Lava 10085

Lava 10085 Heavy-Duty Hand Cleaner Bar User Manual

Model: 10085 / 2328390

INTRODUCTION

This manual provides instructions for the proper use and care of the Lava 10085 Heavy-Duty Hand Cleaner Bar. This product is designed for effective removal of tough dirt, grease, and grime from hands, utilizing pumice scrubbing particles while being formulated to minimize skin dryness.

Image: The Lava Heavy-Duty Hand Cleaner Bar, packaged in its distinctive red and white wrapper, highlighting its pumice-powered formula and association with WD-40 Company. The packaging also indicates "NET WT 5.75 OZ. (163g)".

SETUP

The Lava 10085 Hand Cleaner Bar requires minimal setup. It is ready for use directly from its packaging.

1. **Unpack:** Remove the Lava bar from its protective wrapper.
2. **Placement:** Place the bar in a suitable soap dish or holder near a water source, such as a sink in a garage, workshop, or bathroom.

OPERATING INSTRUCTIONS

Follow these steps for effective hand cleaning:

1. **Wet Hands:** Thoroughly wet your hands with warm water.

- 2. **Apply Soap:** Rub the Lava bar between your wet hands to create a lather. Ensure the pumice particles are distributed across the soiled areas.
- 3. **Scrub:** Vigorously rub your hands together, paying close attention to areas with heavy dirt, grease, paint, or grime. The pumice particles will aid in scrubbing away stubborn substances. Continue scrubbing for at least 20 seconds.
- 4. **Rinse:** Rinse your hands thoroughly under running water until all soap and debris are removed.
- 5. **Dry:** Dry your hands with a clean towel.

The formulation is designed to be effective on tough contaminants while being gentle on skin, helping to prevent excessive dryness.

CARE AND MAINTENANCE

To prolong the life of your Lava Hand Cleaner Bar and maintain hygiene:

- **Storage:** Store the soap bar in a well-draining soap dish to prevent it from sitting in water, which can cause it to soften and dissolve prematurely.
- **Dry Environment:** Keep the soap bar in a dry environment when not in use.
- **Avoid Contamination:** Ensure the soap dish is clean to avoid contamination.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Soap softens quickly	Poor drainage in soap dish; excessive moisture.	Ensure soap dish drains properly. Store in a dry area when not in use.
Hands not completely clean	Insufficient scrubbing time or lather.	Increase scrubbing duration and ensure adequate lather is formed, focusing on heavily soiled areas.
Skin irritation/dryness	Individual skin sensitivity; excessive use.	Reduce frequency of use if irritation occurs. Consider applying a hand moisturizer after washing. If irritation persists, discontinue use.

SPECIFICATIONS

Product Name: Lava Heavy-Duty Hand Cleaner Bar
Model Number: 10085 / 2328390
Brand: Lava (by WD-40 Company)
Key Ingredient: Pumice
Net Weight: 5.75 oz (163g)
