Fever GA-10

Fever GA-10 10-Watt Guitar Combo Amplifier User Manual

Model: GA-10 | Brand: Fever

INTRODUCTION

This manual provides essential instructions for the safe and efficient operation of your Fever GA-10 10-Watt Guitar Combo Amplifier. Please read this manual thoroughly before using the amplifier to ensure proper setup, operation, and maintenance. Retain this manual for future reference.

IMPORTANT SAFETY INSTRUCTIONS

- Read these instructions.
- Keep these instructions.
- Heed all warnings.
- Follow all instructions.
- Do not use this apparatus near water.
- Clean only with a dry cloth.
- Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- Protect the power cord from being walked on or pinched, particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- Only use attachments/accessories specified by the manufacturer.

- Unplug this apparatus during lightning storms or when unused for long periods of time.
- Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

SETUP

1. Unpacking

Carefully remove the amplifier from its packaging. Inspect the unit for any signs of damage that may have occurred during shipping. If damage is found, contact your retailer immediately.

2. Power Connection

Ensure the amplifier's power switch is in the "OFF" position. Connect the included power cord to the power input on the rear of the amplifier and then to a suitable electrical outlet. The amplifier operates on standard AC power.

Figure 2: Rear view of the Fever GA-10 amplifier, showing the power cord connection point.

3. Instrument Connection

Connect your guitar or other instrument to the **INPUT** jack on the front panel using a standard 1/4-inch instrument cable.

OPERATING INSTRUCTIONS

Familiarize yourself with the controls on the front panel before powering on the amplifier.

Figure 3: Detailed view of the Fever GA-10 amplifier's control panel.

Control Panel Functions:

- **INPUT:** 1/4-inch jack for connecting your instrument.
- **GAIN:** Controls the amount of pre-amplification and distortion. Higher settings increase saturation.
- **OVERDRIVE DISTORTION SWITCH:** Toggles between clean and overdriven/distorted tones. Engage for a heavier sound.
- **VOLUME:** Adjusts the overall output level of the amplifier.
- **TONE:** Shapes the amplifier's frequency response, from darker (lower settings) to brighter (higher settings).
- **PHONES:** 1/4-inch stereo jack for connecting headphones for silent practice. Connecting headphones will mute the amplifier's speaker.
- **POWER SWITCH:** Turns the amplifier ON or OFF. The indicator light illuminates when the amplifier is on.

Basic Operation:

1. Ensure all volume and gain controls are set to their minimum positions before powering on.
2. Connect your instrument to the **INPUT** jack.

3. Flip the **POWER SWITCH** to the "ON" position. The power indicator light will illuminate.
4. Slowly increase the **VOLUME** control to your desired listening level.
5. Adjust the **GAIN** control to achieve the desired amount of pre-amplification. For clean tones, keep gain lower.
6. Use the **OVERDRIVE DISTORTION SWITCH** to engage or disengage the distortion effect.
7. Fine-tune your sound using the **TONE** control.
8. For private practice, connect headphones to the **PHONES** jack.
9. When finished, turn the **VOLUME** down, then switch the **POWER SWITCH** to "OFF".

MAINTENANCE

Cleaning:

To clean the amplifier, use a soft, dry cloth. Do not use liquid cleaners or abrasive materials, as these can damage the finish and internal components. Ensure the amplifier is unplugged before cleaning.

Storage:

Store the amplifier in a cool, dry place away from direct sunlight, extreme temperatures, and high humidity. Avoid placing heavy objects on top of the amplifier.

TROUBLESHOOTING

• No Sound:

- Ensure the amplifier is powered on and the power indicator light is illuminated.
- Check that the instrument cable is securely connected to both the guitar and the amplifier's INPUT jack.
- Verify that the VOLUME control is not set to minimum.
- If headphones are connected, disconnect them to enable the speaker output.
- Test with a different instrument cable or guitar to rule out faulty equipment.

• Distorted/Unwanted Noise:

- Check the GAIN control; if set too high, it can cause excessive distortion.
- Ensure the OVERDRIVE DISTORTION SWITCH is in the desired position (ON for distortion, OFF for clean).
- Reduce the VOLUME control.
- Ensure all connections are secure and free from interference.

• Scratchy Sound when Adjusting Controls:

- This can sometimes occur with potentiometers (knobs) over time. Repeatedly rotating the affected knob from minimum to maximum several times may help clear any dust or debris. If the issue persists, professional servicing may be required.

SPECIFICATIONS

Figure 4: Dimensions of the Fever GA-10 amplifier.

Feature	Detail
Output Wattage	10 Watts
Controls	Gain, Volume, Tone
Switches	Overdrive Distortion Switch (On/Off)
Inputs	1/4-inch Instrument Input
Outputs	1/4-inch Headphone Output
Power Source	Corded Electric
Item Weight	5.55 pounds (2.52 kg)
Product Dimensions (L x W x H)	10 x 11.5 x 6.5 inches (25.4 x 29.2 x 16.5 cm)

Feature	Detail
Material	Plastic
Color	Black

WARRANTY INFORMATION

Fever products are manufactured to high-quality standards. This product is covered by a limited warranty against defects in materials and workmanship. Specific warranty terms and conditions may vary by region and retailer. Please retain your proof of purchase for warranty claims. For detailed warranty information, please refer to the documentation provided at the time of purchase or contact your retailer.

CUSTOMER SUPPORT

If you encounter any issues not covered in this manual or require further assistance, please contact your retailer or the manufacturer's customer support. Have your product model number (GA-10) and proof of purchase ready when contacting support.
