Urban 564A Motorcycle Disc Lock User Manual

Model: 564A | Brand: Urban

PRODUCT OVERVIEW

The Urban 564A is a compact, lightweight, and portable disc lock designed for motorcycles, scooters, electric bikes, and bicycles with disc brakes. It features a hardened steel shaft and an anti-drill security lock for enhanced protection. Its highly visible yellow color acts as a deterrent and makes it easy to locate.

Key Features

- Compact and Portable:** Mini design, lightweight, perfect for various two-wheeled vehicles with disc brakes. Features a Ø5mm hardened steel shaft.
- Anti-Drill Security:** High-security lock with an anti-drill ball for maximum resistance against theft attempts.
- Easy to Use:** Click locking system allows for quick, one-handed operation without needing a key to lock.
- High Visibility:** Striking yellow color enhances deterrence and visibility.
- Durable Construction:** Made with 100% metallic body for reliability.

SETUP AND INSTALLATION

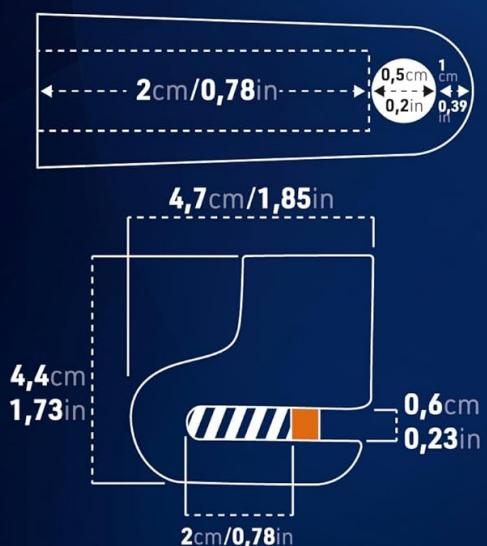

Checking Compatibility

Before use, ensure your vehicle's disc brake is compatible. The Urban 564A requires a disc hole or space with a diameter of at least 5mm (0.2 inches) and a distance of less than 2cm (0.78 inches) from the outside edge to the first hole.

UR564A

DISC LOCK CHECKING

UNIVERSAL

MEASURE YOUR BRAKE DISC TO KNOW IF IT IS COMPATIBLE

From the outside to the first hole or space of more than 5mm in diameter, for the UR564A to be compatible it must have a distance of less than 2cm.

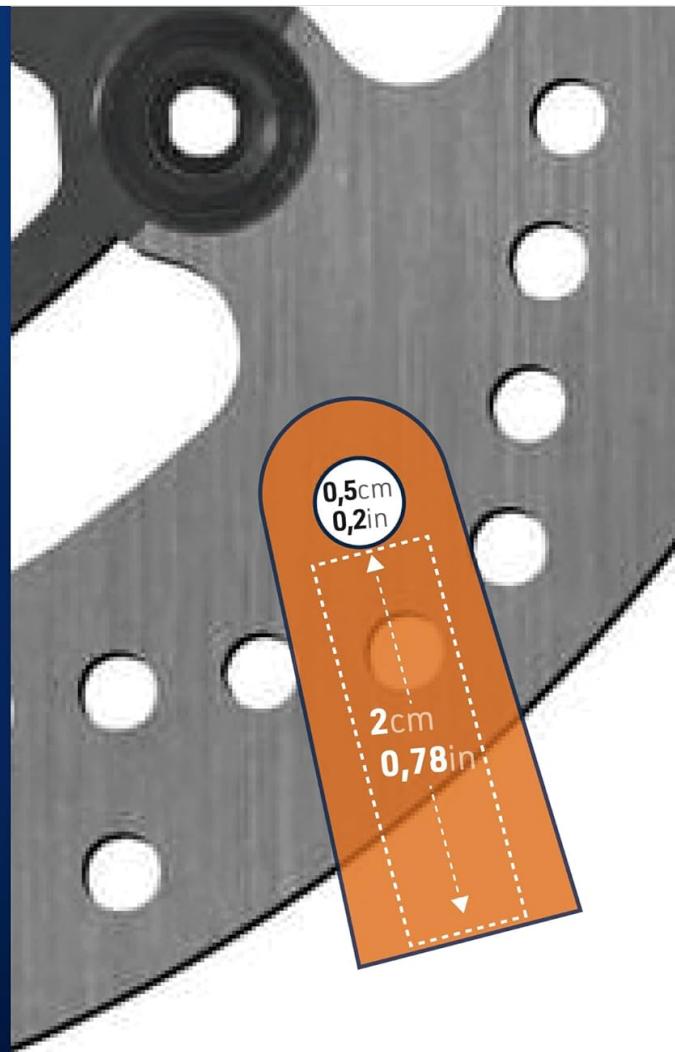

Diagram illustrating how to measure your brake disc for compatibility with the Urban 564A lock.

Attaching the Lock

1. Identify a suitable hole or slot on your vehicle's brake disc.
2. Align the lock's pin with the chosen hole.
3. Press the locking mechanism down firmly until you hear a "click." The lock is now engaged.

Demonstration of the quick and easy click-locking system.

OPERATING THE Lock

Locking

To lock the device, simply push the locking pin down into the disc hole until it clicks into place. No key is required for locking.

Unlocking

Insert one of the provided keys into the lock cylinder. Turn the key clockwise to release the locking pin. Remove the lock from the disc.

MAINTENANCE

To ensure the longevity and smooth operation of your Urban 564A Disc Lock, follow these maintenance guidelines:

- Keep the lock clean and free from dirt and debris. Wipe it with a soft, dry cloth regularly.
- Periodically apply a small amount of graphite lubricant or a specialized lock lubricant to the keyhole and locking mechanism. Avoid using oil-based lubricants as they can attract dirt.
- Store the lock in a dry place when not in use, preferably in its included carrying pouch, to protect it from moisture and dust.

The Urban 564A Disc Lock, its keys, and the convenient carrying pouch.

TROUBLESHOOTING

Lock is difficult to engage or disengage

Ensure the disc brake hole is clear of obstructions. Apply a small amount of lock lubricant to the pin and key mechanism. If the issue persists, check for any physical damage to the lock or the disc.

Key is stuck or difficult to turn

Do not force the key. Apply a small amount of lock lubricant into the keyhole and gently try to wiggle the key while turning. Ensure the key is fully inserted.

Lock does not click into place

Verify that the disc brake is properly aligned with the lock's pin. Ensure no debris is obstructing the locking

mechanism.

SPECIFICATIONS
