2. Setup & Application

Follow these steps for optimal application of Maria Nila Colour Refresh:

1. **Shampoo Hair:** Wash your hair thoroughly with shampoo.
2. **Rinse & Towel-Dry:** Rinse the shampoo completely and then towel-dry your hair to remove excess water. This prepares the hair for better absorption of the color mask.
3. **Apply Colour Refresh:** Apply the Colour Refresh mask evenly throughout your hair. For a controlled application, work in sections and use your fingers or a comb to distribute the product. It is recommended to wear gloves to protect your hands from staining.
4. **Processing Time:** Allow the mask to work for 3-10 minutes, depending on the desired intensity of the color.
5. **Rinse:** Rinse your hair thoroughly with water until the water runs clear.

6. **Condition:** Finish with a conditioner to seal the cuticle and ensure a long-lasting result.

3. Usage Guidelines

The Maria Nila Colour Refresh is a versatile product that can be used to refresh existing color or to experiment with new shades.

- **Color Intensity:** The processing time (3-10 minutes) directly affects the color intensity. For a more subtle refresh, use a shorter time. For a bolder, more vibrant result, leave it on for the full 10 minutes.
- **Mixing for Custom Shades:** To achieve lighter or pastel shades, the Colour Refresh can be diluted with Maria Nila White Mix. This allows for customization of your desired color.
- **Hair Type Suitability:** This Autumn Red shade is suitable for medium to dark hair (levels 2-7). On lighter hair, it may result in a very intense color or staining if not diluted. It works best on color-treated hair; color may not be visible on virgin hair.

To maintain the vibrancy and health of your hair after using Maria Nila Colour Refresh:

- Use color-safe shampoos and conditioners to prolong the life of your semi-permanent color.
- Limit frequent hair washing, or use cool water, as hot water can cause color to fade faster.
- Reapply the Colour Refresh mask as needed to maintain your desired shade, typically every few weeks depending on your washing routine and hair porosity.

5. Important Notes & Troubleshooting

- **Discoloration Warning:** Do not use this product before any kind of bleach treatment, as it may cause discoloration.
- **Grey Hair Coverage:** This product does not cover grey hair.
- **Patch Test:** Always consult a professional hairdresser or perform a strand test first to ensure the desired result, as hair

quality and history can affect the outcome.
