INTRODUCTION

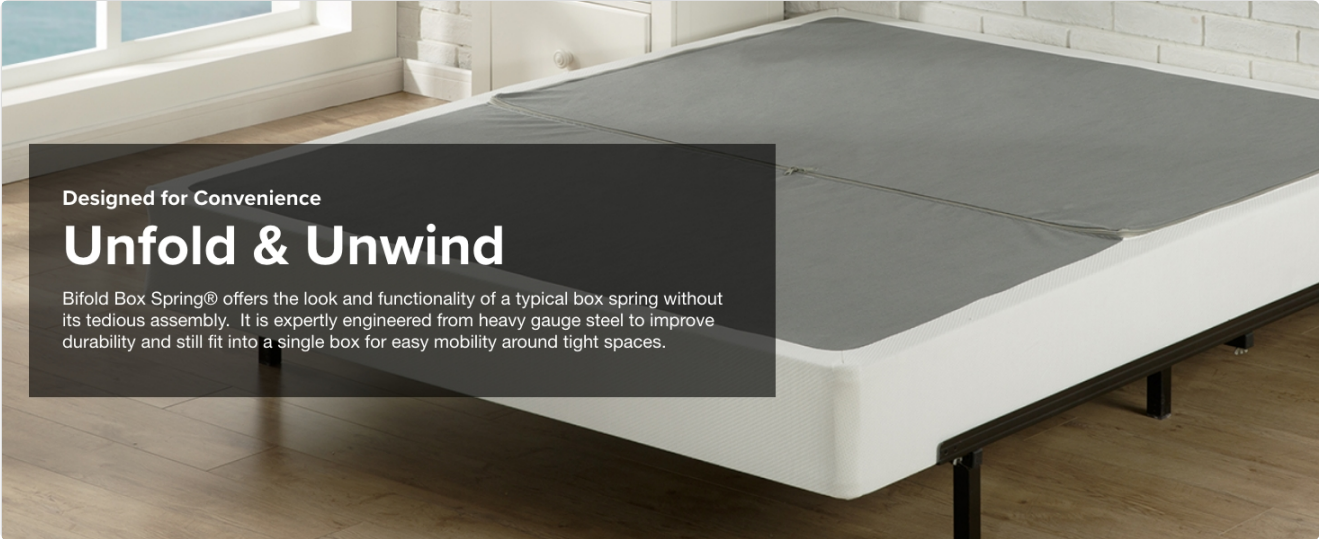

This instruction manual provides essential information for the proper setup, use, and care of your ZINUS 9-Inch No Assembly Metal Box Spring. Please read this manual thoroughly before beginning assembly or use to ensure optimal performance and longevity of your product.

The ZINUS No Assembly Box Spring features a folding design for ease of transport and setup. It is constructed with durable steel to provide a sturdy foundation for your mattress.

SETUP

The ZINUS No Assembly Box Spring is designed for quick and easy setup, requiring no tools. Follow these steps to prepare your box spring for use:

- Unpack the Box Spring:** Remove the box spring from its packaging. It will arrive in a compact, folded state.
- Position for Unfolding:** Place the folded box spring on a flat, clear surface where you intend to use it. Ensure there is enough space to fully unfold it.
- Unfold the Frame:** Gently unfold the metal frame. The design allows it to expand into its full rectangular shape.
- Secure the Cover:** The box spring features a poly jacquard cover. Ensure it is properly aligned and zipped around the metal frame.
- Placement:** Place the unfolded box spring onto a compatible bed frame or platform bed. Note that a separate bed frame or platform bed is required to support this foundation.

Designed for Convenience

Unfold & Unwind

Bifold Box Spring® offers the look and functionality of a typical box spring without its tedious assembly. It is expertly engineered from heavy gauge steel to improve durability and still fit into a single box for easy mobility around tight spaces.

OPERATION AND USE

The ZINUS Metal Box Spring provides a stable and supportive foundation for your mattress. It is designed to elevate your mattress and ensure proper support, contributing to mattress longevity and comfort.

- **Mattress Placement:** Once the box spring is securely placed on your bed frame, carefully position your mattress on top of the box spring. The top surface of the box spring is designed to minimize mattress slippage.
- **Height:** This 9-inch high box spring is suitable for users who prefer a higher bed profile or for use with shorter

mattresses to achieve a standard bed height.

- **Support:** The internal heavy-duty steel structure and closely spaced slats provide robust support for various mattress types.

Dimension & Capacity

MAINTENANCE

To maintain the condition and appearance of your ZINUS Box Spring, follow these simple care instructions:

- **Cleaning the Cover:** The poly jacquard cover should be spot cleaned only. Use a mild detergent and a damp cloth to gently clean any soiled areas. Avoid saturating the fabric.
- **Frame Inspection:** Periodically inspect the metal frame for any signs of wear or damage. Ensure all connections remain secure.
- **Avoid Harsh Chemicals:** Do not use harsh chemical cleaners or abrasive materials on the cover or frame, as this may cause damage.

TROUBLESHOOTING

The ZINUS No Assembly Metal Box Spring is designed for durability and ease of use. Should you encounter any issues, consider the following:

- **Squeaking Noises:** Ensure the box spring is placed on a stable, level bed frame. Verify that the bed frame itself is assembled correctly and all bolts are tightened.
- **Mattress Shifting:** The top surface of the box spring is designed to reduce mattress movement. If your mattress is still shifting excessively, ensure it is centered properly on the box spring.
- **Structural Concerns:** If you notice any bending or damage to the metal frame, discontinue use and contact ZINUS customer support for assistance.

For issues not covered here, please refer to the Support section for contact information.

SPECIFICATIONS

Feature	Detail
Product Dimensions (Twin)	74 x 38 x 9 inches
Item Weight	28 pounds
