

Master Lock 5423d

Master Lock 5423D Push Button Wall Mount Key Safe Instruction Manual

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Master Lock 5423D Push Button Wall Mount Key Safe. Please read these instructions carefully before using the product to ensure proper function and security.

Image 1: Master Lock 5423D Push Button Wall Mount Key Safe. This image displays the front of the key safe, featuring a silver-colored body with a black keypad. The keypad has numbered buttons (0-9) with corresponding letters, along with '#' and '*' symbols, and a 'C' button. A black shackle is visible at the top, and a black slider is positioned above the keypad.

2. KEY FEATURES

- Convenient push button locking mechanism.
- Familiar alpha/numeric telephone keypad format for easy code entry.
- Durable metal construction for enhanced security.
- Designed for wall-mount installation.

3. SETUP AND INSTALLATION

3.1. Mounting the Key Safe

1. Select a discreet and secure location for mounting the key safe.
2. Using the key safe as a template, mark the desired drilling points on the wall.
3. Drill pilot holes appropriate for your mounting hardware (screws and anchors, not included).

4. Securely attach the key safe to the wall using suitable fasteners. Ensure it is firmly fixed and cannot be easily removed.

3.2. Setting Your Combination

The Master Lock 5423D uses a resettable combination. Follow these steps to set your personal code:

1. Open the key safe door. (If it's new, it might be open or have a factory default code like '0000' or '1234'. Refer to packaging for initial code if applicable.)
2. On the inside of the door, locate the reset lever or button.
3. Move the reset lever to the 'SET' position (or press and hold the reset button).
4. While the lever is in the 'SET' position (or button held), enter your desired combination on the keypad. Your combination can be any sequence of numbers, and can include repeated numbers.
5. Return the reset lever to the 'NORMAL' or 'LOCK' position (or release the reset button).
6. **Test your new combination with the door open first** to ensure it works correctly before closing the safe.
7. Scramble the buttons after setting the combination to prevent accidental opening.

Important: Do not forget your combination. Master Lock does not retain combinations for push-button key safes.

4. OPERATION

4.1. Opening the Key Safe

1. Slide down the black weather cover located above the keypad to reveal the buttons.
2. Enter your personal combination by pressing the corresponding buttons. The order of button presses is crucial.
3. After entering the correct combination, pull down the door to open the safe.
4. If an incorrect button is pressed, press the 'C' button to clear the entry and re-enter your combination.

4.2. Closing the Key Safe

1. Ensure all keys or items are securely placed inside the safe.
2. Close the door firmly until it latches.
3. Slide the black weather cover back up to protect the keypad from elements.
4. For added security, scramble the buttons on the keypad after closing the safe.

5. MAINTENANCE

- Regularly inspect the key safe for any signs of wear or damage.
- Keep the keypad clean and free of dirt or debris. Use a soft, damp cloth for cleaning; avoid abrasive cleaners.
- Ensure the weather cover is always closed when the safe is not in use to protect the internal mechanism from moisture and dust.
- Periodically check the mounting screws to ensure the safe remains securely attached to the wall.

6. TROUBLESHOOTING

6.1. Safe Will Not Open

- **Incorrect Combination:** Double-check that you are entering the correct combination in the correct sequence. Press the 'C' button to clear any previous entries before trying again.
- **Buttons Stuck:** Ensure all buttons are fully depressed and released. Clean the keypad if buttons feel sticky.
- **Mechanism Jammed:** If the safe has been exposed to extreme conditions or impact, the internal mechanism might be jammed. Do not force it.

6.2. Difficulty Closing the Safe

- **Obstruction:** Ensure no items inside the safe are preventing the door from closing completely.
- **Misalignment:** Check if the door or latch mechanism is misaligned.

If you continue to experience issues, please contact Master Lock customer support.

7. SPECIFICATIONS

Model Number	5423d
Brand	Master Lock
Product Dimensions	1 x 1 x 1 inches
Item Weight	2 Pounds
Lock Type	Keypad Combination
Special Feature	Push Button
Mounting Type	Wall Mount
Material	Metal
Color	Satin Chrome
Water Resistance Level	Not Water Resistant
UPC	792277340742

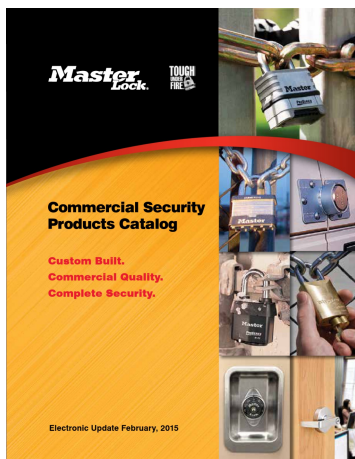

8. WARRANTY INFORMATION

Master Lock products are manufactured to high quality standards. For specific warranty details regarding your Master Lock 5423D Key Safe, please refer to the warranty information provided with your purchase or visit the official Master Lock website.

9. CUSTOMER SUPPORT

If you have any questions, require assistance, or need to report an issue with your Master Lock 5423D Key Safe, please contact Master Lock customer support through their official website or the contact information provided in your product packaging.
