Feit Electric 72336 Ultra Bright LED Flashlight User Manual

Model: 72336

INTRODUCTION

Thank you for choosing the Feit Electric 72336 Ultra Bright LED Flashlight. This manual provides essential information for the safe and effective use, maintenance, and troubleshooting of your new flashlight. Please read these instructions carefully before use and retain them for future reference.

SETUP

Battery Installation

The Feit Electric 72336 flashlight requires three (3) D-Cell batteries for operation. Batteries are not included with the product.

1. Unscrew the tail cap of the flashlight by turning it counter-clockwise.
2. Insert three D-Cell batteries into the battery compartment, ensuring the correct polarity (+/-) as indicated inside the flashlight body.
3. Screw the tail cap back on by turning it clockwise until securely tightened.

OPERATING INSTRUCTIONS

Power On/Off and Brightness Settings

The flashlight features a single button for power control and cycling through brightness modes.

- **To Turn On:** Press the power button located on the tail cap once. The flashlight will activate at its highest brightness setting (1000 Lumens).
- **To Cycle Brightness:** While the flashlight is on, press the power button repeatedly to cycle through the

available brightness modes: 1000 Lumens (High) → 500 Lumens (Medium) → 250 Lumens (Low).

- **To Turn Off:** Press the power button after cycling through all brightness modes, or hold the button down for approximately 2 seconds from any mode.

Adjustable Focus (Zoom Function)

The flashlight features a sliding head for adjusting the beam focus.

- **To Zoom In (Narrow Beam):** Slide the head of the flashlight forward. This concentrates the light into a tighter, more focused beam for long-distance illumination.
- **To Zoom Out (Wide Beam):** Slide the head of the flashlight backward. This spreads the light into a wider beam, ideal for illuminating a larger area at closer range.

Image: The Feit Electric 72336 LED Flashlight in its retail packaging, highlighting features such as sliding zoom, 3 brightness levels (1000, 500, 250 lumens), strobe light, and emergency S.O.S. This image illustrates the various operational capabilities.

Special Modes (Strobe and S.O.S.)

The flashlight may include special modes for emergency situations.

- **Strobe Light:** From the ON position, a quick double-press of the power button may activate the strobe function. Repeat the double-press to return to normal operation or cycle through modes.
- **Emergency S.O.S.:** From the ON position, a quick triple-press of the power button may activate the S.O.S. signaling mode. Repeat the triple-press to return to normal operation or cycle through modes.

Note: The exact activation sequence for strobe and S.O.S. modes may vary slightly. Refer to the packaging or quick start guide for precise instructions if different from above.

MAINTENANCE

Cleaning

- Wipe the exterior of the flashlight with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Keep the lens clean for optimal light output. Use a lens cleaning cloth if necessary.

Battery Replacement

Replace batteries when the light output becomes dim or the flashlight ceases to function. Always replace all three D-Cell batteries at the same time with new ones. Do not mix old and new batteries or different battery types.

Storage

If the flashlight will not be used for an extended period, remove the batteries to prevent leakage and potential damage to the device.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Flashlight does not turn on.	Dead or incorrectly installed batteries.	Check battery polarity. Replace with fresh D-Cell batteries.
Light is dim or flickers.	Low battery power. Loose tail cap.	Replace batteries. Ensure tail cap is securely tightened.
Beam focus (zoom) is stiff.	Dirt or debris in the sliding mechanism.	Gently clean the sliding head area. Avoid forcing the mechanism.

SPECIFICATIONS

- **Model:** 72336
- **Light Source:** LED
- **Brightness Settings:** 1000 Lumens (High), 500 Lumens (Medium), 250 Lumens (Low)
- **Run Time (Low Setting):** Up to 30 hours
- **Power Source:** 3 x D-Cell Batteries (Alkaline recommended, not included)
- **Voltage:** 4.5 Volts
- **Material:** Aluminium
- **Special Features:** Adjustable Focus (Zoomable), 1-Meter Drop Resistant, Weather Resistant
- **Item Weight:** 408 g
- **Color:** Black
