2. KEY FEATURES

- **GROHE StarLight Finish:** Provides scratch and tarnish-resistant surfaces, ensuring lasting beauty and durability.
- **GROHE DreamSpray Technology:** Advanced shower engines deliver precise and consistent water distribution across all spray patterns for an optimized showering experience.
- **SpeedClean Anti-Lime System:** Designed for easy maintenance, allowing limescale removal with a simple wipe of a finger to maintain performance.
- **3-15/16 inch Face:** Optimal size for effective water coverage.
- **5 Spray Patterns:** Offers a selection of spray modes for personalized comfort.

3. SETUP AND INSTALLATION

This showerhead is designed for wall-mounted installation. For detailed, step-by-step instructions, please refer to the dedicated **Installation Guide** included with your product. Ensure all local plumbing codes are followed during installation.

Figure 2: Rear view of the showerhead, illustrating the connection point for installation.

General Installation Advice:

- Turn off the main water supply before beginning installation.
- Remove your existing showerhead by unscrewing it counter-clockwise from the shower arm.
- Clean any old sealant or debris from the shower arm threads.
- Apply plumber's tape (Teflon tape) clockwise around the threads of the shower arm.
- Screw the new Grohe Relaxa Rustic 100 showerhead onto the shower arm by hand, turning clockwise until snug.
- Tighten slightly with a wrench if necessary, being careful not to overtighten.
- Turn on the water supply and check for leaks.

4. OPERATION

The Grohe Relexa Rustic 100 showerhead features five distinct spray patterns: Normal, Rain, Jet, Massage, and Champagne. These patterns can be selected by rotating the spray face or a selector on the showerhead, allowing you to customize your showering experience.

Video 1: An overview of the Grohe Relexa Rustic 100 5-Spray Shower Head, demonstrating its design and various spray patterns.

Spray Pattern Descriptions:

- **Normal:** A classic, full-coverage spray for everyday showering.
- **Rain:** A soft, wide spray that mimics natural rainfall for a relaxing experience.
- **Jet:** A focused, powerful spray ideal for rinsing or invigorating the skin.
- **Massage:** A pulsating spray designed to soothe muscles and provide a therapeutic effect.
- **Champagne:** A soft, aerated spray for a gentle and luxurious feel.

5. MAINTENANCE

To ensure optimal performance and longevity of your Grohe Relexa Rustic 100 showerhead, regular cleaning is recommended. The integrated **SpeedClean anti-lime system** simplifies this process.

Cleaning Instructions:

- To remove limescale buildup from the spray nozzles, simply wipe them with your finger. The flexible silicone nozzles are designed to release mineral deposits easily.
- For general cleaning of the GROHE StarLight chrome finish, use a soft cloth and a mild, non-abrasive cleaner. Avoid harsh chemicals, abrasive pads, or acidic cleaners, as these can damage the finish.
- Rinse the showerhead thoroughly with clean water after cleaning to remove any cleaner residue.

6. TROUBLESHOOTING

If you encounter issues with your Grohe Relexa Rustic 100 showerhead, consider the following common troubleshooting steps:

- **Low Water Pressure:** Check if the main water supply is fully open. Ensure there are no kinks in the shower hose (if applicable). Verify that the showerhead nozzles are free from limescale buildup (refer to Maintenance section).
- **Leaking:** If water is leaking from the connection point, ensure the showerhead is securely tightened and that plumber's tape was properly applied to the shower arm threads during installation. If leaking persists, the washer inside the connection may need to be replaced.
- **Uneven Spray:** This is often caused by clogged nozzles. Use the SpeedClean system to clear any mineral deposits from the spray holes.

If these steps do not resolve the issue, please contact GROHE customer support for further assistance.

7. SPECIFICATIONS
