## Nulaxy KM12

# Nulaxy KM12 Bluetooth Keyboard User Manual

Model: KM12

## INTRODUCTION

Thank you for choosing the Nulaxy KM12 Rechargeable Bluetooth Keyboard. This ultra-slim, portable keyboard with a magnetic detachable leather cover is designed for seamless compatibility with various Bluetooth-enabled devices, including tablets and smartphones running iOS, Windows, or Android operating systems. This manual provides detailed instructions to help you set up, operate, and maintain your keyboard for optimal performance.

## SETUP

### 1. Charging the Keyboard

Before first use, fully charge the keyboard. Connect the provided USB cable to the keyboard's charging port and the other end to a USB power source (e.g., computer USB port, USB wall adapter). The charging indicator light will illuminate during charging and turn off when fully charged.

- Charging time: Approximately 2-3 hours.
- Battery life: Up to 60 days on a single charge with typical use.

### 2. Bluetooth Pairing

1. Ensure the keyboard is charged.
2. Turn on the keyboard by sliding the power switch to the "ON" position. The Bluetooth indicator light will flash.
3. On your device (tablet, smartphone), enable Bluetooth.
4. Search for available Bluetooth devices. The keyboard will appear as "Nulaxy KM12" or similar.
5. Select the keyboard from the list. Your device may prompt you to enter a pairing code displayed on the screen. Type this code on the Nulaxy KM12 keyboard and press **Enter**.

- Once paired, the Bluetooth indicator light on the keyboard will stop flashing and remain solid or turn off, indicating a successful connection.

### 3. Switching Operating Systems

The Nulaxy KM12 keyboard supports Android, Windows, and iOS operating systems. To switch between systems, press the **Fn** key simultaneously with the corresponding system key:

- **Fn + Q** for Android devices
- **Fn + W** for Windows devices
- **Fn + E** for iOS devices (iPad, iPhone)

## Stand for Phone and Tablet

## OPERATING INSTRUCTIONS

### General Usage

Once paired, the keyboard functions like a standard external keyboard. You can use it for typing documents, sending messages, navigating interfaces, and more. The low-profile keys provide a quiet and comfortable typing experience.

- **Automatic Sleep Mode:** The keyboard will automatically enter sleep mode after 15 minutes of inactivity to conserve battery. Press any key to wake it up.
- **Function Keys:** The top row of keys (F1-F12) often have secondary functions (e.g., volume control, media playback, screen lock) accessible by pressing the **Fn** key simultaneously with the desired function key.

## Using the Magnetic Detachable Cover as a Stand

The included leather cover is magnetic and can be detached from the keyboard. It is designed to fold into a stand, providing an optimal viewing and typing angle for your tablet or smartphone.

Image: The Nulaxy KM12 keyboard with a smartphone placed in the magnetic leather cover, which is folded to create a stand. This demonstrates the versatility of the cover for hands-free viewing and typing.

Image: A person's hands are shown typing on the Nulaxy KM12 keyboard, with a tablet propped up in the background by the keyboard's integrated stand. This illustrates the ergonomic design and practical use for extended typing sessions.

## MAINTENANCE

### Cleaning

- Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution to wipe the keyboard surface.
- Avoid excessive moisture or harsh chemicals.
- For dust between keys, use compressed air.

### Storage

- When not in use, turn off the keyboard to conserve battery.
- Store the keyboard in a cool, dry place, away from direct sunlight and extreme temperatures.
- The magnetic cover provides protection when stored in a bag or backpack.
