- Instruction Manual (this document)

PRODUCT OVERVIEW

Familiarize yourself with the components of your XQISIT Power Bank.

Image 1: The XQISIT Power Bank 2600 mAh microUSB in black. This image shows the compact design of the power bank, typically featuring a micro-USB input port for charging the power bank itself, and a standard USB-A output port for charging other devices. An indicator light might also be visible, showing the charging status or battery level.

1. **Micro-USB Input Port:** Used to charge the power bank.
2. **USB-A Output Port:** Used to charge external devices.
3. **LED Indicator:** Displays charging status or battery level (if applicable).

SETUP: CHARGING THE POWER BANK

Before first use, fully charge your XQISIT Power Bank.

1. Connect the small end of the supplied micro-USB cable to the **Micro-USB Input Port** on the power bank.
2. Connect the standard USB-A end of the cable to a USB power source, such as a wall adapter (not included), a computer's USB port, or a car charger.
3. The LED indicator will illuminate or flash to show that the power bank is charging.

4. Once fully charged, the LED indicator will typically change color or turn solid (refer to specific LED behavior for your model, if detailed). Disconnect the power bank from the charging source.

***Note:** A full charge may take several hours depending on the power source.*

OPERATING: CHARGING YOUR DEVICES

To charge your smartphone, tablet, or other compatible devices:

1. Connect your device's charging cable (typically a USB-A to your device's connector) to the **USB-A Output Port** on the XQISIT Power Bank.
2. Connect the other end of the cable to your device's charging port.
3. The power bank should automatically begin charging your device. If not, press the power button on the power bank (if present).
4. The LED indicator on the power bank may show its remaining battery level during discharge.
5. Once your device is charged, or the power bank is depleted, disconnect the cables.

***Important:** Use only appropriate charging cables for your devices. The power bank provides 5V/1A output.*

MAINTENANCE

- Keep the power bank dry and away from moisture.
- Avoid extreme temperatures (hot or cold).
- Do not drop, puncture, or disassemble the device.
- Clean the exterior with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- For optimal battery life, fully charge the power bank at least once every three months if not in regular use.

TROUBLESHOOTING

Problem	Possible Solution
Power bank not charging.	Ensure the micro-USB cable is securely connected to both the power bank and the power source. Try a different micro-USB cable or a different USB power source. Verify the power source is active and providing power.
Device not charging from power bank.	Ensure the power bank is sufficiently charged. Verify your device's charging cable is securely connected to both the power bank and your device. Try a different charging cable for your device. Ensure your device is compatible with 5V/1A output.
Power bank gets warm during use.	It is normal for the power bank to become slightly warm during charging or discharging. If it becomes excessively hot, disconnect it immediately and contact support.
