John Deere VGA10995

John Deere Cable VGA10995 User Manual

Model: VGA10995

Introduction

This manual provides essential information for the proper installation, operation, and maintenance of the John Deere Cable VGA10995. Please read this manual thoroughly before use to ensure safe and efficient performance.

Figure 1: John Deere Cable VGA10995. This image displays the cable, which is a genuine John Deere OEM part, designed for specific agricultural and construction machinery applications.

Safety Information

Always observe safety precautions when handling and installing the cable. Ensure the equipment is turned off and disconnected from power sources before installation or maintenance. Refer to your equipment's primary manual for specific safety guidelines.

Setup and Installation

The John Deere Cable VGA10995 is designed for direct replacement or new installation in compatible John Deere equipment. Follow these general steps for installation:

1. **Preparation:** Ensure the equipment is powered off and secured. Identify the location for cable installation or replacement.

2. **Removal (if replacing):** Carefully disconnect the old cable from its connection points. Note the routing path to ensure correct installation of the new cable.
3. **Installation:** Route the new VGA10995 cable along the same path as the original. Secure it with any existing clips or fasteners to prevent chafing or interference with moving parts.
4. **Connection:** Connect both ends of the cable to their respective ports. Ensure connections are firm and secure. The cable features male-to-male VGA connectors.
5. **Verification:** After installation, visually inspect the cable for proper routing and secure connections before powering on the equipment.

Operating Guidelines

Once installed, the John Deere Cable VGA10995 operates as an integral part of your equipment's system. No specific user operation is required for the cable itself beyond ensuring it remains connected and undamaged. Its function is to transmit signals as intended by the equipment's design.

Maintenance

Regular inspection of the John Deere Cable VGA10995 is recommended to ensure its longevity and proper function.

- **Visual Inspection:** Periodically check the cable for signs of wear, fraying, cuts, or kinks. Ensure the connectors are clean and free of corrosion.
- **Cleaning:** If necessary, gently wipe the cable with a clean, dry cloth. Avoid using harsh chemicals or abrasive materials.
- **Secure Routing:** Confirm that the cable remains securely routed and is not pinched or exposed to excessive tension or abrasion.

Replace the cable immediately if any damage is observed to prevent potential equipment malfunction or safety hazards.

Troubleshooting

If you experience issues related to signal transmission or equipment function that you suspect are cable-related, consider the following:

- **No Signal/Intermittent Signal:**
  - Check that both ends of the cable are fully and securely connected.
  - Inspect the cable for visible damage (cuts, severe kinks, crushed sections).
  - Ensure the connectors are clean and free of debris or corrosion.
- **Physical Damage:** If the cable shows any signs of physical damage, it must be replaced. Do not attempt to repair a damaged cable.

For persistent issues, consult your equipment's service manual or contact an authorized John Deere service center.

Specifications

Feature	Detail
Brand	John Deere

Feature	Detail
Model Number	VGA10995
Description	Genuine John Deere Brake Cable
Connector Type	VGA (Male-to-Male)
Special Feature	Braided
Product Dimensions	16 x 14 x 8 inches
Item Weight	2.1 pounds
Indoor/Outdoor Usage	Indoor, Outdoor

Note: Specifications are subject to change without notice.

Warranty and Support

For information regarding warranty coverage for your John Deere Cable VGA10995, please refer to the warranty documentation provided with your original equipment or contact an authorized John Deere dealer.
For technical support or assistance with parts, please visit the official John Deere website or contact their customer service department. You can also visit the John Deere Store on Amazon for more product information.
