Envion 90TP50BLM01

ENVION Therapure TPP50 Ionic Pro Mini Plug-In Air Purifier

Model: 90TP50BLM01

1. PRODUCT OVERVIEW

The Envion Therapure TPP50 Ionic Pro Mini Plug-In Air Purifier is designed to provide cleaner, healthier air in small spaces. This compact and cordless unit plugs directly into a wall outlet, offering convenience and efficiency in improving your indoor air quality by reducing airborne germs, bacteria, and viruses.

2. SETUP AND PLACEMENT

The TPP50 Air Purifier is designed for simple setup. No assembly is required. Simply plug the unit directly into a standard wall outlet.

- Choose a suitable wall outlet in the desired room. The compact design allows for placement in various small spaces such as bedrooms, nurseries, offices, or bathrooms.
- Ensure the outlet is easily accessible and not obstructed.
- The unit is cordless, providing flexibility in placement without the need for extension cords.

3. OPERATING INSTRUCTIONS

The control panel is located on the top of the unit for easy access.

Figure 3: Front view of the air purifier.

Power On/Off

- To turn the unit ON, press the **Power** button. The unit will start operating at the lowest fan speed.
- To turn the unit OFF, press the **Power** button again.

Fan Speed Adjustment

- The unit features three fan speeds. Press the **Speed** button repeatedly to cycle through the available speeds (Low, Medium, High).
- The current fan speed will be indicated by illuminated LEDs on the control panel.

Night Mode

- For undisturbed sleep, activate Night Mode by pressing the **Night Mode** button. This will turn off all indicator lights on the control panel.
- The air purifier will continue to operate silently in the background.

Timer Function

- To set an operating timer, press the **Timer** button. Each press will cycle through preset timer durations (e.g., 2 hours, 4 hours, 8 hours).
- The unit will automatically shut off once the set time has elapsed.

UV-C Light Technology

- The unit is equipped with UV-C light technology to help reduce airborne germs, bacteria, and viruses.
- The UV-C light operates automatically when the unit is on.

4. MAINTENANCE

One of the key benefits of the Therapure TPP50 is its cleanable filter, eliminating the need for costly filter replacements.

Filter Cleaning

- To access the filter, gently open the back panel of the unit.
- The HEPA-type filter can be cleaned by vacuuming it to remove accumulated dust and debris.
- Alternatively, the filter can be removed and washed with water. Ensure the filter is completely air-dried before reinserting it into the unit.
- Regular cleaning (e.g., monthly) is recommended to maintain optimal performance.

5. TROUBLESHOOTING

If you encounter any issues with your Envion Therapure TPP50 Air Purifier, please refer to the following common solutions:

- **Unit is not turning on:**
 - Ensure the unit is securely plugged into a working electrical outlet.
 - Check if the power button has been pressed firmly.
- **Unusual noise:**
 - Verify that the filter is correctly seated and the back panel is securely closed.
 - Clean the filter as per the maintenance instructions. Excessive dust buildup can sometimes cause unusual sounds.

- **Air does not feel fresh or odors persist:**

- Ensure the filter is clean. A dirty filter can reduce purification effectiveness.
- Confirm the unit is placed in an appropriate area for the room size (rated for 115 sq ft).
- While effective, the purifier may not completely eliminate all strong odors, especially from external sources.

- **Dryness or discomfort (e.g., nosebleeds, dry eyes):**

- Ionic purifiers can sometimes reduce humidity. If experiencing dryness, consider using a humidifier in conjunction with the air purifier or limiting continuous operation.

- **UV-C light always on:**

- The UV-C light is an integral part of the purification process and is designed to operate when the unit is on. The Night Mode function only turns off the control panel indicator lights, not the internal UV-C light.

If the issue persists after attempting these steps, please contact customer support.

6. SPECIFICATIONS

Feature	Detail
Brand	Envion
Model Number	90TP50BLM01
Color	Black
Floor Area Coverage	115 Square Feet
Controller Type	Manual Buttons (on unit)
Wattage	8 watts
Product Dimensions	3.5 x 5.75 x 12.75 inches
Item Weight	1 pound
