# Bahco BPM91BS Impact Wrench Vinyl Boot Small Instruction Manual

Model: BPM91BS

## INTRODUCTION

This manual provides essential instructions for the proper installation, use, and maintenance of your Bahco BPM91BS Impact Wrench Vinyl Boot Small. Please read this manual thoroughly before use to ensure safe and efficient operation and to prolong the life of your product.

## SAFETY INFORMATION

- Always wear appropriate personal protective equipment (PPE) when working with power tools.
- Ensure the impact wrench is disconnected from its air supply before installing or removing the vinyl boot.
- Inspect the boot for damage before each use. Do not use a damaged boot.
- Keep hands and fingers clear of moving parts of the impact wrench during operation.
- This boot is designed for specific Bahco impact wrench models (BPM914 and BPM916). Using it with incompatible models may result in improper fit or damage.

## PRODUCT OVERVIEW

The Bahco BPM91BS Vinyl Boot is a protective accessory designed to shield your Bahco impact wrench models BPM914 and BPM916 from external damage, scratches, and wear in demanding work environments. Made from durable vinyl (Kunststoff), it helps extend the lifespan of your tool.

*Image Description: A black, glossy vinyl boot for an impact wrench, featuring the white Bahco logo with a fish emblem on its side. The boot is designed to fit snugly over the body of compatible impact wrenches, providing a protective layer.*

## SETUP AND INSTALLATION

1. **Prepare the Impact Wrench:** Ensure your Bahco impact wrench (models BPM914 or BPM916) is clean and free from debris. Disconnect it from the compressed air supply.
2. **Orient the Boot:** Identify the correct orientation of the vinyl boot. It is shaped to fit specific contours of the impact wrench body.
3. **Slide On the Boot:** Carefully slide the vinyl boot over the body of the impact wrench. Start from one end and work your way to the other, ensuring a snug fit without excessive force.
4. **Adjust for Fit:** Once the boot is mostly on, gently adjust it to ensure all parts of the impact wrench body are covered and the boot sits evenly. Ensure no buttons or vents are obstructed.
5. **Verify Compatibility:** Confirm that the boot fits securely and does not interfere with the operation of the impact wrench or its accessories.

## OPERATING GUIDELINES

The vinyl boot is a protective accessory and does not alter the operational procedures of your Bahco impact wrench. Operate your impact wrench according to its specific instruction manual. The boot provides an additional layer of protection against impacts, abrasions, and environmental elements.

- Always ensure the boot is properly seated before operating the impact wrench.
- The boot may offer a slightly improved grip due to its material.
- Do not attempt to modify the boot or the impact wrench to force a fit.

## MAINTENANCE

- **Cleaning:** Clean the vinyl boot regularly with a damp cloth and mild soap. Avoid harsh chemicals or solvents that could damage the vinyl material.
- **Inspection:** Periodically inspect the boot for any signs of wear, tears, cracks, or other damage.
- **Replacement:** If the boot shows significant damage, replace it immediately to maintain optimal protection for your impact wrench.

## TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|---------|----------------|----------|
|---------|----------------|----------|

| Problem                 | Possible Cause                            | Solution                                                                            |
|-------------------------|-------------------------------------------|-------------------------------------------------------------------------------------|
| Boot does not fit       | Incorrect model compatibility             | Ensure the boot (BPM91BS) is used with Bahco impact wrench models BPM914 or BPM916. |
| Boot is torn or damaged | Wear and tear, impact                     | Replace the boot with a new Bahco BPM91BS vinyl boot.                               |
| Boot slips off          | Improper installation, stretched material | Reinstall the boot carefully, ensuring a snug fit. If stretched, replace the boot.  |
