T POWER TP-BF3-F4Y

T-Power 9V Charger for Emerson 1-FS4000 Swiffer Sweeper Vac

Instruction Manual

1. Product Overview

This T-Power 9V AC adapter is designed to provide power to compatible devices, specifically the Emerson 1-FS4000, 1-FS4000-000, 1FS4000000, DCH2-100US.1301, and the Swiffer Sweeper Vac (old model) vacuum cleaners. It features a barrel round plug tip and an extra-long 6.6ft cable for convenience.

Compatibility

This charger is specifically compatible with the **Emerson 1-FS4000 series** and the **Swiffer Sweeper Vac (old model)**. It is important to verify your device's model number and connector type before use.

- **Compatible Models:** Emerson 1-FS4000, 1-FS4000-000, 1FS4000000, DCH2-100US.1301, Swiffer Sweeper Vac Vacuum.
- **Incompatible Models:** This charger will **NOT FIT** models 1-SG1700-000, JOD-028U-02, or 1-L4000-000, nor the newer Swiffer Sweep + Vac models which use a different connector.
- **Connector Type:** Barrel Round Plug Tip. Not compatible with Rectangle Square Plug types.

2. Safety Information

To ensure safe operation and prolong the life of your charger and connected device, please observe the following safety guidelines:

- Do not expose the charger to water, moisture, or extreme temperatures.
- Avoid dropping or subjecting the charger to strong impacts.
- Do not attempt to disassemble or modify the charger.
- Ensure the charger is used with compatible devices only. Using an incompatible charger may damage your device.

- Unplug the charger from the power outlet when not in use or during electrical storms.

Built-in Protections

This T-Power adapter is designed with multiple safety features to protect against potential electrical hazards:

- **Over-Current Protection:** Prevents damage from excessive current flow.
- **Over-Temperature Protection:** Safeguards against overheating.
- **Over-Voltage Protection:** Protects against voltage spikes.
- **Short Circuit Protection:** Prevents damage in case of a short circuit.

Image 2.1: Overview of the superior safety features integrated into the T-Power adapter.

3. Setup and Installation

Follow these steps to set up your T-Power 9V Charger:

1. **Verify Compatibility:** Before plugging in, ensure your device (e.g., Swiffer Sweeper Vac) is listed as compatible and has a barrel round plug input port. Refer to Section 1 for compatibility details.

2. **Connect to Device:** Insert the barrel plug tip of the charger cable firmly into the charging port of your device.
3. **Connect to Power Outlet:** Plug the charger's two-prong power plug into a standard 110-240V AC wall outlet.
4. **Observe Indicator:** The charger typically features an LED indicator that illuminates when connected and charging, confirming power delivery.

4. Operation

Once properly connected, the charger will begin supplying power to your device. For battery-powered devices like the Swiffer Sweeper Vac, the charger will initiate the charging process.

- **Charging Indication:** Many devices have their own charging indicators (e.g., lights on the vacuum). Consult your device's manual for specific charging status indications. The T-Power charger itself has an LED to indicate it is connected and receiving power.
- **Charging Time:** Charging time will vary depending on the device's battery capacity and current charge level. Avoid overcharging by disconnecting the charger once the device indicates a full charge, or after the recommended charging duration specified by your device's manufacturer.
- **Continuous Power:** For devices that operate directly from AC power, the charger provides continuous power when plugged in.

5. Maintenance and Care

Proper care ensures the longevity and optimal performance of your T-Power charger:

- **Cleaning:** Disconnect the charger from the power outlet and device before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or solvents.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and extreme temperatures. Avoid wrapping the cable too tightly to prevent damage.
- **Cable Inspection:** Periodically inspect the cable and connectors for any signs of wear, cuts, or damage. If damage is observed, discontinue use and replace the charger.

6. Troubleshooting

If you encounter issues with your T-Power charger, consider the following:

- **No Power/Charging:**
  - Ensure the charger is securely plugged into both the wall outlet and the device.
  - Check if the wall outlet is functional by plugging in another device.
  - Verify that the charger's LED indicator is lit. If not, the charger may not be receiving power or could be faulty.
- **Charger Does Not Fit:**
  - Reconfirm your device's model number and connector type against the compatibility list in Section 1. This charger uses a barrel round plug tip and is not compatible with square plug types or newer Swiffer models.
  - Do not force the connector, as this can damage both the charger and your device.
- **Device Not Holding Charge:** If the device charges but quickly loses power, the issue may be with the device's internal battery rather than the charger. Consult your device's manufacturer for battery replacement options.

7. Specifications

Feature	Detail
Brand	T POWER
Model Number	TP-BF3-F4Y
Input Volt Range	110-240V AC
Output Voltage	9V DC
Output Current	0.15 A
Wattage	120 watts (Max)
Cable Length	6.6 feet (approx. 2 meters)
Connector Type	Barrel Connector
Color	Black
Special Feature	Fast Charging
Certifications	CE/FCC/RoHS certified, UL Specification Met
Item Weight	4 ounces

8. Warranty and Support

- **Warranty:** This T-Power product comes with a 1-year limited warranty.
- **Returns:** You may return your undamaged product and packaging within 30 days of purchase to receive a full refund for any reason.
- **Technical Support:** For any inquiries, issues, or if the adapter does not fit your device despite compatibility checks, please contact T-Power USA customer support.
