## Xoopar Icebang 2 Silver 6000 mAh

# Xoopar Icebang 2 6000 mAh External Battery User Manual

Model: Icebang 2 Silver 6000 mAh

## INTRODUCTION

Thank you for choosing the Xoopar Icebang 2 6000 mAh External Battery. This portable power bank is designed to provide reliable power for your smartphones and tablets on the go. With its compact design and high capacity, it ensures your devices stay charged when you need them most. Please read this manual carefully before using the product to ensure proper operation and to maximize its lifespan.

## SAFETY INFORMATION

To ensure safe operation and prevent damage, please observe the following safety precautions:

- Do not expose the power bank to extreme temperatures (above 60°C/140°F or below -10°C/14°F), direct sunlight, or fire.
- Do not immerse the power bank in water or other liquids.
- Avoid dropping, hitting, or disassembling the device.
- Keep out of reach of children.
- Use only certified charging cables and adapters.
- Do not short-circuit the power bank.
- If the power bank swells, emits an odor, or becomes hot during charging or use, discontinue use immediately.
- Dispose of the power bank according to local regulations for electronic waste.

## PACKAGE CONTENTS

Please check the package for the following items:

- Xoopar Icebang 2 6000 mAh External Battery
- USB Charging Cable
- User Manual (this document)

## PRODUCT OVERVIEW

---

Familiarize yourself with the components of your Xoopar Icebang 2 power bank.

Figure 1: Front view of the Xoopar Icebang 2 power bank. The device features a sleek, white design with a distinctive textured surface on one half and the Xoopar brand name vertically printed on the other half.

Figure 2: Top-down view of the Koop Icebang 2. This image shows the full extent of the hexagonal textured pattern and the integrated strap at the top, designed for portability or securing a device.

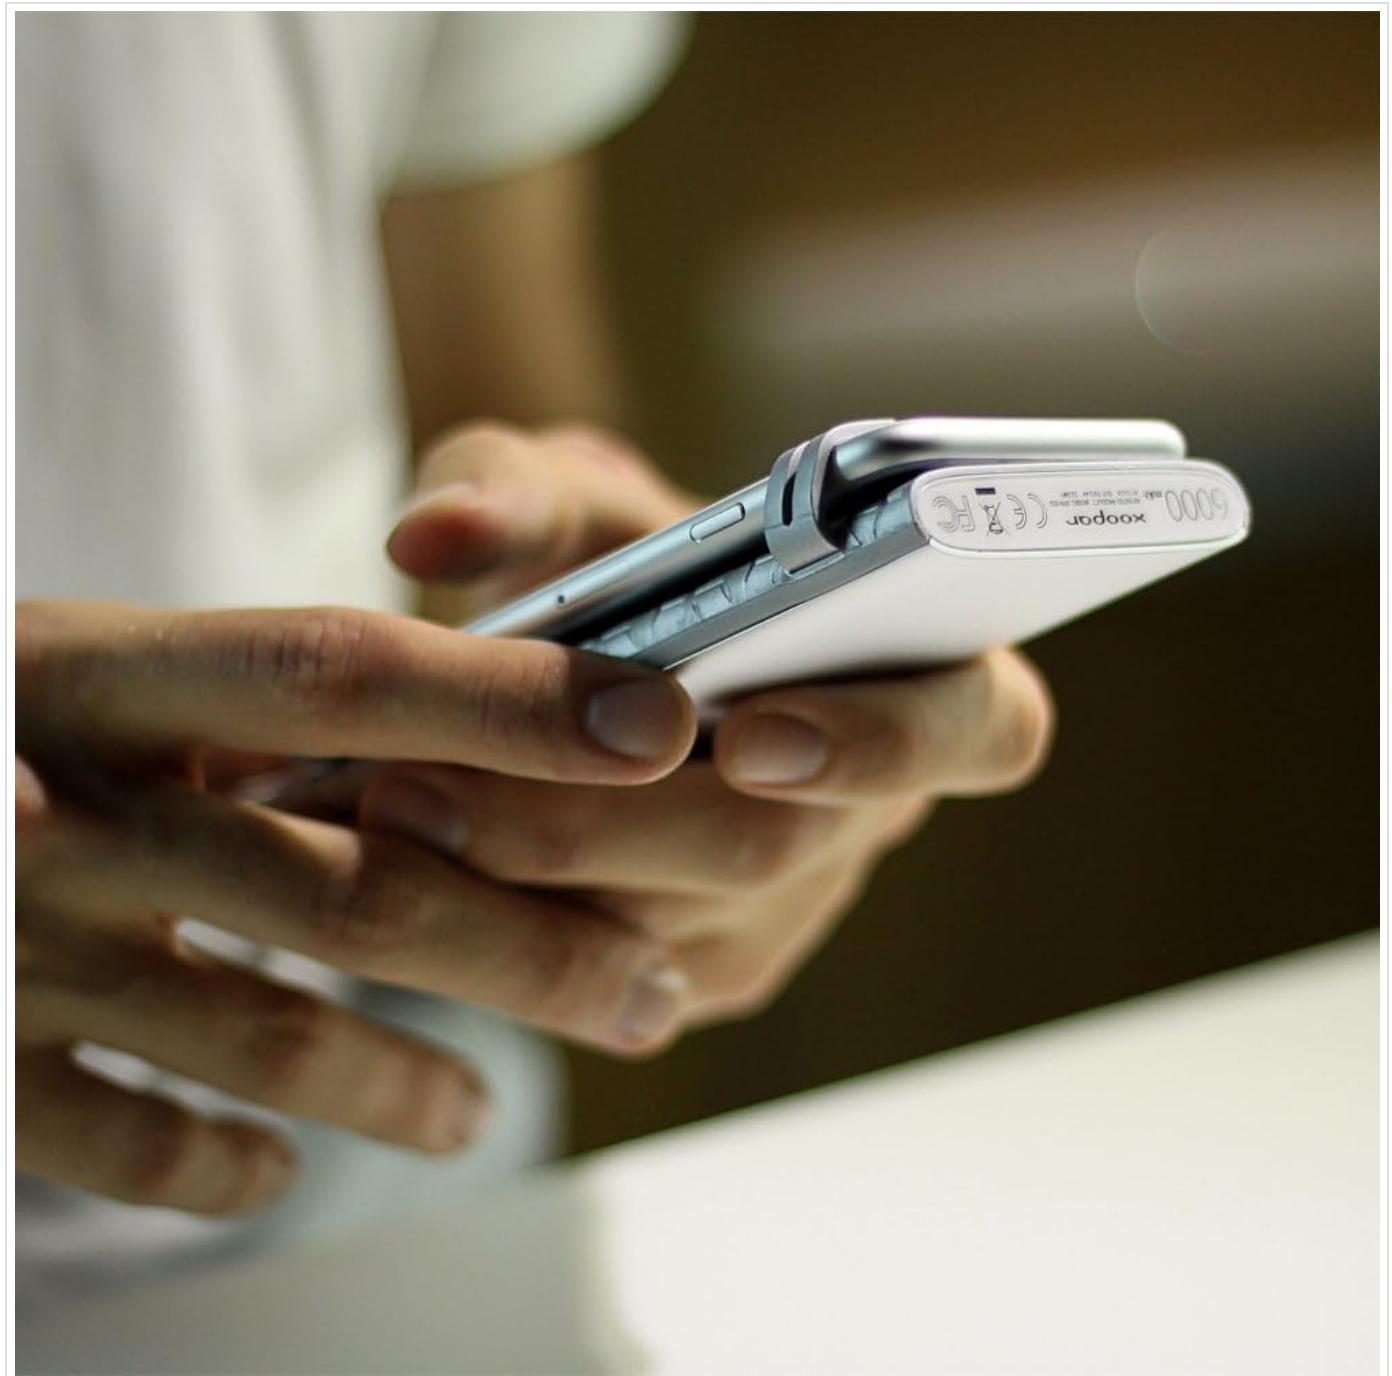

Figure 3: Usage example showing the Xoopar Icebang 2 attached to a smartphone. The image illustrates how the power bank can be held comfortably with a phone, highlighting its ergonomic design for on-the-go charging.

The Icebang 2 features a compact, rectangular design with a unique textured surface for improved grip. It includes an integrated strap for easy carrying or securing your smartphone. Charging ports and indicator lights are located on one end of the device.

## SETUP

---

### 1. Initial Charging of the Power Bank

Before first use, fully charge your Xoopar Icebang 2 power bank.

1. Connect the smaller end of the provided USB charging cable to the input port on the power bank.
2. Connect the larger end of the USB cable to a USB wall adapter (not included) or a computer's USB port.
3. The indicator lights on the power bank will illuminate to show the charging progress. All lights will be solid when fully charged.

charged.

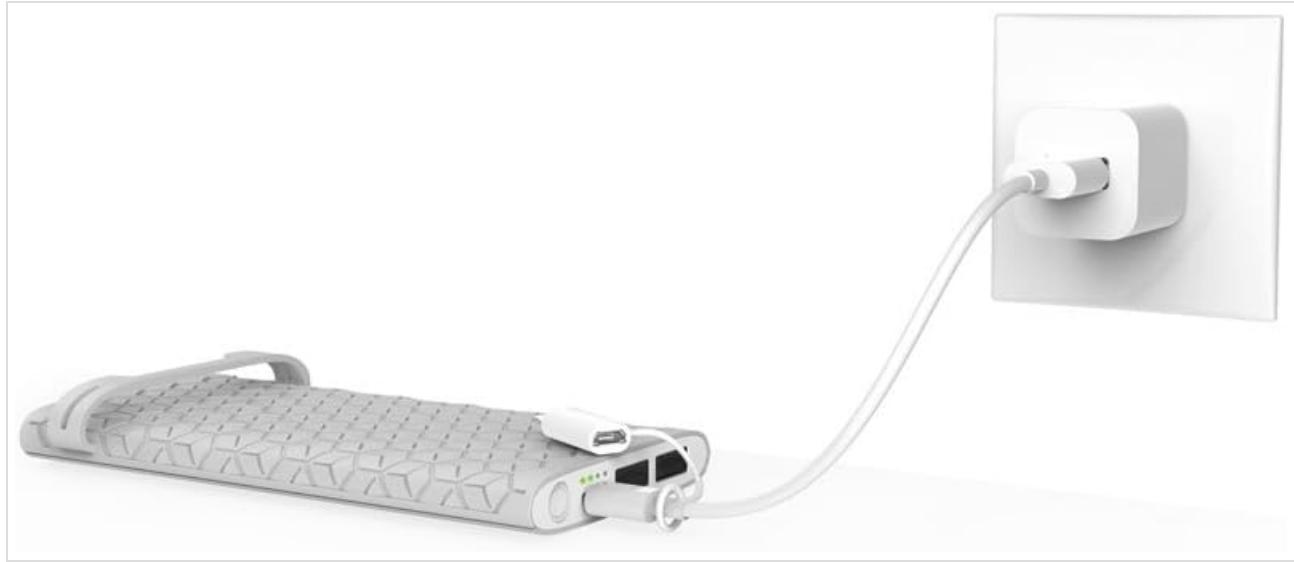

Figure 4: Charging the Xoopar Icebang 2. The image shows the power bank connected to a wall charger, with its status indicator lights visible, indicating the charging process.

## 2. Connecting Your Device

The Icebang 2 is designed to hold your smartphone securely while charging.

1. Extend the integrated strap/holder on the power bank.
2. Carefully place your smartphone into the holder, ensuring it is stable.
3. Connect your device's charging cable to the output USB port on the power bank and then to your smartphone or tablet.

## OPERATING INSTRUCTIONS

---

### 1. Charging a Smartphone or Tablet

Once your power bank is charged and your device is connected:

1. The power bank should automatically begin charging your connected device.
2. Monitor your device's screen for the charging indicator.

Figure 5: Smartphone charging with Xoopar Icebang 2. The image shows a smartphone securely held by the power bank, with the phone's display indicating a 51% charge, confirming active charging.

Figure 6: Dual device charging. This image illustrates the Xoopar Icebang 2's ability to charge two devices simultaneously, with both an Android phone and an iPhone connected and receiving power.

## 2. Checking Battery Level of the Power Bank

The LED indicator lights on the power bank show its remaining battery capacity:

- **4 LEDs:** 75-100% charged
- **3 LEDs:** 50-75% charged
- **2 LEDs:** 25-50% charged
- **1 LED:** 0-25% charged (recharge soon)

## MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surface of the power bank. Do not use harsh chemicals or abrasive materials.
- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, fully charge the power bank at least once every three months, even if not in use. Avoid completely draining the battery frequently.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Power bank not charging	Loose cable connection; faulty cable/adapter; power bank fully charged.	Ensure cables are securely connected. Try a different cable or adapter. Check indicator lights; if all are solid, it's fully charged.

Problem	Possible Cause	Solution
Device not charging from power bank	Power bank battery empty; loose cable connection; incompatible device/cable.	Recharge the power bank. Ensure cables are securely connected. Try a different charging cable for your device. Verify device compatibility.
Slow charging	Using a low-power adapter; faulty cable; device drawing high power.	Use a higher-output USB wall adapter (e.g., 2A). Try a different cable. Ensure your device is not running power-intensive applications.
