

## Air Hogs 6026325

# Air Hogs Shadow Launcher 2-in-1 Heli Launching Vehicle

Model: 6026325

Brand: Air Hogs

## INTRODUCTION

This manual provides essential information for the safe and effective operation of your Air Hogs Shadow Launcher 2-in-1 Heli Launching Vehicle. Please read all instructions carefully before use to ensure proper setup, operation, and maintenance. This product combines a remote-controlled ground vehicle with a detachable, remote-controlled helicopter, offering versatile play options.

## WHAT'S IN THE BOX

- 1 Air Hogs Shadow Launcher Vehicle (includes detachable helicopter)
- 1 Remote Control
- 1 Rechargeable Battery (for helicopter)

**Note:** 6 AA batteries are required for the remote control and are not included.

## SETUP

1. **Install Remote Control Batteries:** Open the battery compartment on the remote control and insert 6 fresh AA batteries, ensuring correct polarity. Close the compartment securely.
2. **Charge Helicopter Battery:** Connect the helicopter's rechargeable battery to the charging port on the remote control using the provided cable. Allow sufficient time for a full charge as indicated by the remote control's LED (refer to remote control specific instructions for LED indicators).
3. **Prepare Vehicle:** Ensure the helicopter is securely docked within the Shadow Launcher vehicle. The vehicle is ready for ground operation or helicopter launch once the helicopter is charged and the

remote control has fresh batteries.

Image: The Air Hogs Shadow Launcher vehicle with its top panels open, revealing the helicopter securely docked inside. The vehicle is grey with neon green accents.

Image: All components of the Air Hogs Shadow Launcher set laid out: the grey vehicle, the black remote control with green accents, and the small grey and neon green helicopter.

## OPERATING INSTRUCTIONS

### Ground Vehicle Operation

Use the remote control's joysticks to steer the Shadow Launcher vehicle. The vehicle is designed for indoor and outdoor use on smooth surfaces. Avoid operating in wet conditions or on rough terrain that could

damage the wheels or chassis.

### Helicopter Launch and Flight

1. **Launch:** While the vehicle is stationary, press the designated 'Copter Eject Button' on the remote control to release and launch the helicopter.
2. **Flight Controls:** Use the remote control's joysticks to control the helicopter's ascent, descent, forward, backward, and rotational movements. Practice in an open area to familiarize yourself with the controls.
3. **Landing:** Gently reduce throttle to land the helicopter. Ensure a clear landing zone.

## MAINTENANCE

---

- **Cleaning:** Use a soft, dry cloth to clean the vehicle and helicopter. Do not use water or cleaning solutions.
- **Propeller Inspection:** Regularly check helicopter propellers for damage. Replace any bent or broken propellers to ensure stable flight.
- **Battery Care:** Always allow the helicopter battery to cool before recharging. Do not overcharge. Remove batteries from the remote control if storing for extended periods.

## TROUBLESHOOTING

---

- **Vehicle/Helicopter Not Responding:**
  - Ensure both the remote control and the vehicle/helicopter are powered on.
  - Check remote control batteries and replace if necessary.
  - Ensure the helicopter battery is fully charged.
- **Helicopter Not Flying Straight/Crashing:**
  - Inspect propellers for damage or debris. Replace if necessary.
  - Ensure the helicopter is properly calibrated (refer to specific remote control instructions for calibration steps).
  - Practice in a calm environment, free from drafts.
- **Short Battery Life:**

- Ensure the helicopter battery is fully charged before each use.
- Battery performance may decrease over time with repeated use and charging cycles.

## SPECIFICATIONS

| Feature                  | Detail                                               |
