## NiceTQ BC62316

# NiceTQ USB Data Sync Transfer Charger Cable for Philips GoGear MP3/MP4 Player Vibe (Model BC62316)

## INTRODUCTION

This manual provides comprehensive instructions for the NiceTQ USB Data Sync Transfer Charger Cable, specifically designed for use with Philips GoGear MP3/MP4 Player Vibe models. This cable serves a dual purpose: facilitating the charging of your device and enabling efficient data transfer between your device and a computer.

## 1. SETUP

### 1.1 Identifying Connectors

The cable features two distinct connectors: a standard USB-A connector (the larger, rectangular end) and a smaller mini-USB connector (the trapezoidal end).

Image: Close-up of the USB-A and mini-USB connectors on the cable.

## 1.2 Connecting to Your Device

For both charging and data transfer, carefully insert the mini-USB end of the cable into the corresponding port on your Philips GoGear MP3/MP4 Player Vibe. Ensure a firm and secure connection.

## 1.3 Connecting to a Power Source or Computer

Connect the standard USB-A end of the cable to an available USB port on your computer or to a compatible USB wall adapter (not included) for charging purposes.

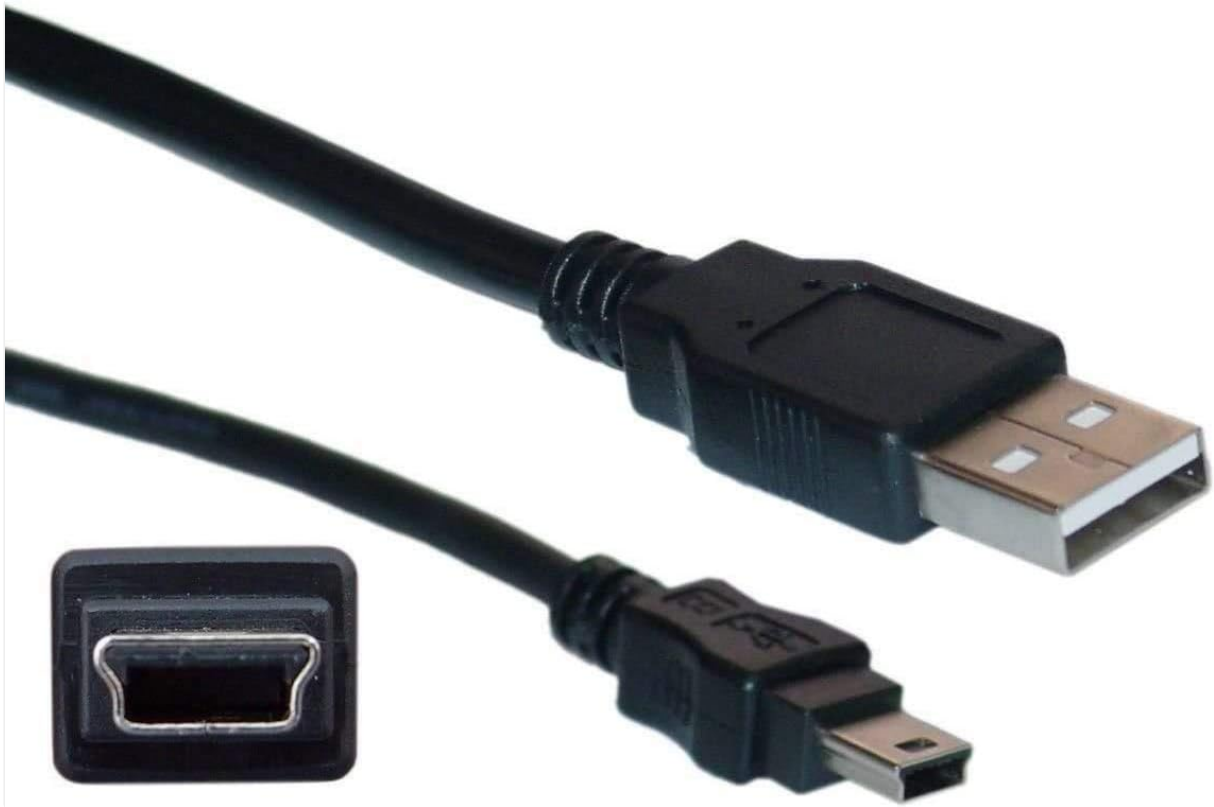

Image: The NiceTQ USB cable with both connectors visible, ready for connection.

## 2. OPERATING INSTRUCTIONS

### 2.1 Charging Your Device

Once the cable is properly connected to your Philips GoGear device and a power source (either a computer USB port or a USB wall adapter), your device should automatically begin charging. The charging status is typically indicated on the device's screen or via an LED indicator light.

### 2.2 Data Transfer

To transfer data, connect the cable from your Philips GoGear device to a USB port on your computer. Your computer should recognize the device as a removable storage drive. You can then access the device's contents through your computer's file explorer (e.g., 'My Computer' or 'This PC' on Windows, or 'Finder' on macOS).

- **Transferring Files:** Drag and drop files (such as music, videos, or photos) between your computer and the Philips GoGear player's folders.
- **Safe Ejection:** Always safely eject the device from your computer's operating system before physically disconnecting the cable. This prevents potential data corruption or damage to the device.

## 3. CARE AND MAINTENANCE

- **Storage:** Store the cable in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Handling:** Avoid sharp bends, kinks, or excessive pulling on the cable, as this can damage the internal wiring. Always grasp the connector housing when plugging or unplugging the cable, not the cable itself.
- **Cleanliness:** Keep the connectors clean and free of dust, lint, or other debris to ensure optimal conductivity and connection.

## 4. TROUBLESHOOTING

### Device Not Charging:

- Ensure both the mini-USB end and the USB-A end of the cable are securely connected to their respective ports.
- Try connecting the USB-A end to a different USB port on your computer or a different USB wall adapter.
- Verify that your Philips GoGear device itself is functioning correctly and not experiencing other issues.

### Data Transfer Issues:

- Confirm that the cable is properly connected to both your Philips GoGear device and your computer.
- Restart both your computer and your Philips GoGear device, then attempt the connection again.
- Check your computer's Device Manager (Windows) or System Information (macOS) to ensure the Philips GoGear device is recognized.
- If applicable, ensure you have any necessary drivers or software installed for your Philips GoGear player, as specified by the device manufacturer.

## 5. PRODUCT SPECIFICATIONS

<b>Brand</b>	NiceTQ
<b>Model Number</b>	BC62316
<b>Connector Type</b>	USB Type A, Mini-USB
<b>Cable Type</b>	USB
<b>Compatible Devices</b>	Philips GoGear MP3/MP4 Player Vibe, PC
<b>Special Feature</b>	Braided, Data Transfer, High Speed
<b>Color</b>	Black
<b>Connector Gender</b>	Male-to-Male
<b>Data Transfer Rate</b>	0.48 Megabits Per Second
<b>Product Dimensions</b>	2.5 x 1 x 1.5 inches (approximate packaging dimensions)
<b>Item Weight</b>	0.634 ounces

## 6. WARRANTY AND SUPPORT

This NiceTQ USB Data Sync Transfer Charger Cable is typically covered by a standard manufacturer's warranty. For detailed information regarding warranty terms, duration, or to obtain technical support, please refer to any documentation included with your purchase or contact NiceTQ customer service directly through their official channels.
