Cable Matters USB-A to USB-C Charging and Data Cable (3-Pack, 3.3 ft, Black) User Manual

Model: 201001-BLK-1m

1. PRODUCT OVERVIEW

This manual provides instructions for the Cable Matters 3-Pack USB-A to USB-C Charging and Data Cables. These cables are designed to connect devices with a USB Type-C port to a host computer, wall charger, or external power bank equipped with a standard USB Type-A port. They facilitate both efficient data syncing and fast charging.

2. SETUP AND CONNECTION

Connecting your device using the Cable Matters USB-A to USB-C cable is straightforward:

1. **Identify Ports:** Locate the USB Type-A port on your power source (e.g., wall charger, computer, power bank) and the USB Type-C port on your device (e.g., smartphone, tablet).
2. **Connect USB-A:** Insert the USB Type-A end of the cable into the corresponding port on your power source or computer.
3. **Connect USB-C:** Insert the USB Type-C end of the cable into the corresponding port on your device. The USB-C connector is reversible, allowing for easy plug-in without concern for orientation.

7. TROUBLESHOOTING

- **Device Not Charging:** Ensure both ends of the cable are securely connected. Verify that your power source (wall adapter, computer port) is functional and provides sufficient power. Try a different power source or device to isolate the issue.
- **Slow Charging:** Fast charging requires a compatible power adapter that can deliver 3A or more. If charging is slow, check the output specifications of your power adapter.
- **Data Transfer Issues:** Confirm the cable is connected to a data-enabled USB-A port on your computer. Ensure your device is set to data transfer mode (sometimes requires selecting an option on the device after connecting).
- **Intermittent Connection:** Check for any visible damage to the cable or connectors. Ensure ports on both devices are clean and free of debris.
