## Santos SAN70

# Santos 70 Evolution Commercial Lever Citrus Juicer

MODEL: SAN70 - INSTRUCTION MANUAL

## Introduction

---

This manual provides essential information for the safe and efficient operation, maintenance, and care of your Santos 70 Evolution Commercial Lever Citrus Juicer. Designed for commercial use, this heavy-duty juicer efficiently extracts juice from oranges, lemons, and grapefruits. Please read these instructions thoroughly before initial use and retain for future reference.

## Safety Instructions

---

To prevent injury or damage to the appliance, always observe the following safety precautions:

- Always ensure the juicer is unplugged from the power outlet before assembly, disassembly, cleaning, or when not in use.
- Do not immerse the motor unit in water or any other liquid.
- Keep hands and utensils away from moving parts during operation.
- Operate the juicer only on a stable, flat, and dry surface.
- This appliance is for commercial use. Do not use for purposes other than its intended use.
- Ensure the power supply matches the voltage specified on the appliance (110-120V, 50/60 Hz).

## Product Overview

---

The Santos 70 Evolution Citrus Juicer is constructed with durable materials for commercial environments. Key components include:

- **Cast Aluminum Motor Unit:** The robust base housing the motor.
- **Stainless Steel Juice Container:** Collects the extracted juice.
- **Stainless Steel Rotating Cone:** The part that presses and extracts juice from the fruit.
- **Lever:** Used to apply pressure to the fruit for juicing.

## Setup

---

Follow these steps for initial setup:

1. Unpack all components and remove any packaging materials.
2. Place the motor unit on a stable, flat, and dry countertop.
3. Ensure the stainless steel juice container is correctly seated on the motor unit.
4. Place the stainless steel rotating cone onto the motor shaft within the juice container.
5. Connect the power cord to a grounded electrical outlet (110-120V, 50/60 Hz).

## Operating Instructions

---

To operate your citrus juicer:

1. Cut citrus fruits (oranges, lemons, grapefruits) in half.
2. Place one fruit half, cut side down, onto the stainless steel rotating cone.
3. Gently pull down the lever to press the fruit onto the cone. The juicer will automatically start when the lever is engaged.
4. Apply steady, even pressure to extract the juice. The juice will flow into the stainless steel container below and out through the spout.
5. Release the lever to stop the juicer. Remove the squeezed fruit half and repeat the process with additional fruit.
6. Collect the fresh juice from the spout. The spout height of 8.6 inches accommodates most glasses and jugs.

## Cleaning and Maintenance

---

Regular cleaning ensures optimal performance and hygiene of your juicer.

1. Before cleaning, always unplug the juicer from the power outlet.
2. Disassemble the removable parts: the stainless steel juice container, rotating cone, and cup.
3. These removable parts are dishwasher safe for convenient cleaning.
4. Wipe the cast aluminum motor unit with a damp cloth. Do not immerse the motor unit in water.
5. Ensure all parts are thoroughly dry before reassembling or storing the juicer.

## Troubleshooting

---

If you encounter issues with your Santos 70 Evolution Juicer, refer to the following common troubleshooting steps:

Problem	Possible Cause / Solution
Juicer does not start.	Check power connection. Ensure the lever is fully engaged to activate the automatic start feature.
Low juice yield.	Ensure fruit is fresh and ripe. Apply consistent pressure with the lever.
Excessive noise during operation.	Ensure all removable parts (juice container, cone) are correctly assembled and seated.

## Specifications

---

Detailed technical specifications for the Santos 70 Evolution Commercial Lever Citrus Juicer:

Feature	Detail
Model Number	SAN70
Brand	Santos
Color	Grey / Silver
Power Source	Corded Electric
Voltage	110-120 Volts
Frequency	50/60 Hz
Maximum Power	350 Watts
Speed	1700 RPM
Output Capacity	Up to 13 Gallons / Hour (50 l/h)
Spout Height	8.6 inches
Materials	Cast Aluminum (motor unit), Stainless Steel (juice container, cone, blade)
Product Dimensions	18 x 18 x 24 inches
Item Weight	33 pounds
Product Care	Removable parts are Dishwasher Safe
Certifications	CE, NSF, UL, RoHS

## Warranty and Support

---

For technical assistance, spare parts, or warranty inquiries, please contact your authorized Santos dealer or the manufacturer directly. Retain your purchase receipt for warranty validation.
