Dependable Industries inc. Essentials 4217-2pk

User Manual: 2-Pack Manual Pet Hair Trimmer

Brand: Dependable Industries inc. Essentials | Model: 4217-2pk

INTRODUCTION

Thank you for choosing the Dependable Industries 2-Pack Manual Pet Hair Trimmer. This manual provides essential information for the safe and effective use, maintenance, and care of your new pet grooming tool. Designed for both dogs and cats, this manual trimmer offers a quiet and stress-free grooming experience. Please read this manual thoroughly before first use and retain it for future reference.

PRODUCT FEATURES

- **Quiet Operation:** Operates silently, providing a calm grooming session free from anxiety for your pets, unlike electric trimmers.
- **Extra Blades Included:** Each trimmer comes with additional blades, ensuring a sharp tool is always available for effective grooming.
- **Comb Attachment:** Features a detachable comb attachment for detangling and preparing your pet's fur before trimming, simplifying the grooming routine.
- **Comfortable Grip Handle:** Ergonomically designed handle provides a secure and comfortable grip, allowing for precise control during grooming.
- **Portable and Versatile:** Compact and lightweight, these trimmers are suitable for on-the-go touch-ups and travel, ensuring your pet maintains a neat appearance anywhere.

PACKAGE CONTENTS

Your package should contain the following items:

- 2 x Manual Pet Hair Trimmers
- 2 x Detachable Comb Attachments (pre-attached or separate)
- Multiple Extra Blades (typically 2-4 per trimmer)

Image: The two manual pet hair trimmers, one in grey and one in black, displayed with their respective extra blades, illustrating the complete set of components.

SAFETY INFORMATION

- Always handle blades with extreme care. Blades are sharp and can cause injury.
- Keep the trimmer and all its components out of reach of children and pets when not in use.
- Do not use the trimmer on wet fur, as this can cause discomfort to your pet and reduce trimming effectiveness.
- Inspect the trimmer and blades before each use for any damage or dullness. Replace dull blades immediately.
- Use gentle, controlled strokes to avoid irritating your pet's skin.
- If your pet shows signs of distress or pain, stop grooming immediately.

SETUP

1. **Unpack:** Carefully remove all components from the packaging.
2. **Inspect Blades:** Ensure the blades are securely seated in the trimmer head. If replacing blades, refer to the 'Blade Replacement' section under Maintenance.
3. **Attach Comb (Optional):** If you wish to use the comb attachment for a more even trim, slide it onto the trimmer head until it clicks into place. Ensure it is firmly attached.

OPERATING INSTRUCTIONS

Follow these steps for effective and safe pet grooming:

1. **Prepare Your Pet:** Ensure your pet's fur is clean, dry, and free of tangles. Use a brush or the trimmer's comb attachment to detangle any knots before trimming.
2. **Positioning:** Hold the trimmer at a slight angle against the fur. For best results, trim in the direction of hair growth.
3. **Gentle Strokes:** Use short, gentle, and controlled strokes. Avoid pressing too hard against your pet's skin.
4. **Using the Comb Attachment:** If the comb attachment is used, it will help guide the blades to achieve a more uniform hair length. Move the trimmer smoothly through the fur.
5. **Monitor Your Pet:** Pay close attention to your pet's reactions. The manual nature of this trimmer helps reduce stress, but always ensure your pet is comfortable.
6. **Frequent Cleaning:** During grooming, periodically remove accumulated hair from the trimmer head to maintain efficiency.

MAINTENANCE

Proper maintenance ensures the longevity and performance of your pet hair trimmer.

Cleaning

1. **Remove Hair:** After each use, carefully remove all trapped hair from the trimmer head and comb attachment. A small brush (not included) can be helpful.
2. **Wipe Clean:** Wipe the trimmer body and blades with a dry or slightly damp cloth. Do not immerse the trimmer in water.
3. **Dry Thoroughly:** Ensure all parts are completely dry before storing.

Blade Replacement

Blades will dull over time and should be replaced to maintain trimming effectiveness and prevent pulling your pet's fur.

1. **Remove Comb (if attached):** Carefully detach the comb attachment.
2. **Open Trimmer Head:** Gently open the trimmer head mechanism to expose the blade. Refer to the product design for specific opening instructions (often involves sliding or snapping open a cover).
3. **Remove Old Blade:** With extreme caution, remove the dull blade. It is recommended to use tweezers or wear protective gloves.
4. **Insert New Blade:** Carefully insert a new blade into the designated slot, ensuring it is properly aligned and secure.
5. **Close Trimmer Head:** Close the trimmer head securely until it clicks into place.
6. **Dispose of Old Blades:** Safely dispose of used blades in a puncture-proof container.

Storage

Store the trimmer in a clean, dry place, away from direct sunlight and extreme temperatures. Keep it in its original packaging or a protective case to prevent damage.

TROUBLESHOOTING

- **Trimmer not cutting effectively:**
 - Check if the blades are dull. Replace them if necessary.
 - Ensure there is no hair buildup in the trimmer head. Clean thoroughly.
 - Confirm the comb attachment is correctly seated.
- **Pet shows discomfort during trimming:**
 - The blades might be dull, causing pulling. Replace blades.
 - You might be applying too much pressure. Use lighter, more gentle strokes.
 - Ensure the fur is completely dry and tangle-free before trimming.

SPECIFICATIONS

Product Name	2-Pack Manual Pet Hair Trimmer
Brand	Dependable Industries inc. Essentials

Model Number	4217-2pk
UPC	097958000435
