THERMOS F3005SW6

THERMOS FUNTAINER 10 Ounce Stainless Steel Vacuum Insulated Kids Food Jar, C-3PO

Model: F3005SW6

Brand: THERMOS

INTRODUCTION

The THERMOS FUNTAINER 10 Ounce Stainless Steel Vacuum Insulated Kids Food Jar is designed to provide reliable temperature retention for your child's meals. Utilizing THERMOS vacuum insulation technology, this food jar maintains food temperature by creating an airless space between its double stainless steel walls. This design ensures that food stays hot or cold for extended periods, supporting a healthy and convenient lifestyle.

COMPONENTS

Your THERMOS FUNTAINER food jar consists of the following main components:

- **Stainless Steel Food Jar Body:** The primary insulated container.

- **Lid:** A secure, twist-on lid designed to seal the container and maintain temperature.

SETUP AND INITIAL PREPARATION

1. **Initial Cleaning:** Before first use, wash all parts of the food jar and lid with warm, soapy water. Rinse thoroughly and dry completely.
2. **Pre-heating for Hot Food:** To maximize heat retention, pre-heat the interior of the food jar. Fill the jar with hot tap water (not boiling) and let it stand for 5-10 minutes. Empty the water just before filling with hot food.
3. **Pre-chilling for Cold Food:** To maximize cold retention, pre-chill the interior of the food jar. Fill the jar with cold tap water or ice water and let it stand for 5-10 minutes. Empty the water just before filling with cold food.

OPERATING INSTRUCTIONS

Follow these steps to use your THERMOS FUNTAINER food jar:

1. **Prepare Food:** Ensure your food is at the desired temperature (hot or cold) before placing it in the jar. For best results with hot food, ensure it is heated thoroughly.
2. **Fill the Jar:** Place your prepared food into the pre-heated or pre-chilled stainless steel food jar. The wide mouth design makes it easy to fill.
3. **Secure the Lid:** Twist the lid firmly onto the food jar until it is securely sealed. This is crucial for maintaining the internal temperature and preventing leaks.
4. **Temperature Retention:** The food jar is designed to keep food hot for up to 5 hours and cold for up to 7 hours. The exterior remains cool to the touch even with hot contents.

CARE AND MAINTENANCE

- **Hand Wash Only:** It is recommended to hand wash all components of the food jar with warm, soapy water.
- **Do Not Dishwash:** This product is not dishwasher safe. Dishwashing may damage the insulation properties or exterior finish.
- **Drying:** Ensure all parts are thoroughly dried after washing to prevent water spots or odors.

- **Lid Seal:** Periodically check the rubber seal on the lid for proper placement and cleanliness to ensure optimal sealing and temperature retention.

TROUBLESHOOTING

If you experience issues with your food jar, consider the following:

- **Food Not Staying Hot/Cold:** Ensure the pre-heating/pre-chilling steps were followed correctly. Verify the lid is securely tightened and the rubber seal is properly seated.
- **Leaking:** Check that the lid is fully tightened and the rubber seal is clean and correctly positioned.
- **Odors:** Thoroughly clean the jar and lid with warm, soapy water. For persistent odors, a mixture of baking soda and water can be used, followed by a thorough rinse.

SPECIFICATIONS

Feature	Detail
Model Number	F3005SW6
Capacity	10 Ounce (296 Milliliters)
Material	Stainless Steel (BPA Free)
Product Dimensions	3.5"L x 3.5"W x 4.5"H
Item Weight	0.25 Pounds (4 ounces)
Temperature Retention (Hot)	Up to 5 hours
Temperature Retention (Cold)	Up to 7 hours
Care Instructions	Hand Wash Only
Dishwasher Safe	No
Microwaveable	No (Stainless steel body)
Color	C-3PO
