TRESKO RS-012

Tresko Racing Style Office Chair, Yellow, Model RS-012 User Manual

Model: RS-012 | Brand: TRESKO

1. Introduction

This manual provides instructions for the assembly, operation, and maintenance of your Tresko Racing Style Office Chair, Model RS-012. Designed for comfort and ergonomic support, this chair features a racing seat aesthetic, synthetic leather upholstery, adjustable height, and a tilt function. Please read this manual thoroughly before assembly and use to ensure proper function and safety.

2. Safety Warnings

Important: This product has a maximum weight capacity of**120 kg (approximately 265 lbs)**. Exceeding this limit may result in damage to the chair or personal injury. Please follow all assembly instructions carefully to prevent injuries. Ensure all screws and bolts are tightened securely before use and periodically check for tightness.

3. Package Contents

Before beginning assembly, verify that all components are present and undamaged. If any parts are missing or damaged, do not proceed with assembly. Contact customer support for assistance.

- Seat cushion with armrests attached
- Backrest
- Gas lift cylinder
- Star base

- Five casters
- Mechanism plate (under seat)
- Hardware pack (screws, washers, Allen key)

4. Setup and Assembly Instructions

Follow these steps to assemble your Tresko Office Chair. It is recommended to assemble the chair on a soft, clean surface to prevent damage.

1. **Attach Casters to Star Base:** Insert each of the five casters into the holes at the end of each leg of the star base. Push firmly until they click into place.
2. **Insert Gas Lift:** Place the gas lift cylinder into the central hole of the assembled star base. Ensure it is seated firmly.
3. **Attach Mechanism Plate to Seat:** Align the mechanism plate (usually pre-attached or needs to be screwed) to the underside of the seat cushion. Ensure the front of the mechanism faces the front of the seat. Secure with screws provided in the hardware pack.
4. **Attach Backrest to Seat:** Align the backrest to the seat cushion. Secure the backrest to the seat using the provided screws. Ensure all connections are tight.
5. **Connect Seat Assembly to Gas Lift:** Carefully place the assembled seat and backrest onto the gas lift cylinder. The tapered end of the gas lift should fit into the central hole of the mechanism plate under the seat.
6. **Final Check:** Once assembled, sit on the chair to ensure the gas lift is properly seated. Test all functions (height adjustment, tilt) before regular use.

5. Operating Instructions

Your Tresko Office Chair offers several adjustable features for personalized comfort.

- **Height Adjustment:** To raise the seat, lift the lever (located on the right side, under the seat) while taking your weight off the chair. To lower the seat, lift the lever while seated.
- **Tilt Function:** Pull the same lever outwards to enable the tilt function, allowing the chair to rock backward. Push the lever inwards to lock the chair in an upright position.
- **Tilt Tension Adjustment:** A round knob located under the front of the seat allows you to adjust the tension of the tilt mechanism. Turn clockwise to increase tension (making it harder to tilt) or counter-clockwise to decrease tension (making it easier to tilt).
- **360° Swivel:** The chair is designed to swivel freely 360 degrees for easy movement and access.

6. Maintenance

Regular maintenance helps prolong the life and appearance of your office chair.

- **Cleaning:** Wipe synthetic leather surfaces with a soft, damp cloth. For stubborn stains, use a mild soap solution and wipe dry immediately. Avoid harsh chemicals or abrasive cleaners.
- **Casters:** Periodically check casters for hair or debris that may impede movement. Clean as necessary.
- **Hardware:** Every few months, check all screws and bolts to ensure they are tight. Re-tighten if loose to maintain stability and safety.
- **Gas Lift:** The gas lift cylinder is a sealed unit and requires no user maintenance. If it fails to function, contact customer support.

7. Troubleshooting

If you encounter issues with your chair, refer to the following common problems and solutions:

- **Chair does not adjust height:**
  - Ensure the gas lift lever is fully engaged or disengaged as required.
  - Verify the gas lift cylinder is correctly inserted into the base and seat mechanism.
  - If the gas lift is faulty, it may need replacement. Contact customer support.
- **Chair wobbles or is unstable:**
  - Check that all screws and bolts are securely tightened, especially those connecting the backrest to the seat and the mechanism to the seat.
  - Ensure the casters are fully inserted into the star base.
- **Casters do not roll smoothly:**
  - Inspect casters for accumulated dirt, hair, or debris and remove them.
  - Ensure casters are properly installed.

8. Specifications

Brand	TRESKO
