Metabo WEPF 9-125 Quick Angle Grinder User Manual

Model: 613069000

Brand: Metabo

1. INTRODUCTION

Thank you for choosing the Metabo WEPF 9-125 Quick Angle Grinder. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new tool. Please read this manual thoroughly before first use and keep it for future reference.

The Metabo WEPF 9-125 Quick is a powerful and robust 910W flat-head angle grinder designed for demanding grinding and cutting tasks. Its compact design allows for work in tight spaces, and the Quick system ensures fast, tool-free disc changes.

2. SAFETY INSTRUCTIONS

Always observe the following basic safety precautions when using power tools to reduce the risk of electric shock, fire, and serious injury.

- **Work Area Safety:** Keep your work area clean and well-lit. Cluttered or dark areas invite accidents. Do not operate power tools in explosive atmospheres, such as in the presence of flammable liquids, gases, or dust.

- **Electrical Safety:** Power tool plugs must match the outlet. Never modify the plug in any way. Do not expose power tools to rain or wet conditions.
- **Personal Safety:** Always wear eye protection (safety glasses or goggles) and hearing protection. Use a dust mask if operations create dust. Wear appropriate clothing; avoid loose clothing or jewelry.
- **Tool Use and Care:** Do not force the power tool. Use the correct power tool for your application. Disconnect the plug from the power source before making any adjustments, changing accessories, or storing power tools.
- **Specific Grinder Safety:** Always use the guard provided with the tool. Ensure the grinding disc is correctly mounted and secured before operation. Do not use damaged or incorrect accessories.

3. SETUP

3.1 Unpacking

Carefully remove the angle grinder and all accessories from the packaging. Check for any damage that may have occurred during transit. The package should contain:

- Metabo WEPF 9-125 Quick Angle Grinder
- Side handle
- Protective guard
- Inner and outer support flanges
- User Manual

3.2 Assembly

1. **Attach the Side Handle:** Screw the side handle firmly into one of the threaded holes on the gear housing. Ensure it is tightened securely for safe operation.
2. **Mount the Protective Guard:** Position the protective guard over the spindle collar. Rotate it until it clicks into place, ensuring it covers the grinding disc adequately for your application. Tighten the clamping screw to secure the guard.
3. **Install the Grinding Disc:** Place the inner support flange onto the spindle. Position the grinding disc onto the inner flange, ensuring it sits flat. Screw on the Quick clamping nut by hand until it is tight. The Quick system allows for tool-free disc changes.

4. OPERATING

4.1 Powering On/Off

The Metabo WEPF 9-125 Quick features a safety switch to prevent accidental startup.

- **To Turn On:** Push the slide switch forward until it locks into the ON position.
- **To Turn Off:** Press the rear part of the slide switch to release it, and it will spring back to the OFF position.

4.2 Usage Guidelines

- Always hold the tool firmly with both hands during operation.
- Allow the disc to reach full speed before applying it to the workpiece.
- Apply moderate pressure; do not force the tool. Excessive pressure can lead to overheating and premature wear of the disc and tool.
- When cutting, maintain a consistent feed rate. When grinding, move the tool evenly across the surface.
- Ensure the workpiece is securely clamped or held to prevent movement during operation.

5. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your Metabo angle grinder.

5.1 Cleaning

- After each use, clean the tool's ventilation slots to prevent dust buildup, which can cause overheating. Use a soft brush or compressed air.
- Wipe the exterior of the tool with a damp cloth. Do not use harsh chemicals or abrasive cleaners.

5.2 Storage

Store the angle grinder in a dry, secure place, out of reach of children. Protect it from direct sunlight and extreme temperatures.

6. TROUBLESHOOTING

This section addresses common issues you might encounter with your angle grinder.
