Revo SuperConnect

Revo SuperConnect Wireless Music System User Manual

Model: SuperConnect

1. INTRODUCTION

This manual provides detailed instructions for the setup, operation, maintenance, and troubleshooting of your Revo SuperConnect Wireless Music System. The SuperConnect is a versatile audio system featuring Internet Radio, DAB/DAB+ and FM tuners, Spotify Connect, Wi-Fi, and Bluetooth connectivity with aptX technology. It is designed to deliver high-quality audio performance and a wide range of listening options.

2. Setup

2.1 Unpacking and Placement

Carefully remove all components from the packaging. Ensure you have the Revo SuperConnect unit and the included remote control. Place the unit on a stable, flat surface, away from direct sunlight, heat sources, and moisture. Allow adequate ventilation around the unit.

2.2 Connecting Power and Antenna

Connect the provided power adapter to the 18V DC input on the rear of the unit, then plug it into a wall outlet. For optimal FM and DAB/DAB+ reception, extend the telescopic antenna located at the back of the unit. Adjust its position for the best signal quality.

Figure 2: Rear view of the Revo SuperConnect, showing the antenna and various input/output ports.

2.3 Initial Network Connection (Wi-Fi)

Upon first power-on, the system will guide you through the initial setup wizard. This includes selecting your language, setting the time and date, and connecting to your Wi-Fi network. Use the 'Select' knob and navigation buttons to enter your network password. A stable Wi-Fi connection is essential for Internet Radio and Spotify Connect functionality.

Your browser does not support the video tag.

3. Operating Your SuperConnect

3.1 Power On/Off and Basic Navigation

Press the power button (usually located near the display) to turn the unit on or off. Use the 'Mode' button to switch between

different listening sources (Internet Radio, DAB, FM, Bluetooth, etc.). The 'Menu' button accesses settings and options for the current mode, while 'Info' displays additional information. The 'Select' knob allows you to scroll through lists and confirm selections.

Figure 3: Angled view of the Revo SuperConnect, highlighting the front panel controls and display.

3.2 Volume Control

Adjust the volume by rotating the large knob located on the side of the unit. Turn clockwise to increase volume and counter-clockwise to decrease it.

3.3 Internet Radio

Select 'Internet Radio' from the 'Mode' menu. You can browse thousands of stations by genre, location, or search for specific stations. Your last listened stations will also be available for quick access.

3.4 DAB/DAB+ and FM Radio

Switch to 'DAB' or 'FM' mode. The system will automatically scan for available stations. Use the navigation buttons to cycle through detected stations. For FM, RDS (Radio Data System) provides station information where available.

3.5 Spotify Connect

To use Spotify Connect, ensure your SuperConnect is connected to the same Wi-Fi network as your device running the Spotify app. Open the Spotify app, select a song, and then choose your SuperConnect from the 'Devices Available' list.

3.6 Bluetooth Streaming

Select 'Bluetooth' mode. On your mobile device, enable Bluetooth and search for 'Revo SuperConnect'. Pair with the device. The SuperConnect supports aptX technology for enhanced audio quality with compatible devices.

3.7 DLNA Audio Streaming

The SuperConnect can stream audio from a PC or Mac connected to the same network via DLNA. Ensure your computer's media server is configured to share content.

3.8 Setting Alarms

Press the 'Alarm' button to access alarm settings. You can set multiple alarms, choosing the time, source (e.g., Internet Radio station, buzzer), and frequency.

4. MAINTENANCE

4.1 Cleaning

To clean the unit, disconnect it from the power supply. Use a soft, dry, lint-free cloth to wipe the surfaces. Do not use abrasive cleaners, waxes, or solvents as these can damage the finish. Avoid spraying liquids directly onto the unit.

4.2 Software Updates

Periodically check for software updates through the system's menu (usually under 'Settings' or 'System'). Keeping your SuperConnect's software up-to-date ensures optimal performance and access to the latest features.

5. TROUBLESHOOTING

Problem	Possible Cause	Solution
No power	Power cable not connected; power outlet faulty.	Ensure power cable is securely connected. Test outlet with another device.
No sound	Volume too low; incorrect source selected; mute activated.	Increase volume. Check selected audio source. Ensure mute is off.
Wi-Fi connection issues	Incorrect password; weak signal; router issues.	Verify Wi-Fi password. Move unit closer to router or reduce interference. Restart router.
Internet Radio buffering/disconnecting	Slow internet speed; network congestion; weak Wi-Fi signal.	Check internet speed. Reduce network usage. Improve Wi-Fi signal strength.
Remote control unresponsive	Dead batteries; obstruction; unit sensor blocked.	Replace batteries. Remove obstructions between remote and unit.
DAB/FM reception poor	Antenna not extended or positioned correctly; local interference.	Fully extend and adjust the telescopic antenna. Try repositioning the unit.

6. SPECIFICATIONS

- **Product Dimensions:** 4.19"L x 1.86"W x 2.79"H (10.64 cm L x 4.72 cm W x 7.09 cm H)
- **Item Weight:** 6.16 pounds (2.79 kg)
- **Tuner Technology:** DAB, DAB+, Internet Radio, FM with RDS
- **Connectivity Technology:** Bluetooth (with aptX), Wi-Fi (Internet Radio, Spotify Connect, DLNA)
- **Special Features:** Integrated clock, streaming services, aluminium and wooden housing, Spotify Connect
- **Included Components:** Remote Control
- **Power Source:** AC Adapter (18V DC input)
- **Model Number:** SuperConnect
