

Google Keep

Google Keep User Manual

Your comprehensive guide to using Google Keep

INTRODUCTION TO GOOGLE KEEP

Google Keep is a free note-taking service developed by Google. It allows users to create various types of notes, including text, lists, images, and audio. Notes can be organized with labels and colors, and reminders can be set for specific times or locations. Google Keep is designed for quick capture of thoughts and ideas, and it syncs across all your devices, making your notes accessible anywhere.

SETUP

Google Keep is available as a web application, a mobile app for Android and iOS devices, and a Chrome extension. No complex installation is required; simply access it through your Google account.

Accessing Google Keep:

- **Web Browser:** Visit keep.google.com and sign in with your Google account.
- **Android Devices:** Download the "Google Keep - Notes and Lists" app from the Google Play Store.
- **iOS Devices:** Download the "Google Keep - Notes and Lists" app from the Apple App Store.
- **Chrome Extension:** Install the "Google Keep Chrome Extension" from the Chrome Web Store for quick note-taking directly from your browser.

Once logged in, your notes will automatically sync across all devices where you are signed in with the same Google account.

OPERATING GOOGLE KEEP

This section details the core functionalities of Google Keep.

Creating Notes:

- **Text Note:** Click or tap "Take a note..." to start typing. Add a title and body text.
- **List Note:** Click or tap the "New list" icon (checkbox) to create a checklist. Each item can be checked off when completed.
- **Note with Drawing:** Click or tap the "New drawing note" icon (pen) to sketch or handwrite notes.
- **Note with Image:** Click or tap the "New note with image" icon (image) to add a photo from your device. You can also add text to the image note.
- **Note with Audio:** Click or tap the "New audio note" icon (microphone) to record a voice memo. Google Keep will automatically transcribe the audio into text.

Organizing Notes:

- **Add Labels:** Click or tap the "Add label" icon (tag) to assign categories to your notes. You can create new labels or select existing ones.
- **Change Color:** Click or tap the "Change color" icon (palette) to assign a background color to your note for visual organization.
- **Pin Notes:** Click or tap the "Pin note" icon (thumbtack) to keep important notes at the top of your Keep feed.

Setting Reminders:

Click or tap the "Remind me" icon (bell) on a note to set a reminder.

- **Time-based Reminders:** Set a specific date and time for the reminder.
- **Location-based Reminders:** Set a reminder to trigger when you arrive at or leave a specific location (requires location services enabled on your device).

Sharing and Collaboration:

You can share notes with others for collaboration. Click or tap the "Collaborator" icon (person with plus sign) on a note, then enter the email addresses of the people you want to share with. Shared notes update in real-time for all collaborators.

Archiving and Deleting Notes:

- **Archive:** Click or tap the "Archive" icon (box with down arrow) to remove a note from your main view without deleting it. Archived notes can be accessed from the "Archive" menu.
- **Delete:** Click or tap the "More" icon (three dots) and select "Delete note" to permanently remove a note. Deleted notes go to the "Trash" and are permanently deleted after 7 days.

MAINTENANCE

Google Keep is a cloud-based service, meaning most maintenance is handled automatically by Google. However, a few practices can ensure optimal performance:

- **Keep App Updated:** Ensure your Google Keep mobile app is always updated to the latest version from your device's app store. Updates often include bug fixes and performance improvements.
- **Internet Connection:** While Google Keep supports offline access for viewing and editing notes, a stable internet connection is required for notes to sync across devices. Ensure you have a reliable connection for seamless

synchronization.

- **Clear Cache (Mobile App):** If you experience performance issues on your mobile device, clearing the app's cache can sometimes resolve them. This option is usually found in your device's app settings under "Apps" or "Applications."

TROUBLESHOOTING

Here are solutions to common issues you might encounter with Google Keep:

Problem	Solution
Notes not syncing across devices.	<ul style="list-style-type: none">◦ Ensure all devices are connected to the internet.◦ Verify you are signed in with the same Google account on all devices.◦ Check for app updates and install them.◦ Try clearing the cache of the Google Keep app on your mobile device.◦ Restart the app or your device.
Notes not saving after editing.	<ul style="list-style-type: none">◦ Ensure a stable internet connection, especially when making significant changes.◦ Wait a few moments for the changes to register. Google Keep saves automatically.◦ If using a mobile app, ensure it's not being force-closed before changes can sync.
"Offline" message displayed (especially on Amazon Fire devices).	<ul style="list-style-type: none">◦ This message can sometimes be a display glitch. Verify if notes are actually syncing by checking on another device or the web version.◦ Ensure your device's date and time settings are correct.◦ Restart the app or device.
Difficulty re-ordering list items.	<ul style="list-style-type: none">◦ Ensure you are dragging the item by its handle (usually a set of dots or lines on the left).◦ Try a slower, more deliberate drag-and-drop motion.◦ Update the app to the latest version, as this might be a bug that has been fixed.

SPECIFICATIONS

Google Keep is a software application and does not have physical hardware specifications. Its primary specifications relate to compatibility and features:

- **Platform Compatibility:**
 - Web: Accessible via any modern web browser (Chrome, Firefox, Edge, Safari, etc.).
 - Android: Requires Android 5.0 (Lollipop) or higher.
 - iOS: Requires iOS 13.0 or later. Compatible with iPhone, iPad, and iPod touch.

- **Chrome OS:** Integrated with Chrome browser and available as an app.
- **Storage:** Notes are stored in your Google Drive storage, which typically offers 15 GB of free space shared across Google services (Gmail, Google Photos, Google Drive).
- **Features:** Text notes, checklists, voice notes (with transcription), image notes, drawing notes, labels, color-coding, pinning, time-based reminders, location-based reminders, sharing/collaboration, archiving, trash.
- **Offline Access:** Limited offline functionality for viewing and editing existing notes; requires internet for full synchronization and new features.

WARRANTY AND SUPPORT

As a free service, Google Keep does not come with a traditional product warranty. Support for Google Keep is provided through Google's official support channels.

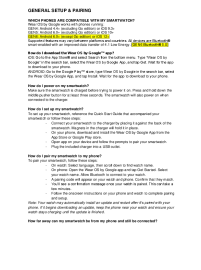

- **Google Help Center:** For common questions, troubleshooting guides, and how-to articles, visit the official Google Keep Help Center: support.google.com/keep/
- **Google Community Forums:** Engage with other users and Google experts for assistance: support.google.com/keep/community
- **Reporting Issues:** If you encounter a bug or have feedback, you can often report it directly through the Google Keep app or web interface via the "Send feedback" option.

Google continuously updates and improves its services, so keeping your app updated is the best way to ensure you have the latest features and bug fixes.

Mission Statement: Our mission at Corpus Christi Catholic Middle School is to provide all students with a healthy learning environment that allows for individual growth academically, spiritually, physically, socially, and emotionally. We pride ourselves on the many opportunities within our multitude of daily co-curricular programs, formal leadership experiences, sports activities, and **integrated technology** that promote healthy active living choices.

In a world of digital media it is our hope that this guide will provide you with a better understanding of the positive uses of digital media here at CCMS. We encourage you to become active participants in your child's learning and become a part of their digital activity.

What is Google Workspace?

- a suite of productivity applications that Google offers to schools and educational institutions for FREE
- allows students, teachers, &As to collaborate using a number of applications that enhance learning
- all of our students have a "Hybrid2Cgi" account - a name that our school board has branded for all the apps that Google offers
- Gmail, Meet, Calendar, Drive, Docs, Sheets, Slides, Photos, etc.

How do I access my child's work?

- Login: firstname.lastname@mytools2go.ca
- Password: student chosen (see them)

What is a Chromebook?

- low-cost, lightweight Internet-dependent laptop
- powered by Google Chrome operating system
- the only app natively stored that runs on the device is the Chrome Browser
- everything else is comprised of Web apps
- everything is saved on the Web and not the device, therefore, it can be accessed from any computer

How do I access my child's google account on our home computer?

Using an up-to-date browser on a Mac or PC (Chrome, Firefox, Safari, Internet Explorer)

- go to drive.google.com and login (to see their drive where their work is stored)
- go to classroom.google.com (if their teacher uses Google Classroom)
- the Google Drive app can also be downloaded on your Android or iOS device
