

## HURRICANE HUR-20A

# Hurricane Anodized Aluminum Alloy Line Clipper User Manual

Model: HUR-20A

## PRODUCT OVERVIEW

The Hurricane Anodized Aluminum Alloy Line Clipper (Model HUR-20A) is a compact and durable tool designed for cutting fishing lines. It features an anodized aluminum alloy construction for corrosion resistance and includes a retractable reel for convenient attachment and access.

Image: The Hurricane Anodized Aluminum Alloy Line Clipper, featuring a blue anodized body, a retractable reel mechanism, and a gold-colored clip. The clipper is designed for portability and ease of use in fishing environments.

## SETUP

The Hurricane Line Clipper is designed for immediate use with minimal setup. It comes pre-assembled with the retractable reel.

- Unpackaging:** Carefully remove the line clipper from its packaging. Inspect the clipper and retractable reel for any visible damage.
- Attachment:** Use the integrated clip on the retractable reel to attach the line clipper to a convenient location, such as a fishing vest, belt loop, or tackle box. Ensure the clip is securely fastened to prevent accidental loss.
- Functionality Check:** Gently pull the line clipper away from the retractable reel to extend the cord. Release it to ensure the reel retracts smoothly and fully.

## OPERATING INSTRUCTIONS

The line clipper is designed for precise cutting of various fishing lines.

- 1. Identify Line Type:** The clipper is effective for cutting monofilament and fluorocarbon lines. For braided lines, performance may vary, and multiple attempts or a specific technique might be required.
- 2. Positioning the Line:** Open the clipper jaws by pressing the handles together. Place the fishing line firmly between the cutting blades.
- 3. Cutting Action:** Apply firm, steady pressure to the handles to close the blades and cut the line. Ensure the line is fully severed before removing the clipper.
- 4. Retraction:** After use, allow the retractable reel to pull the clipper back to its attached position, keeping it secure and readily accessible.

## MAINTENANCE

Proper maintenance will extend the life and performance of your Hurricane Line Clipper.

- **Cleaning:** After use, especially in saltwater environments, rinse the clipper with fresh water to remove salt, dirt, and debris. Dry thoroughly with a clean cloth.
- **Lubrication:** Periodically apply a small amount of corrosion-inhibiting lubricant to the pivot points and cutting blades to ensure smooth operation and prevent rust.
- **Storage:** Store the clipper in a dry environment when not in use. Avoid prolonged exposure to extreme temperatures or humidity.
- **Blade Inspection:** Regularly inspect the cutting blades for nicks, dullness, or misalignment. While the blades are durable, excessive wear may reduce cutting efficiency.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Clipper not cutting line cleanly.	Dull blades, improper line positioning, or attempting to cut braided line without proper technique.	Ensure line is positioned correctly. Apply firm, steady pressure. For braided line, try a quick, sharp snap. Consider blade maintenance or replacement if dullness persists.
Retractable reel not retracting fully.	Debris in mechanism, spring fatigue, or cord entanglement.	Clean the reel mechanism. Ensure the cord is not twisted or tangled. If the issue persists, the reel mechanism may be worn.
Clipper feels stiff or rusty.	Lack of lubrication, exposure to moisture/saltwater without cleaning.	Clean thoroughly with fresh water and dry. Apply a corrosion-inhibiting lubricant to all moving parts.

## SPECIFICATIONS

**Model:** HUR-20A

**Brand:** HURRICANE

**Material:** Anodized Aluminum Alloy (Clipper), Blend (Overall), Aluminum (Blade)

**Color:** Multi

**Item Dimensions (LxWxH):** Approximately 1 x 1 x 1 inches (Clipper only)

**Item Weight:** Approximately 0.05 Pounds

**Included Components:** Anodized Aluminum Alloy Line Clipper with Retractable Reel

**Manufacturer:** Big Rock Sports, LLC

**Date First Available:** February 24, 2015

## WARRANTY INFORMATION

---

Specific warranty details for the Hurricane Anodized Aluminum Alloy Line Clipper (Model HUR-20A) are typically provided at the point of purchase or within the product packaging. For detailed warranty terms and conditions, please refer to the documentation included with your product or contact the manufacturer directly.

*Note:* Keep your proof of purchase for any warranty claims.

## SUPPORT

---

For technical assistance, product inquiries, or to report issues, please contact the manufacturer:

**Manufacturer:** Big Rock Sports, LLC

Please refer to the official Big Rock Sports website or the product packaging for the most current contact information, including phone numbers or email addresses for customer support.
