T-fal Ultimate Hard Anodized Nonstick Cookware Set

Model: 32406055612 | **Brand:** Tefal

14 Piece Set

INTRODUCTION AND OVERVIEW

The T-fal Ultimate Hard Anodized Nonstick Cookware Set is engineered for diverse culinary tasks, from daily meals to special occasions. This 14-piece collection is constructed from rugged hard anodized aluminum, ensuring durability and consistent performance. It incorporates the T-fal Heat Mastery System, which includes a superior and long-lasting titanium nonstick coating, an anti-warping even heat base, and the patented Thermo-Spot technology. This system is designed to deliver perfectly cooked results by indicating optimal preheating temperature. The cookware offers supreme resistance to corrosion, scratching, and other damage, making it a reliable addition to any kitchen. It is oven safe and dishwasher safe, providing multi-purpose versatility for frying, browning, sautéing, steaming, and slow cooking.

KEY FEATURES

Durable Construction

The cookware features a hard anodized exterior and a forged design, built for long-lasting performance. The titanium nonstick coating ensures food slides smoothly, simplifying cooking and cleanup.

HARD ANODIZED EXTERIOR:
With forged construction for ultimate durability

Titanium Non-Stick Interior

The titanium reinforced nonstick interior provides effortless food release and makes cleanup simple, preventing food from sticking to the bottom of the pans.

TITANIUM NON-STICK: For effortless food release and clean up

Thermo-Spot Technology

T-fal's unique Thermo-Spot heat indicator turns solid red when the pan is properly preheated, ensuring optimal cooking temperature for consistent results.

THERMO-SPOT TECHNOLOGY®:

Premium Design Elements

The cookware features riveted silicone handles for a comfortable and secure grip. Vented tempered glass lids trap heat and moisture while allowing visibility of the cooking process.

**COMFORTABLE SILICONE HANDLES
& VENTED LIDS:**
Maintain visibility while trapping heat
and moisture

Even Heat Base

The TechnoResist Anti-warp Base ensures even heat distribution, eliminating hot spots for reliable and consistent cooking results across the entire surface of the pan.

SETUP & FIRST USE

1. **Unpacking:** Carefully remove all cookware pieces and lids from the packaging. Remove any protective films or tags.
2. **Initial Cleaning:** Before first use, wash all pieces thoroughly with warm, soapy water. Rinse well and dry completely.
3. **Preheating with Thermo-Spot:** Place the pan on the stovetop over medium heat. The Thermo-Spot indicator in the center of the pan will turn solid red when it has reached the optimal cooking temperature, signaling it's ready for food.

OPERATING INSTRUCTIONS

- **Heat Settings:** For best results and to preserve the nonstick coating, use low to medium heat settings. High heat is generally not necessary due to the efficient heat distribution.
- **Utensil Compatibility:** Use only plastic, silicone, or wooden utensils to avoid scratching the nonstick

surface. Metal utensils are not recommended.

- **Oven Safety:** The pots and pans are oven safe up to 400°F (204°C). The tempered glass lids are oven safe up to 350°F (177°C). Always use oven mitts when handling hot cookware.
- **Stovetop Compatibility:** This cookware set is suitable for all stovetops, *excluding induction*.

CARE & MAINTENANCE

- **Cleaning:** The T-fal Ultimate Hard Anodized Nonstick Cookware Set is dishwasher safe. For extended longevity of the nonstick coating, hand washing with warm, soapy water and a soft sponge is recommended.
- **Avoid Abrasives:** Do not use abrasive cleaners, steel wool, or scouring pads, as these can damage the nonstick surface and the exterior finish.
- **Storage:** To prevent scratching the nonstick surface when storing, place a paper towel or soft cloth between stacked pans.

TROUBLESHOOTING

- **Food Sticking:** Ensure the pan is properly preheated using the Thermo-Spot indicator. Always use a small amount of cooking oil or butter. Avoid using cooking sprays that can build up residue over time.
- **Uneven Cooking:** Verify that the cookware is placed centrally on the heat source. Ensure the heat setting is appropriate (medium heat is usually sufficient).
- **Discoloration:** Minor discoloration may occur over time due to high heat or certain foods. This typically does not affect the performance of the nonstick coating.

SPECIFICATIONS

Attribute	Detail
Brand	Tefal
Model Number	32406055612
Material	Hard Anodized Aluminum, Nonstick (Titanium reinforced)
Color	Black
Size	14-Piece Set
