BoxWave BodySuit Case for HTC Desire Eye User Manual

Brand: BoxWave | Model: bw-378-5434-8594

1. PRODUCT OVERVIEW

The BoxWave BodySuit Case is designed specifically for the HTC Desire Eye, offering protection without compromising the device's functionality. It features an ultra-slim, anti-slip design that fits snugly around your phone.

This case is engineered to provide convenient access to all essential features of the HTC Desire Eye, including the camera, speakers, power button, headphone jack, and charging port. Constructed from Thermoplastic Polyurethane (TPU), the BodySuit offers robust resistance to oil, grease, and fingerprints, along with excellent abrasion resistance, high strength, and elasticity.

Key design elements include ultra-grip hand holds for comfortable portrait or landscape viewing and a raised front bumper edge to protect the screen when the device is placed face down.

Image 1.1: Front and back view of the BoxWave BodySuit Case installed on an HTC Desire Eye smartphone. The case is black with a textured pattern and glossy 'X' design on the back. The phone's screen is visible, displaying a time and date, and various app icons.

2. SETUP AND INSTALLATION

Installing the BoxWave BodySuit Case on your HTC Desire Eye is a straightforward process:

1. **Preparation:** Ensure your HTC Desire Eye is clean and free of dust or debris.
2. **Alignment:** Gently align the top edge of your HTC Desire Eye with the top opening of the BodySuit case.
3. **Insertion:** Carefully push the phone into the case, ensuring all corners and edges are properly seated within the case's frame. Apply gentle pressure around the edges until the case fully encases the phone.
4. **Verification:** Check that all ports (charging, headphone), buttons (power, volume), and camera cutouts are perfectly aligned and accessible. The case should fit snugly without any loose areas.

Image 2.1: Rear view of the BoxWave BodySuit Case, highlighting the textured surface and the glossy 'X' design. The cutouts for the camera and flash are visible at the top, and button covers are present on the side.

3. OPERATING THE CASE

The BoxWave BodySuit Case is designed to enhance the usability of your HTC Desire Eye while providing protection:

- **Button Access:** The case features precisely molded button covers that allow for easy and responsive operation of the power and volume buttons.
- **Port Accessibility:** All necessary cutouts for the charging port, headphone jack, and speakers are accurately positioned to ensure unhindered access and functionality.
- **Camera Functionality:** The camera and flash cutouts are designed to prevent obstruction, ensuring clear photos and video recording.

- **Enhanced Grip:** The textured back and ultra-grip hand holds provide a secure and comfortable grip, reducing the risk of accidental drops.
- **Screen Protection:** The raised front bumper edge creates a slight lip around the screen, offering protection when the phone is placed face down on flat surfaces.

Image 3.1: An angled rear view of the BoxWave BodySuit Case, showcasing the precise cutouts for the camera and flash, as well as the textured finish and the glossy 'X' pattern. This angle also highlights the slim profile of the case.

4. MAINTENANCE AND CARE

To ensure the longevity and appearance of your BoxWave BodySuit Case, follow these maintenance guidelines:

- **Cleaning:** Wipe the case regularly with a soft, damp cloth. For stubborn dirt or smudges, a mild soap solution can be used. Avoid harsh chemicals or abrasive cleaners, as these can damage the TPU material.
- **Drying:** After cleaning, ensure the case is completely dry before re-installing your phone.
- **Storage:** When not in use, store the case in a cool, dry place away from direct sunlight or extreme temperatures, which can affect the material's integrity.
- **Inspection:** Periodically inspect the case for any signs of wear, tear, or damage. While durable, extreme impacts can compromise its protective qualities.

5. TROUBLESHOOTING

If you encounter any issues with your BoxWave BodySuit Case, consider the following common solutions:

- **Case Not Fitting Snugly:**
 - Ensure you have the correct model case for your HTC Desire Eye.
 - Remove the phone from the case and re-install, ensuring proper alignment and seating of all corners.

- **Buttons or Ports Obstructed:**

- Verify that the phone is correctly seated within the case and not misaligned.
- Check for any debris or foreign objects lodged between the phone and the case that might cause obstruction.

- **Case Appears Dirty or Stained:**

- Clean the case as per the instructions in the "Maintenance and Care" section (Section 4).
- Note that prolonged exposure to certain dyes or chemicals may cause permanent staining on TPU materials.

If the issue persists after attempting these steps, please refer to the support information provided by BoxWave Corporation.

6. SPECIFICATIONS

Brand	BoxWave
Model Number	bw-378-5434-8594
Compatible Phone Models	HTC Desire Eye
Material	Thermoplastic Polyurethane (TPU), Rubber
Color	Jet Black
Form Factor	Case
Special Features	Anti-Slip, Lightweight
Item Weight	1.09 ounces
Package Dimensions	7.28 x 4.57 x 0.47 inches
Manufacturer	BoxWave Corporation
Date First Available	November 18, 2014
