## SETUP GUIDE

---

Follow these steps to set up your iHunt Electronic Game Call:

- 1. Install Batteries:** The device requires four C-cell batteries. Unscrew the battery compartment cover located on the back side of the unit. Insert the batteries according to the polarity indicators. Securely reattach the cover.

# EASY SETUP AND OPERATION

**NO PROGRAMMING NEEDED.**  
SIMPLY DOWNLOAD THE APP,  
CONNECT VIA BLUETOOTH, AND  
POSITION YOUR SPEAKER UP TO  
50 YARDS AWAY FOR HANDS-  
FREE CONTROL.

Figure 2: Visual guide for the simple setup process, including app download and Bluetooth connection.

2. **Download the iHunt App:** On your smartphone (Android or iPhone), download the official iHunt App from your device's app store. The app is free to download.
3. **Power On the Device:** Locate the power button on the iHunt Game Call and turn it on. A small indicator light should illuminate.
4. **Pair via Bluetooth:**
  - Enable Bluetooth on your smartphone.
  - Open the iHunt App. The app will guide you through the pairing process.
  - Select the iHunt device from the list of available Bluetooth devices.
  - Once paired, the device is ready for use.
5. **Position the Speaker:** For optimal performance, place the speaker up to 50 yards away from your hunting position. Ensure a clear line of sight between your smartphone and the speaker for reliable Bluetooth connection.

## OPERATING INSTRUCTIONS

Once your iHunt Game Call is set up and paired, you can begin using it to attract game:

1. **Access Calls:** Open the iHunt App on your smartphone. Navigate to the "Hunting Calls" section. You can browse calls by species or create custom playlists.

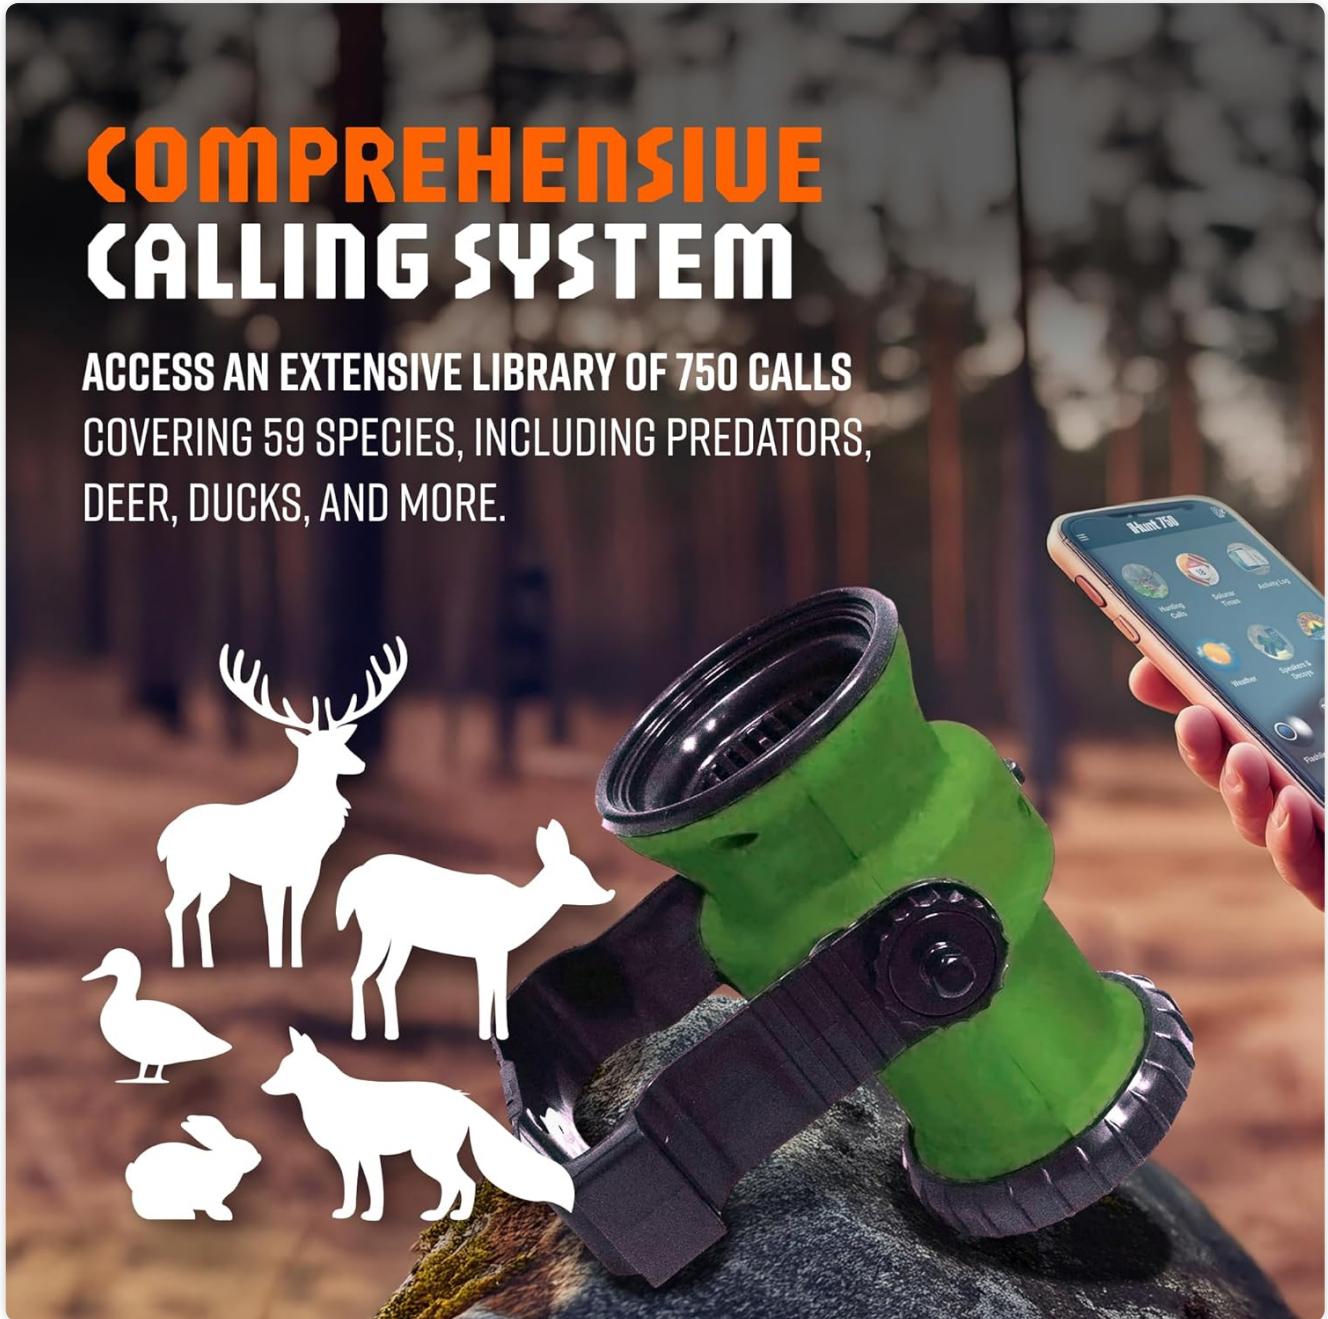

Figure 4: The iHunt app offers an extensive library of 750 calls covering 59 species.

2. **Play Calls:** Select the desired animal call from the app. Tap to play the call through the connected iHunt speaker. You can adjust the volume directly from your smartphone. The 115dB speaker ensures calls are loud and clear.

# POWERFUL AND CLEAR SOUND

FEATURES A ROBUST 115DB BLUETOOTH SPEAKER ENSURING CRYSTAL-CLEAR CALLS FOR BOTH LONG-DISTANCE AND CLOSE-RANGE HUNTING.

Figure 5: The 115dB Bluetooth speaker provides powerful and clear sound for effective calling.

### 3. Utilize App Features: The iHunt App offers additional tools to enhance your hunting strategy:

- **GPS Locator:** Track your position and mark key locations.
- **Weather Forecasts:** Get real-time weather updates, including wind direction.
- **Hunting Logs:** Record your hunting activities and observations.
- **Solunar Tables:** Access information on optimal hunting and fishing times.

# ENHANCE YOUR HUNTING EXPERIENCE

SEAMLESSLY INTEGRATE WITH THE IHUNT APP FOR REMOTE CONTROL, GPS LOCATOR, WEATHER UPDATES, AND HUNTING LOGS.

Figure 6: The iHunt app provides remote control and various useful features for hunters.

## MAINTENANCE

To ensure the longevity and optimal performance of your iHunt Game Call, follow these maintenance guidelines:

- Battery Replacement:** Replace all four C-cell batteries when the sound quality diminishes or the device fails to power on. Battery life is approximately 50 hours.
- Cleaning:** Wipe the exterior of the device with a damp cloth to remove dirt and debris. Do not submerge the device in water.
- Storage:** Store the device in a cool, dry place when not in use. Remove batteries if storing for extended periods to prevent leakage.
- Weather Resistance:** The iHunt Game Call is weather-resistant with coated circuitry, designed to withstand outdoor conditions. However, prolonged exposure to extreme weather (heavy rain, snow) should be avoided.

# RUGGED AND PORTABLE DESIGN

WEATHER-RESISTANT WITH COATED CIRCUITRY; BUILT TO WITHSTAND OUTDOOR CONDITIONS AND EASILY FITS INTO YOUR HUNTING GEAR.

Figure 7: The iHunt game call features a rugged, weather-resistant design for durability in the field.

## TROUBLESHOOTING

If you encounter issues with your iHunt Game Call, refer to the following common solutions:

Problem	Possible Cause	Solution
Device does not power on.	Dead or incorrectly installed batteries.	Replace batteries with fresh C-cells, ensuring correct polarity.
No sound from speaker.	Speaker not paired, volume too low, or app issue.	Ensure Bluetooth is connected, increase volume on phone and app, restart app/device.
Bluetooth connection is unstable or drops.	Device too far from phone, obstacles, or interference.	Reduce distance between phone and speaker (max 50 yards), ensure clear line of sight, avoid strong interference sources.

Problem	Possible Cause	Solution
App not responding or crashing.	Outdated app version or temporary software glitch.	Update the iHunt App to the latest version. Close and reopen the app, or restart your smartphone.

## SPECIFICATIONS

---
