Safety Information

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, or injury to persons.

General Safety

- Read all instructions before using the appliance.
- Do not dry articles that have been previously cleaned in, washed in, soaked in, or spotted with gasoline, dry-cleaning solvents, or other flammable or explosive substances, as they emit vapors that could ignite or explode.
- Do not allow children to play on or in the appliance. Close supervision of children is necessary when the appliance is used near children.
- Before the appliance is removed from service or discarded, remove the door to the drying compartment.
- Do not reach into the appliance if the drum is moving.
- Do not install or store this appliance where it will be exposed to the weather.
- Do not tamper with controls.
- Do not repair or replace any part of the appliance or attempt any servicing unless specifically recommended in this manual.

Electrical Safety

- Ensure the appliance is properly grounded.
- Do not operate any appliance with a damaged cord or plug, or if it is not working properly or has been dropped or damaged.
- Do not use an extension cord or adapter with this appliance.

Setup and Installation

Unpacking

Carefully remove all packaging materials. Ensure all components are present and undamaged. Keep packaging materials away from children.

Location Requirements

Place the dryer on a firm, level floor. The appliance can be freestanding or stacked. Ensure adequate clearance around the unit for proper ventilation.

Leveling the Appliance

The dryer is equipped with adjustable front leveling legs. Use a level to ensure the appliance is perfectly balanced to prevent vibration and noise during operation.

Electrical Connection

Connect the dryer to a dedicated, properly grounded electrical outlet as specified in the electrical requirements section of this manual. Do not use extension cords.

Operating Instructions

Control Panel Overview

Figure 3: Front view showing the control panel with cycle selector and LED display.

The control panel features an electronic display and a rotary knob for cycle selection. Buttons for additional settings are also present.

Loading the Dryer

Open the dryer door and load clothes into the drum. Do not overload the dryer, as this can affect drying performance and efficiency. Ensure items are untangled before loading.

Selecting a Drying Cycle

Turn the cycle selector knob to choose from 15 automatic cycles. Refer to the table below for common cycles and their recommended uses:

Cycle Name	Description	Typical Use
Normal	Standard drying for everyday items.	Cotton, mixed fabrics.
Delicates	Gentle drying for sensitive fabrics.	Lingerie, silk, lace.
Heavy Duty	For large or heavily soiled items.	Towels, jeans.
Air Fluff	No heat, for freshening items.	Pillows, stuffed animals.

Temperature and Drying Level Settings

Adjust the temperature and drying level settings as needed. The dryer offers three drying level settings and three temperature settings to meet various drying needs.

Starting a Cycle

Press the Start/Pause button to begin the selected drying cycle. The LED display will show the remaining time or cycle status.

Monitoring Progress

The see-through door allows you to monitor your load without interrupting the cycle.

Maintenance

Cleaning the Lint Filter

Clean the lint filter before or after every load to ensure optimal drying performance and prevent fire hazards. The lint filter is located inside the dryer drum, near the door opening.

Cleaning the Dryer Exterior

Wipe the exterior surfaces with a soft, damp cloth. Avoid abrasive cleaners or solvents.

Cleaning the Drum

Occasionally wipe the interior of the drum with a damp cloth to remove any residue.

Detergent Dispenser Maintenance

If your model has a detergent dispenser, clean it regularly to prevent buildup.
