1. Shuffle all 57 game cards thoroughly.
2. Deal 5 cards face-up to each player. Players should arrange these cards in front of them so they can easily see the pictures.
3. Place the remaining cards face-down in a stack to form the draw pile.
4. Flip the top card from the draw pile face-up next to it. This card reveals the object that all players must find on their own cards.

4. OPERATING INSTRUCTIONS (HOW TO PLAY)

The objective of the game is to be the first player to get rid of all their cards by finding matching objects.

1. Once the object card is flipped, all players simultaneously search their 5 face-up cards for the object shown on the flipped card.
2. The first player to spot the object on one of their cards shouts "Eye Found It!" and places their

matching card on top of the flipped object card.

3. The newly placed card now becomes the object card, and all players must now search for the object shown on this new card on their remaining face-up cards.
4. Play continues in this fast-paced manner. If no player can find the object on their cards, a new card is drawn from the draw pile to reveal a new object.
5. The first player to successfully get rid of all their cards wins the game!
