REVLON Multi Care Base & Top Coat [965] Instruction Manual

1. PRODUCT OVERVIEW

The REVLON Multi Care Base & Top Coat [965] is a versatile nail product designed to serve as both a protective base layer and a durable top coat. This dual-purpose formula helps to prepare nails for color application, promoting adhesion and preventing staining, while also sealing in your manicure for extended wear and a glossy finish. It features a long-lasting, vegan formula and is formaldehyde-free, contributing to healthier nail care.

2. SETUP AND PREPARATION

Proper nail preparation is essential for optimal adhesion and longevity of your manicure.

1. **Clean Nails:** Ensure nails are clean, dry, and free of any old polish, oils, or lotions. Use a nail polish remover if necessary, then wash hands with soap and water.
2. **Shape and Buff:** File nails to your desired shape. Gently buff the nail surface to create a smooth, even base for polish application.
3. **Push Back Cuticles:** Gently push back cuticles using a cuticle pusher.

3. OPERATING INSTRUCTIONS

This product can be used as a base coat, a top coat, or both.

3.1. As a Base Coat

1. After preparing your nails, apply one thin, even coat of REVLON Multi Care Base & Top Coat to each nail.
2. Allow the base coat to dry completely before applying your chosen nail color. This typically takes 1-2 minutes.

3.2. As a Top Coat

1. Once your nail color is completely dry (usually after 2-3 coats of color), apply one thin, even coat of REVLON Multi Care Base & Top Coat over the colored polish.
2. Ensure the top coat covers the entire nail surface, including the free edge, to seal the manicure.
3. Allow the top coat to dry thoroughly. This may take 5-10 minutes, depending on the thickness of the application.

4. MAINTENANCE AND STORAGE

To maintain the quality and effectiveness of your REVLON Multi Care Base & Top Coat:

- **Store Properly:** Keep the bottles tightly capped when not in use to prevent evaporation and thickening. Store in a cool, dry place away from direct sunlight and extreme temperatures.
- **Avoid Contamination:** Do not dilute the product with water or other substances, as this can affect its performance and shelf life.
- **Check Consistency:** If the product becomes too thick over time, a few drops of a dedicated nail polish thinner (not remover) can be used to restore its consistency.

5. SAFETY INFORMATION AND INGREDIENTS

For external use only. Keep out of reach of children. Avoid contact with eyes. If irritation occurs, discontinue use.

Ingredients:

Butyl Acetate, Ethyl Acetate, Nitrocellulose, Adipic Acid/Neopentyl Glycol Crosspolymer, Styrene/Acrylates Copolymer, Isopropyl Alcohol, Colorants, Benzophenone-1.

This product is formulated to be **Formaldehyde Free**.

6. TROUBLESHOOTING

- **Issue: Product appears yellow or discolored.**

Solution: This can occur if the product is old or has been exposed to direct sunlight or heat. Ensure proper storage in a cool, dark place. If discoloration is significant, the product's performance may be compromised.

- **Issue: Bottle seems empty or product is very thick.**

Solution: Verify the product volume upon receipt. Evaporation can occur if the cap is not sealed tightly. For thickened polish, use a dedicated nail polish thinner to restore consistency.

- **Issue: Manicure does not last long or chips easily.**

Solution: Ensure nails are thoroughly clean and dry before application. Apply thin, even coats of base coat, color, and top coat, allowing each layer to dry completely. Cap the free edge of the nail with both base and top coats for added durability.

7. SPECIFICATIONS

Feature	Detail
Brand Name	REVLON
Model Number	PPAX1350560
UPC	309978689928
ASIN	B00RZTP180
Liquid Volume	0.5 Fluid Ounces (per bottle)
Unit Count	2 Count (Pack of 2)
Item Form	Liquid
Container Type	Bottle
Material Type Free	Formaldehyde Free
