits, vegetables, snacks, and dips. The unique contoured lid with a silicone seal ensures that food in each compartment stays fresh and does not leak into other sections.

Image: An open Bentgo Kids Lunch Box in purple and white, with arrows pointing to its key features: easy-to-open latches, leak-proof technology, removable dishwasher-safe tray, 5 practical compartments, and rubber-coated edges for drop-proof design.

Portion Sizes

The inner tray is designed with specific capacities:

- One large compartment: 1 cup capacity
- Two medium compartments: 1/2 cup capacity each
- One small compartment: 1/4 cup capacity

- One tiny compartment: 2 tablespoons capacity (ideal for dips or small treats)

Leak-Proof Design

The unique contoured lid with a silicone seal ensures that meals are kept fresh and mess-free. This design prevents food from leaking between compartments and out of the lunch box, even with liquid items like yogurt or applesauce.

Drop-Proof Durability

Constructed with durable, rubber-coated edges, the lunch box is designed to withstand drops and impacts, protecting its contents and ensuring longevity for active children.

MAINTENANCE

Cleaning

- **Removable Inner Tray:** The inner tray is dishwasher safe (top rack only) for easy and convenient cleaning.
- **Outer Shell:** Hand washing is recommended for the outer shell to maintain the integrity of the leak-proof seal and rubberized edges.

Microwave and Freezer Use

- **Microwave Safe:** The removable inner tray is microwave safe, allowing for safe reheating of food.
- **Freezer Safe:** The entire lunch box is freezer safe, making it suitable for meal prepping and keeping food chilled.

TROUBLESHOOTING

Food Leakage

If you experience any leakage, ensure that the lid is properly aligned with the base and both latches are securely fastened. The silicone seal on the lid must make full contact with the inner tray to prevent spills.

Difficulty Opening/Closing

The latches are designed to be kid-friendly. If they are stiff, ensure no food debris is obstructing the mechanism. Regular cleaning can help maintain smooth operation.
