AREON ACB 02

AREON ACB02 Car Air Freshener Vent Clip Instruction Manual

Model: ACB 02

PRODUCT OVERVIEW

The AREON ACB02 Car Air Freshener Vent Clip is designed to provide a long-lasting and pleasant fragrance experience in your vehicle. This product features a unique perfume formulation, distinct from typical air fresheners, and allows for adjustable scent release.

Image: The AREON ACB02 Car Air Freshener Vent Clip, shown in its retail packaging. The packaging displays the 'areon quality perfumes' logo and indicates 'BLACK CRYSTAL' scent. The product itself is a black, rectangular clip-on diffuser with a visible liquid fragrance container.

The Black Crystal scent is a sophisticated fragrance blend. It features top notes of Melon, Eucalyptus, and Lavandin, heart notes of Cedarwood, Patchouli, and Pine, and base notes of Moss, Leathery Accord, and Sandalwood.

PACKAGE CONTENTS

- 1 x AREON ACB02 Vent Clip Diffuser
- 1 x Black Crystal Fragrance Bottle (0.27 oz)

SETUP AND INSTALLATION

1. **Unpack the Air Freshener:** Carefully remove the air freshener components from its packaging.

Video: This video demonstrates the unpacking and installation process for the AREON Car Vent AC Perfume Air Freshener. It shows how to remove the product from its box, attach the clip, insert the fragrance bottle, and secure it to a car's ventilation outlet.

2. **Attach the Vent Clip:** Locate the clip component. Mount the clip into the designated slot at the back of the plastic diffuser unit. Ensure it clicks securely into place.
3. **Insert Fragrance Bottle:** Unscrew the cap from the fragrance bottle. Carefully place the fragrance container into the diffuser unit, ensuring that all parts are firmly attached and the bottle is upright.

4. **Secure to Car Vent:** Choose a suitable ventilation outlet in your car. Securely attach the assembled air freshener to the vent, ensuring it is in a vertical position for optimal performance and to prevent spills.

OPERATING INSTRUCTIONS

The AREON ACB02 Car Air Freshener is designed for continuous fragrance release. The intensity of the scent can be managed by adjusting the car's ventilation fan speed and the position of the air freshener on the vent.

- For a stronger scent, increase the fan speed or place the air freshener closer to the airflow.
- For a milder scent, decrease the fan speed or adjust the air freshener's position.
- Ensure the air freshener remains upright to prevent leakage.

MAINTENANCE

- **Refill Replacement:** When the fragrance liquid is depleted, replace the entire fragrance bottle with a new AREON refill. Do not attempt to refill the bottle with other liquids.
- **Cleaning:** If any fragrance liquid spills, wipe it immediately with a damp cloth to prevent damage to surfaces. Clean the exterior of the diffuser with a dry or slightly damp cloth as needed.
- **Storage:** Store unused fragrance refills in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No scent or very weak scent.	<ul style="list-style-type: none">◦ Fragrance bottle is empty.◦ Low fan speed or poor airflow.◦ Air freshener not positioned correctly.	<ul style="list-style-type: none">◦ Replace the fragrance bottle.◦ Increase car fan speed.◦ Adjust the air freshener to be directly in the path of airflow.

Problem	Possible Cause	Solution
Scent is too strong.	<ul style="list-style-type: none">◦ High fan speed.◦ Air freshener too close to direct airflow.	<ul style="list-style-type: none">◦ Decrease car fan speed.◦ Reposition the air freshener further from direct airflow.
Leakage from the unit.	<ul style="list-style-type: none">◦ Fragrance bottle cap not fully removed.◦ Unit not upright.◦ Fragrance bottle not securely attached.	<ul style="list-style-type: none">◦ Ensure the cap is completely removed before inserting.◦ Verify the air freshener is mounted vertically.◦ Re-attach the fragrance bottle firmly into the diffuser.
