SETUP

1. Installation

1. **Screw in the Bulb:** Carefully screw the Flux WiFi Smart LED Light Bulb into any standard Edison fixture (E26 base).

2. **Power On:** Turn on the light switch to provide power to the bulb.

2. App Download & Connection

To unlock the full potential of your Flux Smart LED Light Bulb, download the free "Flux WiFi" app from your device's app store. The app facilitates connection and control.

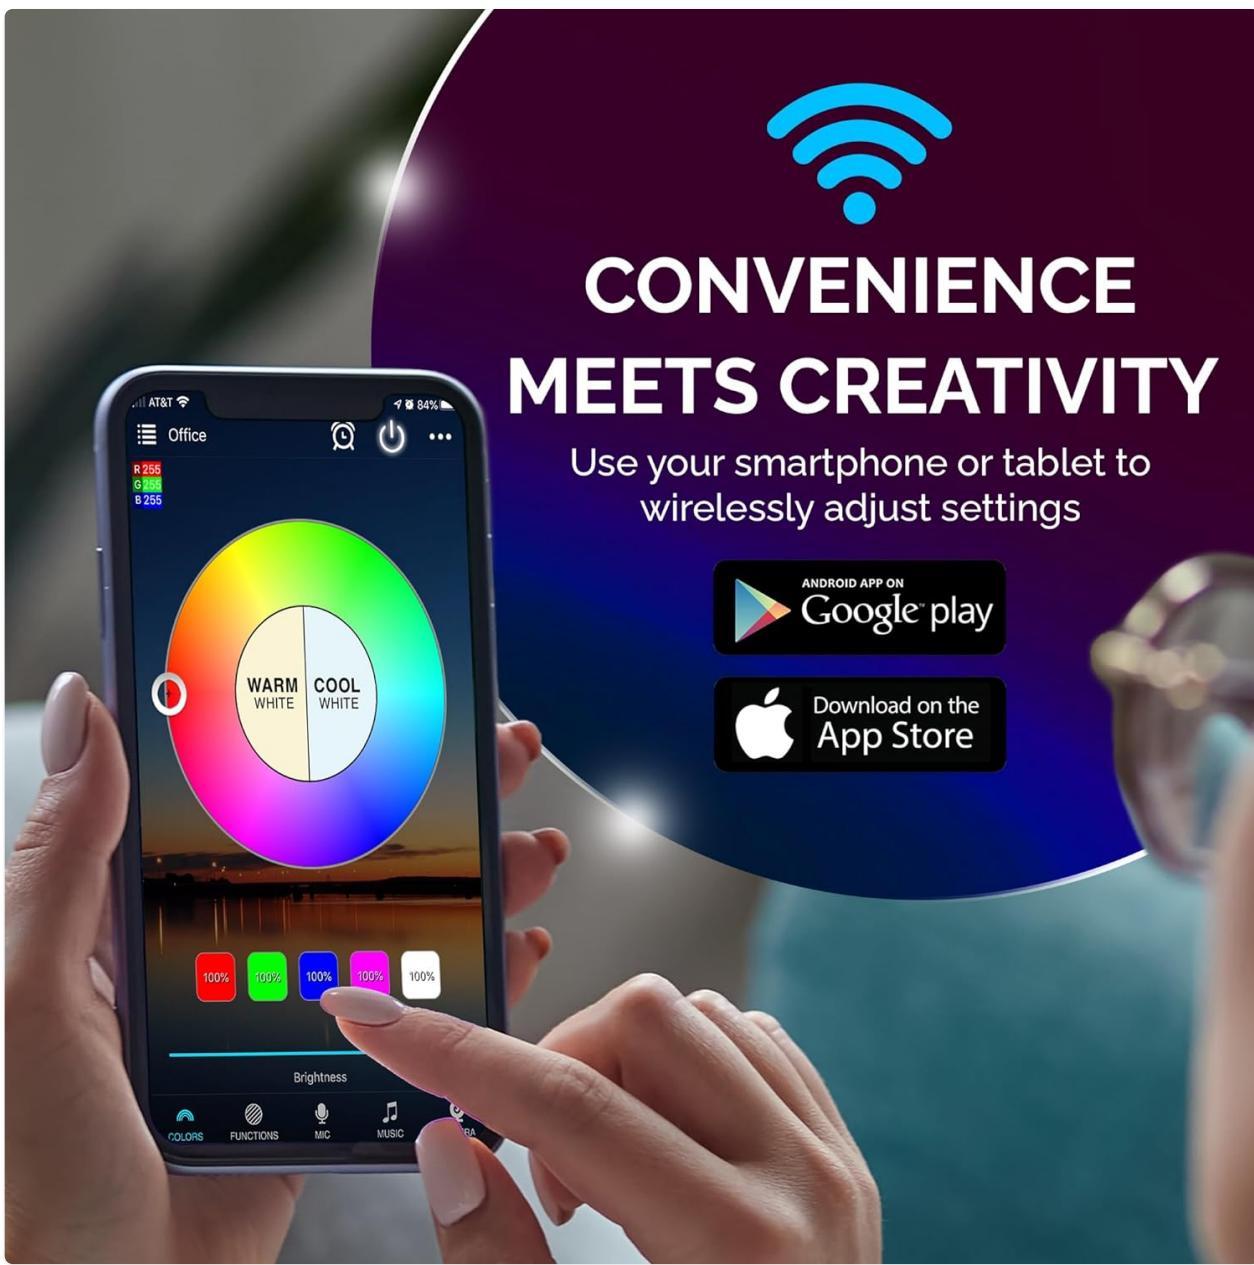

Image: A smartphone displaying the Flux WiFi app interface, showing a color wheel for light adjustment and icons for various functions.

Follow the in-app instructions to connect the bulb to your home WiFi network. This typically involves:

- Opening the Flux WiFi app.
- Selecting the option to add a new device.
- Connecting your smartphone to the bulb's temporary WiFi network (usually named something like "LEDnet...").
- Returning to the app and selecting your home WiFi network, then entering its password.

3. Setup Video Guide

For a visual walkthrough of the setup process, please refer to the official FluxSmart Set-up Video below:

OPERATING INSTRUCTIONS

1. Color and Brightness Control

The Flux WiFi app provides a comprehensive interface to control your bulb's lighting. You can select from a palette of 16 million colors and adjust the brightness to suit any mood or activity.

Image: A room illuminated with multicolored smart lighting, highlighting the bulb's ability to create various ambiances.

- **Color Changing:** Access the color wheel in the app to choose any desired color.
- **Dimmable:** Adjust the light intensity from 1% to 100% to create the perfect ambiance.
- **White Light Options:** Select different shades of white, from warm to cool, to match your preference.

2. Smart Features

- **Music Sync:** Sync the light's color-changing effects to the beat of your favorite music for an immersive experience.
- **Voice Control:** Compatible with Amazon Alexa and Google Home Assistant, allowing you to control your lights using voice commands.
- **Light Schedules & Timers:** Set custom schedules for the bulb to turn on/off automatically. Utilize the "Sunrise" feature for a gentle wake-up or set timers for gradual dimming at night.
- **Remote Control:** Manage your lights from anywhere using the Flux WiFi app on your smartphone or tablet, ensuring you never leave a light on unintentionally.
- **IFTTT Integration:** Connect your bulb with IFTTT (If This Then That) for advanced automation and integration with other smart devices.
- **Grouping:** Control multiple Flux Smart LED Light Bulbs simultaneously by grouping them within the app.

MAINTENANCE

The Flux WiFi Smart LED Light Bulb is designed for long-lasting performance with an average life of 20,000

hours. To ensure optimal operation:

- **Cleaning:** Ensure the bulb is off and cool before cleaning. Wipe with a soft, dry cloth. Do not use liquid cleaners.
- **Placement:** Avoid placing the bulb in enclosed fixtures that may restrict airflow, as this can affect its lifespan.

TROUBLESHOOTING

If you encounter issues with your Flux WiFi Smart LED Light Bulb, consider the following:

- **Connectivity:** Ensure the LED smart bulb is within your router's signal range. A strong WiFi signal is crucial for stable operation.
- **Interference:** Avoid placing the bulb in metal or enclosed fixtures, as such materials tend to interfere with the wireless connection.
- **Power Cycle:** Try turning the light switch off and on again to power cycle the bulb.
- **App Issues:** Ensure your Flux WiFi app is updated to the latest version. Restarting the app or your smartphone may also resolve minor glitches.
- **Reset:** If problems persist, consult the app or product packaging for instructions on how to reset the bulb to its factory settings.

SPECIFICATIONS

Feature	Detail
Light Type	LED
Wattage	7.5 Watts (50 Watts Incandescent Equivalent)
Voltage	110 Volts (Accepted: 100 to 120 Volts and 60 Hertz)
Light Output	550 Lumens
